Running & Walking For Women Over 40 Kathrine Switzer,2014-02-04 A fun, easy, and economical route to fitness and health: "This book will give women everywhere the guidance they need" (Grete Waitz, nine-time winner of the New York City Marathon). Women's fitness pioneer Kathrine Switzer has been on her feet for over fifty years. She knows how running or walking is the fastest, easiest, and least expensive road to fitness for women of any age. Recommendations for shoes, clothing, injury prevention, nutrition, motivation, and finding the time in your life will keep you exercising safely and comfortably. For women over forty, Switzer's expert running and walking programs are specifically designed for you, enabling you to keep healthy and enjoy life to the fullest for decades to come. The Better Brain Solution Steven Masley,2018 Alzheimer's disease is the #1 most terrifying disease today. Despite billions of dollars of research, there are no significant cures for dementia or Alzheimer's (the most common form of memory loss), which accounts for up to 70 percent of all dementia. Almost six million Americans have been diagnosed with Alzheimer's; with an annual cost of dementia care and research in the United States of \$215 billion, more than is spent on cancer or heart disease. In *The Better Brain Solution*, Dr. Steven Masley writes of the two urgent epidemics we are facing now--escalating rates of disabling memory loss and rapidly increasing rates of diabetes and pre-diabetes--and yet both conditions are largely preventable. Most people today understand the effect that elevated blood sugar has on their cardiovascular health, but few understand that insulin resistance is significantly damaging to the brain. In *The Better Brain Solution*, Masley offers a program that, in the fight against diabetes, memory loss, and cognitive decline, can reverse insulin resistance, enhance cognitive performance, and stop cognitive decline before it is too late. Masley gives the reader the tools he has developed for his own private patients to prevent and reverse this metabolic syndrome and to achieve normal blood sugar levels (below 95 mg/dL). He explores the impact of insulin resistance on the brain and the heart/brain/diabetes connection, explaining how cognitive function and memory work and he discusses the risk factors for memory loss. *The Better Brain Solution* offers the reader a comprehensive plan for achieving optimal brain health, providing information on brain-boosting foods and supplements as well as providing a practical way to assess cognitive function. With 50 recipes for foods that improve brain and body and that are easy to prepare.

The Better Brain Solution Steven Masley, M.D.,2018-12-31 In this step-by-

step guide to enhancing cognitive function and fighting—and even reversing—memory loss, Dr. Steven Masley (bestselling author of *The 30-Day Heart Tune-Up*) lays out a four-pillar diet-and-lifestyle approach to improving brain health, focusing on food, nutrients, exercise, and stress management. Based on more than a decade of clinical research, *The Better Brain Solution* provides the tools you need to fight back. Here, Dr. Masley explains exactly how changes in the way you eat and live can reverse elevated blood sugar levels and in the process improve cognitive performance and avert memory loss. Research has shown that insulin resistance, a condition that can lead to diabetes, can also cause memory loss and dementia, including Alzheimer's disease. Plus fifty delicious, easy-to-prepare recipes specially designed for optimal brain and body health, along with a practical way to assess cognitive function, and much, much more.
