Healthy Is the New Skinny Katie H. Willcox,2017-01-17 We live in a world where beauty is everything. Society tells us that if we just looked a certain way, if we had the right products, if we were skinny enough, then we would be enough —we would have value. Society is wrong, but it took Katie H. Willcox years to understand this: “Over the course of my 30 short years, I have both worked as a professional model and been the exact opposite of our culture’s beauty ideal. I have struggled with my weight and felt like I didn’t and never would fit in. Then I had a powerful realization: my misery and self-loathing didn’t change with my weight or how ‘pretty’ society thought I was, so my looks weren’t the source of happiness and worth that I had believed them to be. But then, what was? And how had I come to invest so much of myself in beliefs that were so untrue?” In these pages, Katie shares the lessons she learned in her journey to find the answers to these questions. She reveals who gains from our feeling small and why we need to examine the messages we receive from our culture and our families. She explains how we can redefine beauty, make healthy the new “skinny,” and harness the power of our thoughts to choose self-love. Katie encourages us to discover our true magnificent selves, find our purpose, and pursue our dreams —and help others to do the same. Join the movement! Know Your Price Andre M. Perry,2020-05-19 The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. “That's just how they are” or “there's really no excuse”: we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilkinsburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilkinsburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. Know Your Price demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.

Read My Shorts! Swift Montana Smith,2006-11 Although Swift Montana Smith's book entitled READ MY SHORTS is mostly about Cowboy Action Shooting and his personal experiences within the sport, there are also stories about the Wild West included within. The book is split into two parts with the first part being short stories that can be read in less than an hour; having said that, the eighteen stories listed in Part One will take several hours to read. The addition of the longer, short story in Part Two of the book about a Wild West character called Edgar Windfal is a pleasant narrative and very interesting. While some of the stories appear to be actual experiences, many of them are fictional in nature and have a comedic tone and are meant to be amusing. A few of the stories are serious and emotional; including the last one entitled Edgar Windfal - The Lucky Stone. Overall, the book is easy to read and very enjoyable.

A poignant play about growing up, chosen for Liverpool's Write Now One-Act Play Festival, and described by critic Laurence Raw as sharply observed... vividly demonstrates how the past exerts a powerful influence over the present.

My Shorts Bert G. Osterberg,2016-07-22 Ranging from dark tales of vampires and serial killers to tongue-in-cheek science fiction to comedy and farce, My Shorts, by author Bert G. Osterberg, shares an eclectic collection of short stories centering on life, death, and laughter. The Option was written while Osterberg contemplated his past. High School was inspired by a plot twist in Tchaikovsky's opera, The Queen of Spades, and recalls his own tortured high school career. To Amerikay calls on his love of history as told in the stories of ordinary people who do extraordinary things. Three Views shares Osterberg's political statement. Netties Triumph was penned for his granddaughter to illustrate when she was in grade school. And My Aunt Ruth tells about this feisty woman who lived in Michigan all of her life. From a suspenseful story of a dark castle in Transylvania to a fanciful encounter with a wonderfully strange fifth grade teacher, this collection of tales entertains and often challenges conventional ideas and notions.

The Palgrave Encyclopedia of American Horror Film Shorts Gary D. Rhodes,David J. Hogan,2022-07-26 The Palgrave Encyclopedia of American Horror Film Shorts chronicles for the first time over 1,500 horror and horror-related short subjects theatrically released between 1915, at the dawn of the feature film era when shorts became a differentiated category of cinema, and 1976, when the last of the horror-related shorts were distributed to movie theaters. Individual entries feature plot synopses, cast and crew information, and - where possible - production histories and original critical reviews. A small number of the short subjects catalogued herein are famous; such as those featuring the likes of Buster Keaton, Laurel and Hardy, The Three Stooges, Bugs Bunny, and Daffy Duck; but the bulk are forgotten. The diverse content of these shorts includes ghosts, devils, witches, vampires, skeletons, mad scientists, monsters, hypnotists, gorillas, dinosaurs, and so much more, including relevant nonfiction newsreels. Their rediscovery notably rewrites many chapters of the history of horror cinema, from increasing our understanding of the sheer number horror films that were produced and viewed by audiences to shedding light on particular subgenres and specific narrative and historical trends.
