The Post-War Trilogy Robert Ryan, 2018-10-30 Three post-World War II adventure novels inspired by real events—from an acclaimed British author who “skillfully blends fact with fiction” (Time Out London). After Midnight: Ryan’s novel, based on a true story, begins with a letter from Australian bomber pilot Bill Carr to his daughter on her first birthday in 1944. That same day, he takes off on a mission over the mountains of Northern Italy and is never heard from again. Twenty years later, Lindy Carr arrives in Italy to find out what happened to her father. Her guide is Jack Kirby, a daredevil motorcycle racer and pilot who flew Mosquito fighters in the war and spent time among the Italian partisans. What Jack and Lindy uncover in the Italian Alps will change both their lives forever. “Ryan’s mastery of 1940s detail and his ability to discover intriguing but unvisited byways of the war can be taken for granted; but the more recent storyline shows him equally adept at handling a 1960s setting.” —The Sunday Times The Last Sunrise: The real history of World War II’s most daring fighter squadron is the inspiration for this riveting novel of adventure and romance in the Far East. In 1941, Lee Crane was a Flying Tiger, one of dozens of American pilots recruited to join the Chinese Air Force in the fight against the Japanese. Wild in the air and on the ground, the Tigers broke hearts all over Burma, and Crane was no different—until he fell in love with a stunning Anglo-Indian widow. But in the chaos of war, Crane lost track of the woman of his dreams, and spent the next seven years convincing himself it wasn’t meant to be. Now a chance encounter with another long-lost beauty has him ready to plunge back into the past, praying he will come up with a different answer this time. “The flying scenes are brilliantly handled. Ryan’s research is impressive. . . . Bold and successful.” —The Sunday Times Dying Day: In this Cold War spy thriller based on actual case files, a woman is willing to do whatever it takes to bring her sister home. In the darkest days of World War II, Laura McGill and her sister, Diana, ventured behind enemy lines on behalf of Britain’s Special Operations Executive. Now it is 1948, four years since Diana disappeared inside occupied France, and Laura has reached a point of desperation that leads her to kidnap the head clerk of the SOE at gunpoint to learn the name of the spy who ran her sister’s last mission. That spy, James Hadley Webb, will take Laura to the divided city of Berlin, where he is waging a shadow war of influence and intrigue—and losing. Laura’s arrival may be just what Webb needs to stop his agents from dying. “Thrilling post war espionage action.” —Tatler

A Season in Chezgh'un Darrel J. McLeod,2023-10-07 A subversive novel by acclaimed Cree author Darrel J. McLeod, infused with the contradictory triumph and pain of finding conventional success in a world that feels alien. James, a talented and conflicted Cree man from a tiny settlement in Northern Alberta, has settled into a comfortable middle-class life in Kitsilano, a trendy neighbourhood of Vancouver. He is living the life he had once dreamed of—travel, a charming circle of sophisticated friends, a promising career and a loving relationship with a caring man—but he chafes at being assimilated into mainstream society, removed from his people and culture. The untimely death of James's mother, his only link to his extended family and community, propels him into a quest to reconnect with his roots. He secures a job as a principal in a remote northern Dakeh community but quickly learns that life there isn't the fix he'd hoped it would be: His encounters with poverty, cultural disruption and abuse conjure ghosts from his past that drive him toward self-destruction. During the single year he spends in northern BC, James takes solace in the richness of the Dakeh culture—the indomitable spirit of the people, and the splendour of nature—all the while fighting to keep his dark side from destroying his life.

Fighter Andy Lee,Niall Kelly,2018-11-02 An epic and moving journey, from the backstreets of London and Limerick to the summit of the world's most unforgiving sport.In 2005, at the age of twenty, Andy Lee left Ireland to make it in the harsh world of professional boxing. Leaving home for the dust and faded glamour of Detroit, over the next ten years, under the guidance of the legendary Emanuel Steward, he set about honing his craft, winning fight after fight and slowly climbing the professional ranks.Then, in 2012, his star ascendant, Lee suffered two devastating blows in quick succession: defeat in his first World Championship bout and the sudden loss of Steward, his guide and confidant. Bereft, his career in jeopardy, the path to redemption would test every hard-won lesson of the previous decade ...Fighter is a lyrical and philosophical memoir about resilience, bravery and the wisdom to be found at the limits of human experience.

Terminal Alliance Jim C. Hines,2017 The Krakau came to Earth to invite humanity into a growing alliance of sentient species. But they hadn't counted on a mutated plague wiping out half the human population, turning the rest into shambling, near-unstoppable animals, and basically destroying human civilization. You know, your standard apocalypse. The Krakau's first impulse was to turn around and go home. (After all, it's hard to have diplomatic relations with mindless savages who eat your diplomats.) Their second impulse was to try to fix us. Now, a century later, human beings might not be what they once were, but at least they're no longer trying to eat everyone. Mostly.--Jacket flap.

The Mask of Masculinity Lewis Howes, 2017-10-31 At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what masculinity was. Howes began a personal journey to find inner peace and to uncover the many masks that men – young and old – wear. In *The Mask of Masculinity*, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the destructiveness of the Invincible and Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man – and for every woman who loves a man.

Complex Network Analysis in Python Dmitry Zinoviev, 2018-01-19 Construct, analyze, and visualize networks with networkx, a Python language module. Network analysis is a powerful tool you can apply to a multitude of datasets and situations. Discover how to work with all kinds of networks, including social, product, temporal, spatial, and semantic networks. Convert almost any real-world data into a complex network--such as recommendations on co-using cosmetic products, muddy hedge fund connections, and online friendships. Analyze and visualize the network, and make business decisions based on your analysis. If you're a curious Python programmer, a data scientist, or a CNA specialist interested in mechanizing mundane tasks, you'll increase your productivity exponentially. Complex network analysis used to be done by hand or with non-programmable network analysis tools, but not anymore! You can now automate and program these tasks in Python. Complex networks are collections of connected items, words, concepts, or people. By exploring their structure and individual elements, we can learn about their meaning, evolution, and resilience. Starting with simple networks, convert real-life and synthetic network graphs into networkx data structures. Look at more sophisticated networks and learn more powerful machinery to handle centrality calculation, blockmodeling, and clique and community detection. Get familiar with presentation-quality network visualization tools, both programmable and interactive--such as Gephi, a CNA explorer. Adapt the patterns from the case studies to your problems. Explore big networks with NetworkKit, a high-performance networkx substitute. Each part in the book gives you an overview of a class of networks, includes a practical study of networkx functions and techniques, and concludes with case studies from various fields, including social networking, anthropology, marketing, and sports analytics. Combine your CNA and Python programming skills to become a better network analyst, a more accomplished data scientist, and a more versatile programmer. What You Need: You will need a Python 3.x installation with the following additional modules: Pandas (≥ 0.18), NumPy (≥ 1.10), matplotlib (≥ 1.5), networkx (≥ 1.11), python-louvain (≥ 0.5), NetworkKit (≥ 3.6), and generalizesimilarity. We recommend using the Anaconda distribution that comes with all these modules, except for python-louvain, NetworkKit, and generalizesimilarity, and works on all major modern operating systems.
