Material Revolution 2 Sascha Peters,2014-02-24 Following the huge success of Material Revolution, this second volume addresses the rapid development of material research and presents materials new to the market since 2010. The significance of sustainable and intelligent materials in design and architecture has increased enormously over the last two years. Numerous new products have been introduced to the market and designers' thirst for knowledge about the sustainability of new material is as strong as ever, making a sequel to Material Revolution necessary. The new volume contains a similar system of classification but covers a completely different range of materials. There is a chapter dedicated solely to the criteria and factors of sustainable product design, as well as to innovative projects by designers and architects that work with new materials and technologies.

Applicability of Mobile Marketing in the Marketing Mix of Trade Fair Organizers Immo Prenzel,2010-04-21 Inhaltsangabe:Introduction: Trade fair organizers face a number of ongoing changes and an intensified intra- and inter-industry competition that reshape the structure of their markets and value chains. Until the 80s, trade fair organizers had a huge market and little competition. They were solely administering their spaces. On this seller's market trade fair organizers could pick the companies they would allow to exhibit at their fairs. Since then, more and more trade fair organizations have entered the market and invested heavily in new venues and hall capacities. The traditional venue owners increased their hall capacities tremendously and new regional venues emerged in the Near East and Asian markets. The driver of the inter-industrial competition is the increasing number of communication, information, and sales opportunities (such as road shows, in-house exhibitions or virtual information channels like the internet) that constitute alternatives compared to the cost intensive trade fair participation. These developments have made the market a buyer's market. Consequently, the customer group's requirements towards trade fair efficiency are getting increasingly higher. Trade fair organizers need to face these

developments and rethink and reshape their marketing strategies and respective marketing mix to match them to the new environment in order to stay competitive. They need to implement instruments with which they can improve the communication and service offer and thus satisfy the customer's requirements. Mobile marketing is such an instrument. It is the new trend in the modern direct marketing that offers numerous possibilities for personalized customer communication and the provision of an increased service portfolio via mobile devices. Mobile marketing is the answer to the increasingly mobile society as it allows a location and time independent reach of the customer. The question if and to which extent mobile marketing can be applied in the marketing mix of trade fair organizers is the research objective of this thesis. The approach to reach this goal is illustrated in figure 3 in the appendix and will be set as follows: chapter two will focus on the theoretical basics of mobile marketing in order to illustrate its potentials, capabilities and limitations. In chapter three the basics about trade fairs, its functions and participants are introduced. The analysis of the goals and needs of the exhibitors and visitors is the focus of [...]

Blickränder Astrid Lang, Wiebke Windorf, 2017-07-06 Aus dem Wunsch und Bedürfnis heraus, Hans Körner ein Geschenk zu machen, das sowohl sein umfassendes wissenschaftliches Œuvre als auch sein fast vierzigjähriges Wirken als Wissenschaftler, Lehrer, Mentor und Kollege widerspiegelt, entstand der vorliegende Sammelband. Mit dem Titel »Blickränder. Grenzen, Schwellen und ästhetische Randphänomene in den Künsten« soll Bezug genommen werden auf Hans Körners facettenreiche Beschäftigung mit dem Phänomen der Kunstwahrnehmung, der Begegnung von Werk und Betrachter, welche vielleicht die grundsätzliche Schwellensituation bei der Analyse von Kunst und (kunst-)historischen Zusammenhängen darstellt. Dieser Schwellensituation nähern sich die Beiträge des Liber Amicorum aus ganz unterschiedlichen Perspektiven und versuchen so, die Kontaktaufnahme des Subjekts mit dem Objekt über dessen dingliche, räumliche, semiotische und kontextuelle Grenzen auszuloten. Und auch die Randgebiete der kunst- und kulturhistorischen Forschungslandschaft in Bezug auf genau diese Kontaktaufnahme, welche Hans Körner im Laufe seiner wissenschaftlichen Tätigkeit immer wieder fasziniert haben, werden durch die Autorinnen und Autoren des Bandes aus diversen Blickwinkeln beleuchtet.
