Killers of the Flower Moon: Adapted for Young Readers David Grann,2021-11-16 The New York Times bestseller and National Book Award finalist *Killers of the Flower Moon* is now adapted for young readers. This book is an essential resource for young readers to learn about the Reign of Terror against the Osage people--one of history's most ruthless and shocking crimes. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma, thanks to the oil that was discovered beneath their land. Then, one by one, the Osage began to die under mysterious circumstances, and anyone who tried to investigate met the same end. As the death toll surpassed more than twenty-four Osage, the newly created Bureau of Investigation, which became the FBI, took up the case, one of the organization's first major homicide investigations. An undercover team, including one of the only Native American agents in the bureau, infiltrated the region, struggling to adopt the latest modern techniques of detection. Working with the Osage, they began to expose one of the most chilling conspiracies in American history. In this adaptation of the adult bestseller, David Grann revisits his gripping investigation into the shocking crimes against the Osage people. The book is a searing indictment of the callousness and prejudice toward Native Americans that allowed the murderers to occur for so long.

Breaking Blue Sean "Sticks" Larkin,2021-06-15 Breaking Blue is the first book that shares real stories of cops accused of wrongdoing and subsequently cleared. Charges may have been brought against them, Internal Affairs may have started an investigation, but in many cases, thanks to the officers body cam or dashcam videos, the true story came to light, with charges ultimately dismissed or initial convictions overturned. Sergeant Sean Sticks Larkin of the Tulsa Police Department Gang Unit and host of A&E show Live PD, presents real stories of officers falsely accused... including his own--

Baseball in the Garden of Eden John Thorn,2012-03-20

Think you know how the game of baseball began? Think again. Forget Abner Doubleday and Cooperstown. Did baseball even have a father--or did it just evolve from other bat-and-ball games? John Thorn, baseball's preeminent historian, examines the creation story of the game and finds it all to be a gigantic lie. From its earliest days baseball was a vehicle for gambling, a proxy form of class warfare. Thorn traces the rise of the New York version of the game over other variations popular in Massachusetts and Philadelphia. He shows how the sport's increasing popularity in the early decades of the nineteenth century mirrored the migration of young men from farms and small towns to cities, especially New York. Full of heroes, scoundrels, and dupes, this book tells the story of nineteenth-century America, a land of opportunity and limitation, of glory and greed--all present in the wondrous alloy that is our nation and its pastime.--From publisher description.

The Turner Report Randy Turner,2007-08 Each day, Missouri reporters and politicians, and many in our nation's capital, read THE TURNER REPORT to get their first glimpse at stories that later appear in the traditional media. In his first non-fiction book, Randy Turner offers a collection of some of his favorite stories, old and new ... Combine those stories with Turner's examination of the

effect lobbyists and special interests are having on Missouri and Washington, and you have a must-read book as the nation prepares for the 2008 elections.

Nice Guys Finish Last Leo Durocher, Ed Linn, 2009-09-15 "I believe in rules. Sure I do. If there weren't any rules, how could you break them?" The history of baseball is rife with colorful characters. But for sheer cantankerousness, fighting moxie, and will to win, very few have come close to Leo "the Lip" Durocher. Following a five-decade career as a player and manager for baseball's most storied franchises, Durocher teamed up with veteran sportswriter Ed Linn to tell the story of his life in the game. The resulting book, *Nice Guys Finish Last*, is baseball at its best, brimming with personality and full of all the fights and feuds, triumphs and tricks that made Durocher such a success—and an outsized celebrity. Durocher began his career inauspiciously, riding the bench for the powerhouse 1928 Yankees and hitting so poorly that Babe Ruth nicknamed him "the All-American Out." But soon Durocher hit his stride: traded to St. Louis, he found his headlong play and never-say-die attitude a perfect fit with the rambunctious "Gashouse Gang" Cardinals. In 1939, he was named player-manager of the Brooklyn Dodgers—and almost instantly transformed the underachieving Bums into perennial contenders. He went on to manage the New York Giants, sharing the glory of one of the most famous moments in baseball history, Bobby Thomson's "shot heard 'round the world," which won the Giants the 1951 pennant. Durocher would later learn how it felt to be on the other side of such an unforgettable moment, as his 1969 Cubs, after holding first place for 105 days, blew a seemingly insurmountable 8-1/2-game lead to the Miracle Mets. All the while, Durocher made as much noise off the field as on it. His perpetual feuds with players, owners, and league officials—not to mention his public associations with gamblers, riffraff, and Hollywood stars like George Raft and Lorraine Day—kept his name in the headlines and spread his fame far beyond the confines of the diamond. A no-

holds-barred account of a singular figure, *Nice Guys Finish Last* brings the personalities and play-by-play of baseball's greatest era to vivid life, earning a place on every baseball fan's bookshelf.

Sammy Davis Jr. Tracey Davis,Nina Bunche

Pierce,2014-04-22 Nicknamed Mr. Show Business, Sammy Davis Jr. was a consummate performer who sang, danced, and acted on film, television, radio, and the stage for over six decades. In this uniquely intimate volume, the entertainment legend's story comes to life through rare family photos and a compelling narrative based on conversations between Sammy Davis Jr. and his daughter, Tracey Davis. The story of a future superstar unfolds beginning with his bittersweet childhood days, raised primarily by his grandmother in Harlem. On the stage by age three, he first became a star in vaudeville with the Will Mastin Trio. Davis was already an up-and-coming performer by the time he was recruited into the Army during World War II. As Tracey Davis candidly relates, it was there that her father first learned to use his talent—singing and dancing—as a weapon against racial bigotry. Davis's career took off in the 1940s through his sheer determination, talent, and the support of friends like Frank Sinatra. With tenderness and humor Tracey describes her father's friendship with Sinatra, and how he stood by him when Davis married Tracey's Swedish actress mother. In a time when interracial marriages were forbidden by law in thirty-one states, both bride and groom endured an onslaught of negative press and even death threats. Complete with rare personal and professional photos, Sammy Davis Jr. recounts Davis's adventures through the Rat Pack era, and the extraordinary obstacles he overcame to become a 5'6", 120-pound legend who across six decades packed in more than forty albums, seven Broadway shows, twenty-three films, and countless nightclub and concert performances. What emerges from the pages of this loving, but utterly frankly written

book, is a uniquely personal perspective on one of the greatest pop culture icons of the twentieth century.

BLOW Bruce Porter, 2015-05-19 *BLOW* is the unlikely story of George Jung's roller coaster ride from middle-class high school football hero to the heart of Pablo Escobar's Medellin cartel-- the largest importer of the United States cocaine supply in the 1980s. Jung's early business of flying marijuana into the United States from the mountains of Mexico took a dramatic turn when he met Carlos Lehder, a young Colombian car thief with connections to the then newly born cocaine operation in his native land. Together they created a new model for selling cocaine, turning a drug used primarily by the entertainment elite into a massive and unimaginably lucrative enterprise-- one whose earnings, if legal, would have ranked the cocaine business as the sixth largest private enterprise in the Fortune 500. The ride came to a screeching halt when DEA agents and Florida police busted Jung with three hundred kilos of coke, effectively unraveling his fortune. But George wasn't about to go down alone. He planned to bring down with him one of the biggest cartel figures ever caught. With a riveting insider account of the lurid world of international drug smuggling and a super-charged drama of one man's meteoric rise and desperate fall, Bruce Porter chronicles Jung's life using unprecedented eyewitness sources in this critically acclaimed true crime classic.

Using DNA to Solve Cold Cases U.s. Department of Justice, Office of Justice Programs, National Institute of Justice, 2012-07-18 DNA has proven to be a powerful tool in the

fight against crime. DNA evidence can identify suspects, convict the guilty, and exonerate the innocent. Throughout the Nation, criminal justice professionals are discovering that advancements in DNA technology are breathing new life into old, cold, or unsolved criminal cases. Evidence that was previously unsuitable for DNA testing because a biological sample was too small or degraded may now yield a DNA profile. Development of the Combined DNA Index System (CODIS) at the State and national levels enables law enforcement to aid investigations by effectively and efficiently identifying suspects and linking serial crimes to each other. The National Commission on the Future of DNA Evidence made clear, however, that we must dedicate more resources to empower law enforcement to use this technology quickly and effectively. Using DNA to Solve Cold Cases is intended for use by law enforcement and other criminal justice professionals who have the responsibility for reviewing and investigating unsolved cases. This report will provide basic information to assist agencies in the complex process of case review with a specific emphasis on using DNA evidence to solve previously unsolvable crimes. Although DNA is not the only forensic tool that can be valuable to unsolved case investigations, advancements in DNA technology and the success of DNA database systems have inspired law enforcement agencies throughout the country to reevaluate cold cases for DNA evidence. As law enforcement professionals progress through investigations, however, they should keep in mind the array of other technology advancements, such as improved ballistics and fingerprint databases, which may substantially advance a case beyond its original level.

Web of Faith John Trigilio, Fr. Ken Brighenti, 2021-05-25

Whether about morality or matters of doctrine, hundreds of questions a year are posed to the average priest, with vast spiritual significance hinging on each answer — conversions and reconversions, children's formation, the survival of marriages, new

vocations to the priesthood, and the eternal destiny of those on their deathbeds. Yet there remain few good Q&A compendiums published over the past half century. In response to this need, Fr. John Trigilio and Fr. Ken Brighenti, hosts of EWTN's Web of Faith, draw on their years of pastoral experience to compile a comprehensive list of the best questions ever asked of them, responding to each with the same natural warmth, intellectual heft, and spiritual acuity that has earned them such a large international following. As on the Web of Faith television program, their conversational style opens fresh lines of questioning to which Fr. Trigilio and Fr. Brighenti provide clear, insightful answers. The result
