**The Halloween Project** Carl W. Bosch,2022-01-29 In a weird journey of nightmare and stamina, author Carl W. Bosch spends the month of October each year writing original, never-before-thrust-upon-the-world horror stories. The result is The Halloween Project, a collection of genre-defying short stories to honor the season in all its ghostly glory. From the terrifying and the shocking, to the melancholy and the macabre, these 64 Halloween tales are presented as dark offering to that strangest of seasons. Ranging from the medieval hills of Cinque Terre to the post-apocalyptic future, from the wildly imaginary to those just a bit-too-close to home, these eclectic tales are united in unearthing and reveling in those things that scare us. Read together, the stories of The Halloween Project are a celebration of a deep truth: it is when we are afraid that we feel most vibrantly alive.

**The Value of Arts and Culture for Regional Development** Lisbeth Lindeborg,Lars Lindkvist,2013-08-21 In this new volume, 28 Scandinavian researchers and others who are active in arts and culture seek to answer the

questions: What has been the effect of regional and local investment in arts and culture? And what positive and negative experiences have there been? This book describes and analyzes the extent to which cultural investments at local and regional levels have stimulated development and led to essential processes of change for the community in general. Of special interest is how different places manage to turn the tide. What do their development processes involve? Which ways and means do they use to go forward in order to change their paths and start anew? These are just a few of the important questions addressed in this book. One of the most important findings is that while you can never transfer the successful renewal of one place to another like a blueprint, certain common patterns in the cultural processes are discernible. The contributors to this book show the breadth of theoretical tools that can be used to increase awareness of the significance of culture for regional development. Throughout the book readers will find a multitude of theoretical concepts, from entrepreneurship theory, organizational institutionalism and cultural economy, to cultural planning and art management. This book will appeal to scholars and practitioners of urban and regional studies, and cultural and creative economics.

**Entrepreneurship in the name of society** Malin Gawell, Bengt Johannisson, Mats Lundqvist, 2009

Societal Entrepreneurship Karin Berglund, Bengt Johannisson, Birgitta Schwartz, 2012-01-01 Entrepreneurship generally is about creative organizing

but with social enterprising this is especially so. Most social ventures cross the boundaries between the private, the public and the non-profit/voluntary sectors. This broad involvement of actors and intertwining of sectors makes the label 'societal' entrepreneurship appropriate. Stating the importance of both the local and the broader societal context, the book reports close-up studies from a variety of social ventures. Generic themes include positioning societal entrepreneurship against other images of collective entrepreneurship, critically penetrating its assumptions and practices and proposing ways of promoting societal entrepreneurship more widely. Providing a new conceptual framework and research methodology, this compendium will prove insightful for academic scholars. The basic concepts and illustrative cases/stories will also appeal to students and reflective practitioners.
