**Arabilis** Leah Silvius, 2019-02-25 *Arabilis* integrates the ordeal of othering into the fundamental uncertainty of life to produce a collection that is honest in its pain, confusion, and joy. Beautiful and desolate as a rural upbringing, these poems delve into the complex relationship between the self and the indifferent world it inhabits. In this cogent work, the lonely thrill of existence is characterized by gunpowder, bone, and Bud Light empties. Presented through the perspective of a person of color adopted into a white family, this collection simultaneously acknowledges the senselessness of life and demands an explanation for it. Silvius' poems advance through the changing of the seasons, paralleling the introspective nature of youth and adulthood alike through an examination of faith, nature, and memory. Sacrilegious discourse is converted to sacred invocations as this collection examines the viscera of life and loss. Belying each poem is a tenacious grasping for answers to questions impossible to express, validating the intuition that though we turn to God, Earth, or another person, we may never receive a fulfilling reply. In the face of this apparent helplessness, these poems continue to stumble in the dark, reaching with the God-want of their hands, relentless in their search for that which might finally reach back.

**The Meaning of Tingo** Adam Jacot de Boinod, 2007-02-27 Did you know that in Hungary, pigs go rof-rof-rof, but in Japan they go boo boo boo? That there's apparently the need in Bolivia for a word that means I was rather too drunk last night but it was all their fault? Adam Jacot de Boinod's book on extraordinary words from around the world will give you the definitions and phrases you need to make friends in every culture. A true writer's resource and the perfect gift for linguists, librarians, logophiles, and international jet-setters. While there's no guarantee you'll never pana po'o again (Hawaiian for scratch your head in order to help you remember something you've forgotten), or mingmu (Chinese for die without regret), at least you'll know what tingo means, and that's a start. "A book no well-stocked bookshelf, cistern top or handbag should be without. At last we know those Eskimo words for snow and how the Dutch render the sound of Rice Krispies. Adam Jacot de Boinod has produced an absolutely delicious little book: It goes Pif! Paf! Pouf! Cric! Crac! Croc! and Knisper! Knasper! Knusper! on every page."—Stephen Fry

**The Dolphin Way** Shimi Kang, 2014-05-01 In this inspiring book, Harvard-trained child and adult psychiatrist and expert in human motivation Dr. Shimi Kang provides a guide to the art and science of inspiring children to develop their own internal drive and a lifelong love of learning. Drawing on the latest neuroscience and behavioral research, Dr. Kang shows why pushy "tiger parents" and permissive "jellyfish parents" actually hinder self-motivation. She proposes a powerful new parenting model: the intelligent, joyful, playful, highly social dolphin. Dolphin parents focus on

maintaining balance in their children's lives to gently yet authoritatively guide them toward lasting health, happiness, and success. As the medical director for Child and Youth Mental Health community programs in Vancouver, British Columbia, Dr. Kang has witnessed firsthand the consequences of parental pressure: anxiety disorders, high stress levels, suicides, and addictions. As the mother of three children and as the daughter of immigrant parents who struggled to give their children the "best" in life—Dr. Kang's mother could not read and her father taught her math while they drove around in his taxicab—Dr. Kang argues that often the simplest "benefits" we give our children are the most valuable. By trusting our deepest intuitions about what is best for our kids, we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world: adaptability, community-mindedness, creativity, and critical thinking. Life is a journey through ever-changing waters, and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass. Combining irrefutable science with unforgettable real-life stories, *The Dolphin Way* walks readers through Dr. Kang's four-part method for cultivating self-motivation. The book makes a powerful case that we are not forced to choose between being permissive or controlling. The third option—the option that will prepare our kids for success in a future that will require adaptability—is the dolphin way.

**Life Behind Barbed Wire** Yasutaro Soga, 2007-10-01 Yasutaro Soga's *Life behind Barbed Wire* (Tessaku seikatsu) is an exceptional firsthand account of the incarceration of a Hawai'i Japanese during World War II. On the evening of the attack on Pearl Harbor, Soga, the editor of a Japanese-language newspaper, was arrested along with several hundred other prominent Issei (Japanese immigrants) in Hawai'i. After being held for six months on Sand Island, Soga was transferred to an Army camp in Lordsburg, New Mexico, and later to a Justice Department camp in Santa Fe. He

would spend just under four years in custody before returning to Hawai'i in the months following the end of the war. Most of what has been written about the detention of Japanese Americans focuses on the Nisei experience of mass internment on the West Coast—largely because of the language barrier immigrant writers faced. This translation, therefore, presents us with a rare Issei voice on internment, and Soga's opinions challenge many commonly held assumptions about Japanese Americans during the war regarding race relations, patriotism, and loyalty. Although centered on one man's experience, *Life behind Barbed Wire* benefits greatly from Soga's trained eye and instincts as a professional journalist, which allowed him to paint a larger picture of those extraordinary times and his place in them. The Introduction by Tetsuden Kashima of the University of Washington and Foreword by Dennis Ogawa of the University of Hawai'i provide context for Soga's recollections based on the most current scholarship on the Japanese American internment.

*Marsden's Book of Movement Disorders* Ivan Donaldson, C. David Marsden, Susanne Schneider, Kailash Bhatia, 2012-03-29 This book represents the final work of the late Professor C. David Marsden, who was the most influential figure in the field of movement disorders, in terms of his contributions to both research and clinical practice, in the modern era. It was conceived and written by David Marsden and his colleague at the Institute of Neurology, Prof. Ivan Donaldson. It

was their intention that this would be the most comprehensive book on movement disorders and also that it would serve as the 'clinical Bible' for the management of these conditions. It provides a masterly survey of the entire topic, which has been made possible only by vast laboratory and bedside experience. Marsden's Book of Movement Disorders covers the full breadth of movement disorders, from the underlying anatomy and understanding of basal ganglia function to the diagnosis and management of specific movement disorders, including the more common conditions such as Parkinson's Disease through to rare, and very rare conditions such as Niemann-Pick disease. Chapters follow a structured format with historical overviews, definitions, clinical features, differential diagnosis, investigations and treatment covered in a structured way. It is extensively illustrated with many original photographs and diagrams of historical significance. Among these illustrations are still images of some original film clips of some of Dr. Marsden's patients published here for the first time. Comprehensively referenced and updated by experts from the Institute of Neurology at Queen Square, this book is a valuable reference for, not just movement disorder specialists and researchers, but also for clinicians who care for patients with movement disorders.

*Personas 111* Tomihiro Kono, 2020-03-15 Exploring the possibility of wigs by portraying 111 transformations of Cameron Lee Phan in 111 handmade wigs made by Tomihiro Kono. Hairstyles are closely related to our identity; They create both our inner and outer self. This can reflect our personality or, in some way, can hide our true selves. We can suddenly make ourselves look like a different person by wearing a wig. A wig is a kind of mask, designed on the one hand to make a definite impression upon others, and on the other to conceal the true nature of the individual. Changing how we look is an act of self-reflection, self-assertion, and self-defense. We live in the spirals of the world by defining ourselves and being defined by others. In Latin times a persona was a

mask; today our digital masks have turned into persons that amplify our individual digital essence, letting our fake and intangible identities take over. Tomihiro Kono's wigs are a reaction to our digital society and a way to reclaim our physicality: with his creations the artist and designer invites us indeed to go over a physical, rather than digital, transformation. A wig by Tomihiro Kono is therefore a mask-thrix - a mask for the hair (thrix meaning hair in Greek), a symbol of an existential drama and the possibility of taking up not just one role, but multiple ones. By wearing a wig by Tomihiro Kono you can be anything and anyone but yourself. The promise is alluring. Enter the Mask-Thrix.
