**Rohingya Refugee Crisis in Myanmar** Kudret Bülbul,Md. Nazmul Islam,Md. Sajid Khan,2022-01-03 This book discusses

the current reality and the future of ethnic Rohingyas in Myanmar. It presents Myanmar's history, policy, politics and, most importantly, while focusing on Rohingya ethnic conflict, presents a resolution by looking at the global and regional policies and politics of South Asia and South-East Asia. The recent coup unfolded in Myanmar and the detention of the democratic leaders has surprised the world with its subsequent emergency declaration in 2021, thus making this book relevant and well-timed. Eventually, the book offers an account of a previously little known, yet much-discussed role of media, international actors, human trafficking, and humanitarian-based resolution for Rohingya refugee crisis. It shows a new perspective in the post-Rohingya influx era of Bangladesh and the neighbouring countries.

**Mediality on Trial** Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums. Today we commonly associate the term medium with the technical communication between transmitters and receivers. Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world. Insofar as one presumes a division between distinctly opposed categories of religion and the secular, technical media tend to be associated with the secular and human (trance) mediums tend to be associated with religion after 1900. This volume concerns the ways in which the term medium still marks an overlapping of – and thus problematizes – the aforementioned division between religion and the secular, the personal and the technological. The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power: insofar as they communicate with an other realm, mediums offer the hope and promise of new possibilities and improved efficiency, and thus of a better life; yet they have simultaneously been under suspicion of altering (or even inventing) the messages they communicate. It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific, religious, and moral controversies. Thus, we can speak of a mediumistic trial – that is, a process in which a medium is put to the test concerning its potentials and trustworthiness. Around 1800, experts were asked if a modern secular institution would be capable of inspiring, domesticating or excluding trance mediumship. This question has stayed with us ever since, and the answers have remained inconclusive. That is why the past and present of mediumship may be asked to elucidate each other.
