Facebook Nation Newton Lee, 2012-09-15 President Barack Obama, in his 2011 State of the Union Address, called America the nation of Edison and the Wright brothers and of Google and Facebook. U.S. Chief Information Officer, Steven VanRoekel, said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government. Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens, after China and India. This book portrays the social media ecosystem as a world of increasing Total Information Awareness, which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency (DARPA) at the U.S. Department of Defense. Back in the 60's, DARPA initiated and funded the research and development of Advanced Research Projects Agency Network (ARPANET) that went online in 1969. The success of ARPANET gave rise to the global commercial Internet in the 90's and the new generation of Fortune 500 companies today including Amazon.com, Google, eBay, and Yahoo!. As if life comes full circle in the 21st century, private businesses and the ubiquity of social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies and infrastructures necessary for the DARPA-proposed Total Information Awareness program. WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever been invented. Indeed, military and civilian technologies have interwoven into every fabric of our society, as Facebook co-founder and CEO Mark Zuckerberg said, We exist at the intersection of technology and social issues. This book offers discourse and practical advice on the privacy issue in the age of big data, the rise of

Facebook nation, and Total Information Awareness. Opening with President Ronald Reagan's 1984 National Security Decision Directive and ending with George Orwell's novel 1984, the author takes us on a roller-coaster ride through Facebook's botched IPO, Carrier IQ, Kony 2012, SOPA/PIPA blackout, cyber bullying, crime fighting, and a host of other timely issues facing our Facebook nation. Social media strategists, information architects, social scientists, policymakers, and academic scholars in the Program in Science, Technology, and Society (STS) will find this book a valuable asset.

Machine-to-Machine Marketing (M3) via Anonymous Advertising Apps Anywhere Anytime (A5)
Jesus Mena, 2016-04-19 In today's wireless environment, marketing is more frequently occurring at the server-to-device level-with that device being anything from a laptop or phone to a TV or car. In this real-time digital marketplace, human attributes such as income, marital status, and age are not the most reliable attributes for modeling consumer behaviors. A more effe

The New Ethics of Journalism Kelly McBride, Tom Rosenstiel, 2013-07-17 Featuring a new code of ethics for journalists and essays by 14 journalism thought leaders and practitioners, *The New Ethics of Journalism: Principles for the 21st Century*, by Kelly McBride and Tom Rosenstiel, examines the new pressures brought to bear on journalism by technology and changing audience habits. It offers a new framework for making critical moral choices, as well as case studies that reinforce the concepts and principles rising to prominence in 21st century communication. The book addresses the unique problems facing journalism today, including how we arrive at truth in an era of abundant and unverified information; the evolution of new business models and partnerships; the presence of journalists on

independent social media platforms; the role of diversity; the meaning of stories; the value of images; and the role of community in the production of journalism.

Aligning Geopolitics, Humanitarian Action and Geography in Times of Conflict Gerry

O'Reilly, 2019-01-25 This textbook offers valuable insights into the nexus between geography, geopolitics, and humanitarian action. It elucidates concepts regarding conflict and power, as well as the role of the state and the international community in mitigating and preventing violence and war. Here the material and non-material, existential or imagined reasons for conflict are deconstructed, ranging from land and resource grabs to Utopian ideals that can degenerate into dystopias, as with Daesh's caliphate in Syria and Iraq. In turn, the issues discussed range from the local to wider national and global levels, as do their resolution mechanisms. Due to insecurities, the impacts of globalization, divisive nationalistic and isolationist reactions emerging in some democracies including the USA, the UK's Brexit stress, and the ominous rise of populist parties across continental Europe (from France and the Netherlands to the Visegrád Group, the Balkans, and Greece), citizen fatigue has become increasingly evident, reflected in ever-growing socio-political malaise and violence. As the impact of any humanitarian disaster is proportional to the level of development of the area affected, concepts and categories of humanitarian action are explored, along with development issues at their core, especially in the Global South. Broadly speaking, humanitarian disasters fall into the categories of natural, human-made, technological, or complex; here, however, the focus is on human-made crises. Attempts at greater regulation, national and international organization and multilateralism to prevent violent conflicts, as well as enhanced responses to humanitarian emergencies,

need to be supported now more than ever before. This textbook will appeal to graduate and upper undergraduate students and practitioners in the fields of geography, geopolitics, humanitarian action and geographies of conflict and war. In addition to the main content, it includes exercises, questions and sections for autonomous student learning.

When The Walking Defeats You Ledio Cakaj, 2016-11-05 Deep in the Congo's Garamba National Park in the dead of night, Joseph Kony – the notorious warlord wanted by the International Criminal Court – made a shocking admission. Loosened by home-made wine, exposing a vulnerability he could never show the world, Kony looked George Omona in the eye, 'You need to know that if I had a choice I would not be doing this ... I wish I could be a man of books, like you.' Three years earlier George was expelled from one of Uganda's best schools, just weeks before he was due to graduate with exemplary grades, destroying his dreams of becoming a teacher. In desperation, his uncle found him a role in Kony's Lord's Resistance Army (LRA). George's education and fluent command of English allowed him to rapidly rise through the ranks, eventually becoming one of Kony's bodyguards, before he finally made his escape. George's story – based on many hours of interviews with acknowledged LRA expert Ledio Cakaj – provides a vivid, personal and fascinating insight into the inner workings of the LRA, and the mind of Kony, its self-appointed prophet.

To Stop a Warlord Shannon Sedgwick Davis, 2020-04-07 One woman's inspiring true story of an unlikely alliance to stop the atrocities of a warlord, proving that there is no limit to what we can do, even in the face of unspeakable injustice and impossible odds "This compelling and inspiring book beautifully moves each of us to take action to help the most vulnerable among us."—Archbishop Emeritus Desmond

Tutu Late one night in the summer of 2010, Shannon Sedgwick Davis, a lawyer, human rights advocate, and Texas mom to two young boys, first met a Ugandan general to discuss an unconventional plan to stop Joseph Kony, a murderous warlord who'd terrorized communities in four countries across Central and East Africa. For twenty-five years, Kony and his Lord's Resistance Army had killed over a hundred thousand people, displaced millions, and abducted tens of thousands of children, forcing them to become child soldiers. After Sedgwick Davis met with survivors and community leaders, aid workers and lawmakers, it was clear that the current international systems were failing to protect the most vulnerable. Guided by the strength of her beliefs and convictions, Sedgwick Davis knew she had to help other parents to have the same right she had—to go to sleep each night knowing that their children were safe. But Sedgwick Davis had no roadmap for how to stop a violent armed group. She would soon step far outside the bounds of traditional philanthropy and activism and partner her human rights organization, the Bridgeway Foundation, with a South African private military contractor and a specialized unit within the Ugandan army. The experience would bring her to question everything she had previously believed about her role as a humanitarian, about the meaning of justice, and about the very nature of good and evil. In *To Stop a Warlord*, Shannon Sedgwick Davis tells the story, for the first time, of the unprecedented collaboration she helped build with the aim of finally ending Joseph Kony's war—and the unforgettable journey on an unexpected path to peace. A powerful memoir that reads like a thriller, this is a story that asks us just how hard we would fight for what we believe in. 100 percent of the author's net proceeds from this book will go to organizations seeking justice and protection for civilians in conflict zones.

Understanding Digital Culture Vincent Miller, 2020-03-09 This is not simply a book about ‘internet studies’. It is a book that considers many wider forms of digital culture, including mobile technologies, surveillance, algorithms, ambient intelligence, gaming, big data and technological bodies (to name a few) in order to explore how digital technology - in a broad sense - is used within the wider contexts of our everyday lives. The first edition of *Understanding Digital Culture* set a new benchmark as the most comprehensive, scholarly and accessible introduction to the area. This latest edition, thoroughly updated and substantially expanded, is even better – a perfectly balanced book that combines theory and empirical analysis to illuminate the cutting-edge of cultural and social change. - Professor Majid Yar, Lancaster University

Gender, Globalization, and Violence Sandra Ponzanesi, 2014-07-11 This wide-ranging collection of essays elaborates on some of the most pressing issues in contemporary postcolonial society in their transition from conflict and contestation to dialogue and resolution. It explores from new angles questions of violent conflict, forced migration, trafficking and deportation, human rights, citizenship, transitional justice and cosmopolitanism. The volume focuses more specifically on the gendering of violence from a postcolonial perspective as it analyses unique cases that disrupt traditional visions of violence by including the history of empire and colony, and its legacies that continue to influence present-day configurations of gender, race, nationality, class and sexuality. Part One maps out the gendered and racialized contours of conflict zones, from war zones, prisons and refugee camps to peacekeeping missions and humanitarian aid, reframing the field and establishing connections between colonial legacies and postcolonial dynamics. Part Two explores

how these conflict zones are played out not just outside but also within Europe, demonstrating that multicultural Europe is fraught with different legacies of violence and postcolonial melancholia. Part Three gives an idea of the kind of future that can be offered to post-conflict societies, defined as contact zones, by exploring opportunities for dialogue, restoration and reconciliation that can be envisaged from a gendered and postcolonial perspective through alternative feminist practices and the work of art and their redemptive power in mobilizing social change or increasing national healing processes. Though strongly anchored in postcolonial critique, the chapters draw from a range of traditions and expertise, including conflict studies, gender theory, visual studies, (new) media theory, sociology, race theory, international security studies and religion studies.

Adolescent Literacies and the Gendered Self Barbara J. Guzzetti, Thomas W. Bean, 2013 This book explores the dynamic range of literacy practices in and out of school that are reconstructing youth gender identities in both empowering and disempowering ways and the implications for local literacy classrooms.

Informed Publics, Media and International Law Daniel Joyce, 2020-11-26 This book considers the significance of informed publics from the perspective of international law. It does so by analysing international media law frameworks and the 'mediatization' of international law in institutional settings. This approach exposes the complexity of the interrelationship between international law and the media, but also points to the dangers involved in international law's associated and increasing reliance upon the mediated techniques of communicative capitalism – such as publicity – premised upon an informed international public whose existence many now question. The book explores the ways in which traditional

regulatory and analytical categories are increasingly challenged - revealed as inadequate or bypassed - but also assesses their resilience and future utility in light of significant technological change and concerns about fake news, the rise of big data and algorithmic accountability. Furthermore, it contends that analysing the imbrication of media and international law in the current digital transition is necessary to understand the nature of the problems a system such as international law faces without sufficiently informed publics. The book argues that international law depends on informed global publics to function and to address the complex global problems which we face. This draws into view the role media plays in relation to international law, but also the role of international law in regulating the media, and reveals the communicative character of international law.

Justice in Conflict Mark Kersten, 2016-08-04 What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts? What are the effects of interventions by the International Criminal Court (ICC) on the wars in which the institution intervenes? Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution? This book offers an in-depth examination of the effects of interventions by the ICC on peace, justice and conflict processes. The 'peace versus justice' debate, wherein it is argued that the ICC has either positive or negative effects on 'peace', has spawned in response to the Court's propensity to intervene in conflicts as they still rage. This book is a response to, and a critical engagement with, this debate. Building on theoretical and analytical insights from the fields of conflict and peace studies, conflict resolution, and negotiation theory, the book develops a novel analytical framework to study the Court's effects on peace,

justice, and conflict processes. This framework is applied to two cases: Libya and northern Uganda. Drawing on extensive fieldwork, the core of the book examines the empirical effects of the ICC on each case. The book also examines why the ICC has the effects that it does, delineating the relationship between the interests of states that refer situations to the Court and the ICC's institutional interests, arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace, justice, and conflict processes. While the effects of the ICC's interventions are ultimately and inevitably mixed, the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying, analyzing, and understanding the effects of the Court's interventions in Libya, northern Uganda - and beyond.

Debates for the Digital Age Danielle Sarver Coombs, Simon Collister, 2015-11-23 By evaluating the Internet's impact on key cultural issues of the day, this book provides a comprehensive overview of the seismic technological and cultural shifts the Internet has created in contemporary society. Books about Internet culture usually focus on the people, places, sites, and memes that constitute the cutting-edge at the time the book is written. That approach, alas, renders such volumes quickly obsolete. This provocative work, on the other hand, focuses on overarching themes that will remain relevant for the long term. The insights it shares will highlight the tremendous impact of the Internet on modern civilization—and individual lives—well after specific players and sites have fallen out of favor. Content is presented in two volumes. The first emphasizes the positive impact of Internet culture—for example, 24-hour access to information, music, books, merchandise, employment opportunities, and even romance. The second

discusses the Internet's darker consequences, such as a demand for instant news that often pushes journalists to prioritize being first over being right, online scams, and invasions of privacy that can affect anyone who banks, shops, pays bills, or posts online. Readers of the set will clearly understand how the Internet has revolutionized communications and redefined human interaction, coming away with a unique appreciation of the realities of today's digital world—for better and for worse.

Postsocialist Politics and the Ends of Revolution Neda Atanasoski, Kalindi Vora, 2022-10-20 Moving past the conflation of state socialism with all socialist projects, this book opens up avenues for addressing socialist projects rooted in decolonial and antiracist politics. To that end, this anthology brings together scholarship across regions that engages postsocialism as an analytic that connects the ‘afters’ of the capitalist– socialist dynamic to present day politics. Resisting the revolutionary teleology of what was before, “postsocialism” can function to create space to work through ongoing legacies of socialisms in the present. Looking at the Middle East, Scandinavia, Korea, Romania, China, and the US, the chapters in this book assess ongoing socialist legacies in new ethical collectivities and networks of dissent opposing state- and corporate- based military, economic, and cultural expansionism since the end of the Cold War. The majority of the chapters in this book were originally published as a special issue of the journal, *Social Identities*.

When Breath Becomes Air Paul Kalanithi, 2016-01-12 #1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. *When Breath Becomes Air* chronicles Kalanithi's transformation

from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can’t go on. I’ll go on.’” When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

DIY Citizenship Matt Ratto, Megan Boler, 2014-02-07 How social media and DIY communities have enabled new forms of political participation that emphasize doing and making rather than passive consumption. Today, DIY—do-it-yourself—describes more than self-taught carpentry. Social media enables DIY citizens to organize and protest in new ways (as in Egypt’s “Twitter revolution” of 2011) and to repurpose corporate content (or create new user-generated content) in order to offer political counternarratives. This book examines the usefulness and limits of DIY citizenship, exploring the diverse forms of political participation and “critical making” that have emerged in recent years. The authors and

artists in this collection describe DIY citizens whose activities range from activist fan blogging and video production to knitting and the creation of community gardens. Contributors examine DIY activism, describing new modes of civic engagement that include Harry Potter fan activism and the activities of the Yes Men. They consider DIY making in learning, culture, hacking, and the arts, including do-it-yourself media production and collaborative documentary making. They discuss DIY and design and how citizens can unlock the black box of technological infrastructures to engage and innovate open and participatory critical making. And they explore DIY and media, describing activists' efforts to remake and reimagine media and the public sphere. As these chapters make clear, DIY is characterized by its emphasis on “doing” and making rather than passive consumption. DIY citizens assume active roles as interventionists, makers, hackers, modders, and tinkerers, in pursuit of new forms of engaged and participatory democracy.

Fall Down Nine Times, Get Up Ten Martin Avery, 2014-07-06 You're going to die, the doctor said. But Canadian author Martin Avery laughed and walked away. *Fall Down Nine Times, Get Up Ten* tells the story of a man who was told he would never work or walk again, in Canada, but lived to get a better diagnosis of jing-chi-shen in China.

The Good American Robert D. Kaplan, 2022-02-15 From the New York Times bestselling author of *The Revenge of Geography* comes a sweeping yet intimate story of the most influential humanitarian you've never heard of—Bob Gersony, who spent four decades in crisis zones around the world. “One of the best accounts examining American humanitarian pursuits over the past fifty years . . . With still greater challenges on the horizon, we will need to find and empower more people like Bob Gersony—both idealistic and pragmatic—who can help make the world a more secure place.”—The Washington Post In his long career as an acclaimed journalist covering the “hot” moments of the Cold War and its aftermath, bestselling author Robert D. Kaplan often found himself crossing paths with Bob Gersony, a consultant for the U.S. State Department whose quiet dedication and consequential work made a deep impression on Kaplan. Gersony, a high school dropout later awarded a Bronze Star for his service in Vietnam, conducted on-the-ground research for the U.S. government in virtually every war and natural-disaster zone in the world. In Thailand, Central and South America, Sudan, Chad, Mozambique, Rwanda, Gaza, Bosnia, North Korea, Iraq, and beyond, Gersony never flinched from entering dangerous areas that diplomats could not reach, sometimes risking his own life. Gersony's behind-the-scenes fact-finding, which included interviews with hundreds of refugees and displaced persons from each war zone and natural-disaster area, often

challenged the assumptions and received wisdom of the powers that be, on both the left and the right. In nearly every case, his advice and recommendations made American policy at once smarter and more humane—often dramatically so. In Gersony, Kaplan saw a powerful example of how American diplomacy should be conducted. In a work that exhibits Kaplan’s signature talent for combining travel and geography with sharp political analysis, *The Good American* tells Gersony’s powerful life story. Set during the State Department’s golden age, this is a story about the loneliness, sweat, and tears and the genuine courage that characterized Gersony’s work in far-flung places. It is also a celebration of ground-level reporting: a page-turning demonstration, by one of our finest geopolitical thinkers, of how getting an up-close, worm’s-eye view of crises and applying sound reason can elicit world-changing results.

Bloodline James Rollins, 2012-06-26 “One of the most inventive storytellers writing today” —Lincoln Child, bestselling co-author of *Gideon’s Corpse* “The modern master of the action thriller.” —Providence Journal-Bulletin “Nobody—and I mean nobody—does this stuff better than Rollins.” —Lee Child, bestselling author of the Jack Reacher novels *Bloodline*, a breathtaking Sigma Force thriller from the phenomenal James Rollins, is further proof that, when it comes to explosive adventure and nail-biting suspense, this New York Times bestselling author is one of the very best in the business! *Bloodline* is a lightning-paced, unputdownable international thriller chock-full of the trademark elements that have propelled Rollins to the top of virtually every national bestseller list: cutting-edge science ingeniously blending with history and nonstop action. A relentlessly exciting tale that races across the globe, *Bloodline* ensnares popular series hero Commander Gray Pierce in a deadly conspiracy involving Somali pirates, the kidnapped daughter of

the U.S. Vice President, and a dark secret hiding in the human genetic code. This is mystery, suspense, surprise, and ingeniously inventive storytelling as only James Rollins can do it.
