Korea's Online Gaming Empire Dal Yong Jin,2010-10-01 The rapid growth of the Korean online game industry, viewed in social, cultural, and economic contexts. In South Korea, online gaming is a cultural phenomenon. Games are broadcast on television, professional gamers are celebrities, and youth culture is often identified with online gaming. Uniquely in the online games market, Korea not only dominates the local market but has also made its mark globally. In Korea's Online Gaming Empire, Dal Yong Jin examines the rapid growth of this industry from a political economy perspective, discussing it in social, cultural, and economic terms. Korea has the largest percentage of broadband subscribers of any country in the world, and Koreans spend increasing amounts of time and money on Internet-based games. Online gaming has become a mode of socializing—a channel for human relationships. The Korean online game industry has been a pioneer in software development and eSports (electronic sports and leagues). Jin discusses the policies of the Korean government that encouraged the development of online gaming both as a cutting-edge business and as a cultural touchstone; the impact of economic globalization; the relationship between online games and Korean society; and the future of the industry. He examines the rise of Korean online games in the global marketplace, the emergence of eSport as a youth culture phenomenon, the working conditions of professional gamers, the role of game fans as consumers, how Korea's local online game industry has become global, and whether these emerging firms have challenged the West's dominance in global markets.

Mediating the South Korean Other David C. Oh,2022-07-18 Multiculturalism in Korea formed in the context of its neoliberal, global aspirations, its postcolonial legacy with Japan, and its subordinated neocolonial relationship with the United States. The Korean ethnoscape and mediascape produce a complex understanding of difference that cannot be easily reduced to racism or ethnocentrism. Indeed the Korean word, injongchabyeol, often translated as racism, refers to discrimination based on any kind of “human category.” Explaining Korea’s relationship to difference and its practices of othering, including in media culture, requires new language and nuance in English-language scholarship. This collection brings together leading and emerging scholars of multiculturalism in Korean media culture to examine mediated constructions of the “other,” taking into account the nation’s postcolonial and neocolonial relationships and its mediated construction of self. “Anthrocatégorism,” a more nuanced translation of injongchabyeol, is proffered as a new framework for understanding difference in ways that are locally meaningful in a society and media system in which racial or even ethnic differences are not the most salient. The collection points to the construction of racial others that elevates, tolerates, and incorporates difference; the construction of valued and devalued ethnic others; and the ambivalent construction of co-ethnic others as sympathetic victims or marginalized threats.

Digital Mediascapes of Transnational Korean Youth Culture Kyong Yoon,2019-10-28 Drawing on vivid ethnographic field studies of youth on the transnational move, across Seoul, Toronto, and Vancouver, this book examines transnational flows of Korean youth and their digital media practices. This book explores how digital media are integrated into various forms of transnational life and imagination, focusing on young Koreans and their digital media practices. By combining theoretical discussion and in depth empirical analysis, the book provides engaging narratives of transnational media fans, sojourners, and migrants. Each chapter illustrates a form of mediascape, in which transnational Korean youth culture and digital media are uniquely articulated. This perceptive research offers new insights into the transnationalization of youth cultural practices, from K-pop fandom to smartphone-driven storytelling. A transnational and ethnographic focus makes this book the first of its kind, with an interdisciplinary approach that goes beyond the scope of existing digital media studies, youth culture studies, and Asian studies. It will be essential reading for scholars and students in media studies, migration studies, popular culture studies, and Asian studies.

Adolescent Psychology in Today's World [3 volumes] Michael J. Nakkula,Andrew J. Schneider-Muñoz,2018-11-02 This groundbreaking three-volume set spotlights how conditions around the world are affecting the healthy development of adolescents in their respective environments, on all six continents. Continually unstable or perpetually poor economic conditions, globalization, and rapid technological change are just three of the forces affecting a group 1.2 billion strong today, a demographic poised to become our world leaders and catalysts in the not-too-distant future: the world's adolescents. Led by two editors who have been dedicated to studying adolescent development worldwide for decades, this novel collection of works from contributors in more than 40 countries emphasizes how possibilities for healthy mental and physical development are affected by the difficulties youths face in their countries and how these challenges have shaped, and are shaping, contemporary teenage life today. The set comprehensively addresses issues for adolescents across the globe, such as the day-to-day challenges of poverty, inadequate education, violence or war, disease, reproductive matters, globalization and technological challenges, and more, while also providing a strengths-based focus in the volumes, showing how and why some teenagers in each country have surmounted the challenges and forged stronger characters to better their worlds. These stories document more than personal victories, and their experiences matter to far more than the adolescents themselves. In its State of the World's Children 2011 report, UNICEF noted that the world community needs to turn its attention to adolescents in need, explaining that focusing on this large and potentially powerful group makes economic sense as well as being a necessary step in working towards achieving human justice. By addressing the risks, challenges, and strengths of teenagers as a group in countries worldwide, this work serves to break the cycle of poverty, violence, discrimination, and death for adolescents.

Globalization and Popular Music in South Korea Michael Fuhr,2015-06-12 This book offers an in-depth study of the globalization of contemporary South Korean idol pop music, or K-Pop, visiting K-Pop and its multiple intersections with political, economic, and cultural formations and transformations. It provides detailed insights into the transformative process in and around the field of Korean pop music since the 1990s, which paved the way for the recent international rise of K-Pop and the Korean Wave. Fuhr examines the conditions and effects of transnational flows, asymmetrical power relations, and the role of the imaginary other in K-Pop production and consumption, relating them to the specific aesthetic dimensions and material conditions of K-Pop stars, songs, and videos. Further, the book reveals how K-Pop is deployed for strategies of national identity construction in connection with Korean cultural politics, with transnational music production circuits, and with the transnational mobility of immigrant pop idols. The volume argues that K-Pop is a highly productive cultural arena in which South Korea’s globalizing and nationalizing forces and imaginations coincide, intermingle, and counteract with each other and in which the tension between both of these poles is played out musically, visually, and discursively. This book examines a vibrant example of contemporary popular music from the non-Anglophone world and provides deeper insight into the structure of popular music and the dynamics of cultural globalization through a combined set of ethnographic, musicological, and cultural analysis. Widening the regional scope of Western-dominated popular music studies and enhancing new areas of ethnomusicology, anthropology, and cultural studies, this book will also be of interest to those

studying East Asian popular culture, music globalization, and popular music.

The Rise of K-Dramas JaeYoon Park, Ann-Gee Lee, 2019-06-07 Korean dramas gained popularity across Asia in the late 1990s, and their global fandom continues to grow. Despite cultural differences, non-Asian audiences find K-dramas appealing. They range from historical melodrama and romantic comedy to action, horror, sci-fi and thriller. Devotees pursue an immersive fandom, consuming Korean food, fashion and music, learning Korean to better understand their favorite shows, and travelling to Korea for firsthand experiences. This collection of new essays focuses on the cultural impact of K-drama and its fandom, and on the transformation of identities in the context of regional and global dynamics. Contributors discuss such popular series as Boys over Flowers, My Love from the Star and Descendants of the Sun.

Women, Television and Everyday Life in Korea Youna Kim, 2012-07-26 Fusing audience research and ethnography, the book presents a compelling account of women's changing lives and identities in relation to the impact of the most popular media culture in everyday life: television. Within the historically-specific social conditions of Korean modernity, Youna Kim analyzes how Korean women of varying age and class group cope with the new environment of changing economical structure and social relations. The book argues that television is an important resource for women, stimulating them to research their own lives and identities. Youna Kim reveals Korean women as creative, energetic and critical audiences in their responses to evolving modernity and the impact of the West. Based on original empirical research, the book explores the hopes, aspirations, frustrations and dilemmas of Korean women as they try to cope with life beyond traditional grounds. Going beyond the traditional Anglo-American view of media and culture, this text will appeal to students and scholars of both Korean area studies and media and communications studies.

Beyond Borrowing Hyejeong Ahn, Jieun Kiaer, Danica Salazar, Anna Bordilovskaya, 2023-04-17 In their book, the authors describe the usage of and attitudes towards English in Asia since the 19th century, as well as the creative and dynamic ways in which Asians of the 21st century continually reinvent the lexicon of English, and the lexicons of their native tongues. The current biggest source of loanwords for many of the world's languages is English, the once obscure Germanic language that has risen to the role of a global lingua franca. However, the overwhelming influence of English is far from being entirely one-sided, at least from a lexical perspective. Many have decried the way that English has invaded the vocabularies of their languages, without realizing that the English word stock is to some extent also being invaded by these languages. This book explores the phenomenon of word exchange by examining its occurrence between English and some of the major languages spoken in Asia-highly multi-ethnic, multicultural, and multilingual region where English is the predominant medium of international and intraregional communication. Students and researchers from various linguistic areas such as World Englishes, applied linguistics, sociolinguistics, lexicology, and contact linguistics will find this book appealing.

Global Perspectives on Women in Combat Sports Christopher R. Matthews, Alex Channon, 2016-04-29 This volume offers a wide-reaching overview of current academic research on women's participation in combat sports within a range of different national and trans-national contexts, detailing many of the struggles and opportunities experienced by women at various levels of engagement within sports such as boxing, wrestling, and mixed martial arts.

English Language Ideologies in Korea Jinhyun Cho, 2017-07-27 This volume critically examines the phenomenon of "English fever" in South Korea from both micro- and macro-perspectives. Drawing on original research and rich illustrative examples, the book investigates two key questions: why is English so popular in Korea, and why is there such a gap between the 'dreams' and 'realities' associated with English in Korea? These questions are explored through the eyes of English-Korean translators and interpreters, who represent the professional group most intensely engaged in the zeal for English language mastery. Macro-perspectives focus on historical factors leading to the rise of English, with English-Korean translation and interpreting as a key theme. Micro-perspectives explore the dreams that individuals attach to English and the ways in which they imagine it can transform their lives, and contrast these dreams with the stark realities felt on the ground. The gaps between these dreams and realities are explored from various angles, which include commodification, gender and neoliberalism. The book thus offers fresh insights on how the phenomenon of "English fever" has been created, reproduced, and sustained from both historical and contemporary viewpoints. From the reviews: This is an important study of how English is experienced in one country, Korea. A very insightful analysis of the interlocking of historical factors influencing the status of English, and the interlocking significance of class, gender, aesthetics, myth-making, and the role of the media and competitive commodification. The study is based on competent use of relevant theoretical approaches, solid fieldwork, and a personal capacity to draw complex threads together. It demonstrates how language policy can be analysed in a stimulating way that has major importance beyond the borders of Korea. Language ideologies are brought to life effectively. Robert Phillipson, Emeritus Professor, Copenhagen Business School, Denmark

Korean Food Television and the Korean Nation Jaehyeon Jeong, 2020-12-10 This book examines the historical development of Korean food TV and its articulation of Koreanness in the era of globalization. Jaehyeon Jeong defines the evolution of Korean food TV as an outcome of the conjuncture between the television industry's structural changes, the shift in food's landscape and cultural legitimacy, and various sociocultural, political, and economic transformations. In addition, Jeong reveals how the state appropriates the banality of food to raise South Korea's global image and how it utilizes domestic television to disseminate statist discourse of the nation. Understanding discourses of national cuisine as reflective of and formative of discourses of the nation, he argues that the growth of discourses of national cuisine is symptomatic of the struggle for nationness in a globalized world.

Global Sports Fandom in South Korea Younghan Cho, 2020-08-21 This book explores the transformation of cultural and national identity of global sports fans in South Korea, which has undergone extensive cultural and economic globalization since the 1990s. Through ethnographic research of Korean Major League Baseball fans and their online community, this book demonstrates how a postcolonial nation and its people are developing long-distance affiliation with American sports accompanied by nationalist sentiments and regional rivalry. Becoming an MLB fan in South Korea does not simply lead one to nurturing a cosmopolitan identity, but to reconstituting one's national imaginations. Younghan Cho suggests individuated nationalism as the changing nature of the national among the Korean MLB fandom in which the national is articulated by personal choices, consumer rights and free market principles. The analysis of the Korean MLB fandom illuminates the complicated and even contradictory procedures of decentering and fragmenting nationalism in South Korea, which have been balanced by recalling nationalism in combination with neoliberal governmentality.

Bulletproof Buddhists and Other Essays Frank Chin, 1998-05-01 "America doesn't want us as a visible native minority. They want us to keep our place as Americanized foreigners ruled by immigrant loyalty. But never having been anything else but born here, I've never been foreign and resent having foreigners telling me my place in America and America telling me I'm foreign. There's no denial or rejection of Chinese culture going on here, just the recognition of the fact that Americanized Chinese are not Chinese Americans and that Chinese Americans cannot be understood in the terms of either Chinese or American culture, or some 'chow mein/spaghetti' formula of Chinese and American cultures, or anything else you've seen and loved in Charlie Chan." -from "Confessions of a Chinatown Cowboy"

K-Drama School Grace Jung, 2024-04-23 From the Emmy Award-winning Squid Game to streaming sensations like The Glory and Crash Landing on You, Korean television has

emerged onto the global pop culture scene as compelling television—but what exactly makes these shows so irresistibly bingeable? And what can we learn about our societies and ourselves from watching them? From stand-up comedian and media studies PhD Grace Jung comes a rollicking deep dive into the cultural significance of Korean television. K-Drama School analyzes everything from common tropes like amnesia and slapping to conspicuous product placements of Subway sandwiches and coffee; to representations of disability, race and gender; to what Korea's war-torn history says about South Korea's media output and the stories being told on screen. With chapters organized by lessons, each one inquiring into a different theme of Korean television, K-Drama School offers a groundbreaking exploration into this singular form of entertainment, from an author who writes with humor and heart about shows that spur tears and laughter, keeping us glued to the TV while making fans of us all. Shows discussed include: Squid Game, SKY Castle, Crash Course in Romance, Extraordinary Attorney Woo, My Mister, Something in the Rain, One Spring Night, DP, Guardian: The Lonely and Great God, Autumn in My Heart, Winter Sonata, Our Blues, and more.

Asia-Pacific Regional Security Assessment 2022 The International Institute for Strategic Studies (IISS),2022-06-10 The Asia-Pacific Regional Security Assessment examines key regional security issues relevant to the policy-focused discussions of the IISS Shangri-La Dialogue, Asia's premier defence summit convened by the International Institute for Strategic Studies. It is published each year in association with the Dialogue and the issues analysed within its covers are central to discussions at the event. Among the topics explored are: US Indo-Pacific strategy, alliances and security partnerships; Chinese perspectives on regional security; Taiwan's security and the possibility of conflict; the continuing challenges posed by North Korea's nuclear and missile programmes; the nuclear dynamics of Sino-American security relations; air and naval operations in the Asia-Pacific; Sino-American technology competition; Japan's competition and cooperation with China; India's role in the Quadrilateral Security Dialogue (Quad); the evolving regional security engagement of European states and the European Union; China's role as an upstream state in the Mekong sub-region; and the climate crisis and Asia-Pacific security. As this volume goes to press, the war in Ukraine overshadows the international security landscape and many chapters in this volume touch on the conflict's ramifications for security in the Asia-Pacific. Authors include leading regional analysts and academics at the forefront of research and analysis: Aidan Foster-Carter, James Crabtree, Peter A. Dutton, Brian Eyler, Michael Green, Sheryn Lee, Jeffrey G. Lewis, Tanvi Madan, Jeffrey Mazo, Ben Schreer, Yun Sun, Nicholas Szechenyi, Brendan Taylor, Ashley Townshend and Paul Triolo.

Communication and Sport Michael Butterworth,2021-07-19 Sport is a universal feature of global popular culture. It shapes our identities, affects our relationships, and defines our communities. It also influences our consumption habits, represents our cultures, and dramatizes our politics. In other words, sport is among the most prominent vehicles for communication available in daily life. Nevertheless, only recently has it begun to receive robust attention in the discipline of communication studies. The Handbook of Communication and Sport attends to the recent and rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry. The book attempts to capture a full range of methods, theories, and topics that have come to define the subfield of communication and sport or sports communication. It does so by emphasizing four primary features. First, it foregrounds communication as central to the study of sport. This emphasis helps to distinguish the book from collections in related disciplines such as sociology, and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus, in addition to studies of media effects, mediatization, media framing, and more, readers will also engage with studies in interpersonal, intercultural, organizational, and rhetorical communication. Second, the handbook presents an array of methods, theories, and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus, readers will benefit from empirical, interpretive, and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the Handbook of Communication and Sport includes a broad range of scholars from around the world. It is therefore neither European nor North American in its primary focus. In addition, the book includes contributors from commonly under-represented regions in Asia, Africa, and South America. Fourth, the handbook aims to account for both historical trajectories and contemporary areas of interest. In this way, it covers the central topics, debates, and perspectives from the past and also suggests continued and emerging pathways for the future. Collectively, the Handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available.
