Arts of Korea Yang-mo Chŏng, Metropolitan Museum of Art (New York, N.Y.),1998 This catalog highlights one hundred of the finest examples of Korean ceramics, metalwork, and decorative arts, Buddhist sculpture, and painting. One of the few English-language volumes to be published on the subject, Arts of Korea is a comprehensive introduction to an important East Asian cultural and artistic tradition. -- Metropolitan Museum of Art website.

Silla Soyoung Lee, Denise Patry Leidy,2013 The Silla Kingdom, which flourished in Korea from 57 B.C. to 935 A.D., is known for its intricately crafted ornaments, many in resplendent gold, and for the creation of prominent Buddhist temples. Silla focuses on the striking artistic traditions of the Old and Unified Silla Kingdoms (4th-8th century), and is the first publication in English to explore the artistic and cultural legacy of this ancient realm. Among the topics explored are Korea's position as the eastern culmination of the Silk Road in the first millennium A.D. and the character and evolution of Buddhism, as illuminated by objects from major monuments, temples, and tombs. The book also presents new research about Silla's ancient capital, Gyeongju, which is known for the Gyerim-ro Dagger, as well as the pottery, glass, and beads discovered in tombs located there.-- Publisher's description.

Cultural Treasures of Korea Hong-sŏp Chin,1993 The first two volumes are devoted to the most highly esteemed of Korea's cultural treasures, designated as National Treasures. Each book consists of a catalog & a list of treasures...the catalogs are preceded by color plates & followed by introductory essays, each by a different specialist, which provide contextual reference for the treasures in each group. In Volume 1, buildings--palace, temple & shrine--in wood construction are grouped together as are pagodas, Buddhist images & monuments carved from stone... Volume 2, groups...tomb deposits...ceramic containers & incense burners, metal work, paintings & ancient books & documents... Every entry (has) a terse explanatory essay... This constitutes the most important feature of the publication. The captions offer, in every case, additional information about each artifact... The remaining volumes are devoted to General Treasures... Each volume has 150-250 splendid color photographs... with details--again, the most important feature of the series... Both the National Treasures & the General Treasures volumes are extraordinary because of the high quality & number of the color plates... the series as a whole is recommended for all libraries with an interest in the cultures of East Asia. Architectural Conservation in Asia John H. Stubbs, Robert G. Thomson,2016-11-10 At a time when organized heritage protection in Asia is developing at a rapid pace, Architectural Conservation in Asia provides the first comprehensive overview of architectural conservation practice from Afghanistan to the Philippines. The country-by-country analysis adopted by the book draws out local insights, experiences, best practice and solutions for effective cultural heritage management that will inform study and practice both in Asia and beyond. Whereas architectural conservation in much of the Western world has been extensively documented, this book brings together coverage of many regions where architectural conservation has been understudied. Following on from the highly influential companion volumes on global architectural conservation and architectural conservation in Europe and the Americas, with this book the authors extend their pioneering global examination to the dynamic and evolving field of architectural conservation in Asia. Throughout the book, the authors and regional experts provide local case studies and profile topics that bring depth and insight to this ambitious study. As architectural conservation becomes increasingly global in practice, this book will be of considerable assistance to architectural conservation practitioners, site managers and students of architecture, planning, archaeology and heritage studies worldwide.

Korean Buncheong Ceramics from Leeum, Samsung Museum of Art Soyoung Lee, Seung-chang Jeon, Sŭng-ch'ang Chŏn,2011 Bold, sophisticated, engaging, and startlingly modern, Buncheong ceramics emerged as a distinct Korean art form in the 15th and 16th centuries, only to be eclipsed on its native ground for more than 400 years by the overwhelming demand for porcelain. Elements from the Buncheong idiom were later revived in Japan, where its spare yet sensual aesthetic was much admired and where descendants of Korean potters lived and worked. This innovative study features 60 masterpieces from the renowned Leeum, Samsung Museum of Art in Seoul, as well as objects from The Metropolitan Museum of Art, and presents current scholarship on Buncheong's history, manufacture, use, and overall significance. The book illustrates why this historical art form continues to resonate with Korean and Japanese ceramists working today and with contemporary viewers worldwide.

The Impacts of Dictatorship on Heritage Management Minjae Zoh,2020-10-06 The relationship between heritage and dictatorship has, arguably, been relatively understudied compared to research on the nation-state. In recognising the importance of understanding how different political systems can have various and particular outcomes on heritage, *The Impacts of Dictatorship on Heritage Management* has developed the concept of 'Authorised Dictatorial Discourse' (ADD) to the ever-growing and evolving field of Heritage Studies. Through the exploration of the various impacts a 'dictatorship' can have on the management and uses of heritage sites, this book sets out to examine how a dictator's interests in certain heritage sites, and particularly territories, can affect how heritage becomes preserved and promoted in both the mid and long terms. Building on Laurajane Smith's seminal works on Authorised Heritage Discourse (AHD) in her book *Uses of Heritage* (Routledge, 2006), this book also seeks to gain a more precise and in-depth understanding of the relationship between 'heritage and dictatorship', how authorised discourses on heritage has been exercised, and how territory policies that influenced the preservation and promotion of heritage sites have been executed. In doing so, *The Impacts of Dictatorship on Heritage Management* aims to provide a better insight into, demonstrate how, and the extent to which the politics of heritage and territory can be interlinked with this type of political system. This book will appeal to those with a keen interest in heritage management, dictatorship and heritage, South Korean heritage and theoretical heritage management. It will be of particular interest to research students and scholars who are part of this interdisciplinary field.

Historical Dictionary of the Republic of Korea James E. Hoare,2015-06-09 The Korean Peninsula lies at the strategic heart of East Asia, between China, Russia, and Japan, and has been influenced in different ways and at different times by all three of them. Across the Pacific lies the United States, which has also had a major influence on the peninsula since the first encounters in the mid-nineteenth century. Faced by such powerful neighbors, the Koreans have had to struggle hard to maintain their political and cultural identity. The result has been to create a fiercely independent people. If they have from time to time been divided, the pressures towards unification have always proved strong. This third edition of *Historical Dictionary of the Republic of Korea* covers its history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Republic of Korea.

Efficacious Underworld Cheeyun Lilian Kwon,2019-02-28 The Ten Kings hanging scrolls at Tokyo's Seikadō Bunko Art Museum are among the most resplendent renderings of the Buddhist purgatory extant, but their origin and significance have yet to be fully explored. Cheeyun Kwon unfurls this exquisite set of scrolls within the existing Ten Kings painting tradition while investigating textual, scriptural, archaeological, and visual materials from East Asia to shed light on its possible provenance. She constructs a model scheme of the paintings' evolution based on more than five hundred works and reveals channels of popularization, mass production, and agglomeration. The earliest images of the Ten Kings are found in the tenth-century sūtra *The Scripture on the Ten Kings*, known to be the work of the monk Zangchuan. By the mid-twelfth century, typological conventions associated with the Ten Kings were widely established, and paintings depicting them, primarily large-scale and stand-alone, became popular export commodities, spreading via land and sea routes to the Korean peninsula and the Japanese archipelago. An examination of materials in Korea suggests a unique development path for Ten Kings subject matter, and this—in conjunction with a close analysis of the Seikadō paintings—forms the core of Kwon's book. Among the Korean works discussed is a woodblock edition of *The Scripture on the Ten Kings* from 1246. It is markedly different from its Chinese counterparts and provides strong evidence of the subject's permutations during the Koryō period (918–1392), when Northern Song (960–1127) visual art and culture were avidly imported. In the Seikadō paintings, Northern Song figural, architectural, landscape, and decorative elements were acculturated to the Koryō milieu, situating them in the twelfth to early thirteenth centuries and among the oldest and most significant surviving examples of Koryō Buddhist painting. *Efficacious Underworld* fills major lacunae in Korean, East Asian, and Ten Kings painting traditions while illuminating Korea's contribution to the evolution of a Buddhist theme on its trajectory across East Asia. With its rich set of color reproductions and detailed analysis of textual and visual materials, this volume will invite significant revision to previously held notions on Koryō painting.
