*The Monsters of Rookhaven* Pádraig Kenny, 2021-09-21 "A stunning book...a brand new take on the monster story." —Eoin Colfer, international bestselling author of the Artemis Fowl series From award-winning author Pádraig Kenny comes an action-packed middle grade fantasy about a family of monsters, perfect for fans of Jonathan Auxier and Victoria Schwab. Mirabelle is part of a very unusual family. Between Uncle Bertram transforming into a ferocious grizzly bear and Aunt Eliza's body being made entirely of spiders, it's safe to say they are an extraordinary lot. To the human residents of Rookhaven Village, the family is a threat. So long ago, a treaty was reached between them—in return for sundries and supplies, the monsters won't eat the townspeople—and an invisible glamour was set around the perimeter of the Manor to keep strangers out. But the glamour serves a second purpose: to keep Mirabelle and her family hidden from those who would do them harm. When two orphans—siblings Jem and Tom—stumble upon a tear in the magical field and open a door that was meant to stay locked, Mirabelle and her family are put in grave danger. A very real monster has locked onto their scent, and he has a hunger for their kind. At turns chilling and thought-provoking, and stunningly illustrated by Edward Bettison, Pádraig Kenny's *The Monsters of Rookhaven* explores difference and empathy through the eyes of characters you won't soon forget.

*The Haunted Lake* P. J. Lynch, 2020-09-08 In famed author-illustrator P.J. Lynch's gorgeous tale, he creates two worlds—underwater and above—to tell an epic and haunting love story. Jacob and his father are the only people who fish Lake Spetzia, which was formed when the river was dammed and their town was flooded. The villagers say the lake is haunted, but Jacob and his father don't want to leave, because Jacob's mother is buried in the cemetery below the water. As Jacob grows up, a village girl named Ellen falls in love with him, and he with her. But before they are married, Jacob disappears—lured underwater by the ghosts who inhabit the sunken village. Years go by,

with Jacob held captive by the watery spirits and Ellen never giving up hope that she will find him, until a fateful night when Jacob sees the light of Ellen's boat floating above. Can he break free and reach the surface? Masterful illustrations alive with achingly expressive characters and eerie underwater light bring readers into acclaimed creator P.J. Lynch's rich world of love, loss, and hope.

The Boldness of Betty Anna Carey, 2020-09-07 Dublin 1913 My name is Betty Rafferty. A few weeks ago I had to leave school and go out to work in a cake shop, serving fancy cakes to rude, rich people. No choice. But since then so much has happened. It all started when old Miss Warby took our pay away. And we walked out! The whole city - well, all us union members - are going out on strike. Even my dog Earnshaw has joined in! Life on the picket line in the lashing rain isn't much fun. Lots of people, like Peter Lawlor, just don't understand how unfair everything is. But we workers have to stand together - no matter what!

Value in Due Diligence Ronald Gleich, Gordana Kierans, 2017-11-22 The recent financial crisis has thrown many of the mergers and acquisitions of recent years into sharp focus. Too many have failed to generate real value for shareholders and many others have only proved lukewarm successes. Although it is impossible to assess accurately the extent to which these failures may be the result of poor planning and execution, they have raised considerable questions about the process, breadth and effectiveness of traditional due diligence activities. Value in Due Diligence explores new applications for due diligence including areas such as corporate culture, social responsibility, and innovation. It also examines the due diligence process itself to draw out those elements that provide effective risk and opportunity management as opposed to simple compliance.

**The Falling in Love Montage** Ciara Smyth, 2020-06-09 Two girls embark on a summer of montage-worthy dates (with a few strings attached) in this hilarious and heartfelt lesbian rom-com that's perfect for fans of Becky Albertalli and Jenny Han. Seventeen-year-old cynic Saoirse Clarke isn't looking for a relationship. But when she meets mischievous Ruby, that rule goes right out the window. Sort of. Because Ruby has a loophole in mind: a summer of all the best cliché movie montage dates, with a definite ending come fall—no broken hearts, no messy breakup. It would be the perfect plan, if they weren't forgetting one thing about the Falling in Love Montage: when it's over, the characters have fallen in love...for real. Ciara Smyth's debut is a delightful, multilayered YA rom-com that will make you laugh, cry, and absolutely fall in love.

**Regulating FinTech in Asia** Mark Fenwick, Steven Van Uytsel, Bi Ying, 2020-07-28 This book focuses on Fintech regulation in Asian, situating local developments in broader economic, regulatory and technological contexts. Over the last decade, Fintech – broadly defined as the use of new information technologies to help financial institutions and intermediaries compete in the marketplace – has disrupted the financial services sector. Like other 21st century technological developments, Fintech is a global phenomenon that plays out in local economic, political and regulatory contexts, and this dynamic interplay between global trends and local circumstances has created a complex and fast-changing landscape. Diverse stakeholders (most obviously incumbent financial service providers, tech start-ups and regulators) all pursue a competitive edge against a background of profound uncertainty about the future direction and possible effects of multiple emerging technologies. Compounding these difficulties are uncertainties surrounding regulatory responses. Policymakers often struggle to identify appropriate regulatory responses and increasingly turn to policy experimentation. Such issues add to the challenges for the various actors operating in the Fintech space. This situation is particularly fluid in Asia, since many jurisdictions are seeking to establish themselves as a regional hub for new financial services.

Begin Boldly Christie Hunter Arscott, 2022-08-02 Learn how to take the right risks for lasting success. Begin Boldly provides a framework for making the kind of bold moves that will get your career off to its best start!

Have you ever shied away from taking a risk? Maybe you didn't apply for a job because you didn't meet 100 percent of the requirements or passed up the opportunity to take on a challenging role because you didn't feel ready. If you can relate, you are not alone. Despite recognizing the benefits of making bold moves, most women-especially those early in their careers-struggle to harness the power of risk-taking. *Begin Boldly* changes that. Christie Hunter Arscott equips readers to intelligently take risks using an actionable model built around three mindsets: a curious mindset, a courageous mindset, and an agile mindset. With a step-by-step method for taking risks, assessing rewards, and refining approaches, she gives women a flexible and repeatable framework to help them develop this critical career skill. *Begin Boldly* inspires women to take chances on themselves and turns risk-taking into an enlightening and empowering antidote for self-doubt. As Christie reminds us, the biggest risk for women is not taking any risks at all. A discussion guide is available in this book.

**AVENUE21. Connected and Automated Driving: Prospects for Urban Europe** Mathias Mitteregger, Emilia M. Bruck, Aggelos Soteropoulos, Andrea Stickler, Martin Berger, Jens S. Dangschat, Rudolf Scheuvers, Ian Banerjee, 2021-10-07 This open access publication examines the impact of connected and automated vehicles on the European city and the conditions that can enable this technology to make a positive contribution to urban development. The authors argue for two theses that have thus far received little attention in scientific discourse: as connected and automated vehicles will not be ready for use in all parts of the city for a long time, previously assumed effects - from traffic safety to traffic performance as well as spatial effects - will need to be re-evaluated. To ensure this technology has a positive impact on the mobility of the future, transport and settlement policy regulations must be adapted and further developed. Established territorial, institutional and organizational boundaries must be investigated and challenged quickly. Despite - or, indeed, because of - the many uncertainties, we find ourselves at the beginning of a new design phase, not only in terms of technology development, but also regarding politics, urban planning, administration and civil society.
