INTENTIONAL LEADERSHIP ~ The Glen's Market Culture Glen A. Catt, 2021-07-13
Book Glen's Markets started in the small, thriving town of Gaylord, Michigan, on June 7, 1951, and was a dream of C. Glen Catt. Little did he know that through his efforts, that little 2,500-square-foot store would result in a regional supermarket chain of twenty-six stores with upwards of 2,500 associates. Through three generations of Glen's, C. Glen Catt, Glen A. Catt, and Glen B. Catt (and numerous committed associates), Glen's Markets would become highly admired within the retail food industry for its unique, self-perpetuating culture of relationships, customer service, and attention to detail. *Intentional Leadership: The Glen's Market Culture* shares the story from the early sculpturing of C. Glen Catt growing up in a financially struggling family during and after the Great Depression in the 1930s through the intentional relationships with associates and customers to the psychological deliberations that resulted in selling the retail arm of the company in 1999. Glen's Markets was built on the basis of people working with people serving people. Any individual who has the opportunity to work with another human being will find eye-opening examples in the Glen's story that will help them to make a difference in the lives of the people they work with. Whether you are already in a leadership position or desire one day to have that responsibility, the uniqueness of how the Glen's Markets family operated will spark new thoughts to help stretch your mind.

Reimagining Pensions Olivia S. Mitchell, Richard C. Shea, 2016-01-21 The 1964

termination of the Studebaker Corporation's pension plan wiped out or significantly reduced the pensions of thousands of the automaker's employees and retirees. In response, the US Congress passed the 1974 Employee Retirement Income Security Act (ERISA), a monumental and revolutionary piece of legislation crafted to address corporate pension underfunding. The bill also set new rules regarding defined benefit (DB) and other retirement plans, and it established the Pension Benefit Guaranty Corporation as a government-run insurer to serve as a backdrop to U.S. corporate pensions. Despite the bill's far-ranging scope, in the decades since its passage, it has become evident that ERISA failed to achieve many of its intended objectives. The corporate pension scene today is in turmoil, and most private employers have terminated or frozen their traditional DB plans. In their place, employers are increasingly substituting defined contribution (DC) retirement saving plans, which pose a new set of responsibilities on employees and their firms. This volume investigates how and why traditional approaches to pension risk management have failed, and we also explore the new mechanisms required to strengthen retirement security for the future. Lessons from international experience are also included, ranging from Singapore to Switzerland, and the Netherlands to Australia.

Looking Beyond Race Otis Milton Smith, Mary M. Stolberg, 2000 In *Looking Beyond Race*, Otis Milton Smith recounts his life as an African American who overcame poverty and prejudice to become a successful politician, and eventual president of General Motors. In *Looking Beyond Race*, Otis Milton Smith (1922-94) recounts his life as an African American who overcame poverty and prejudice to become a successful politician, going on

to become the first black vice president and general counsel of General Motors. Born in the slums of Memphis, Tennessee, Smith was the illegitimate son of a black domestic worker and her prominent white employer. Although he identified with his mother's blackness, he inherited his father's white complexion. This left him open to racism from whites, who resented his African American heritage, and blacks, who resented his skin color. Throughout his life, Smith worked with and met many prominent Americans. He knew boxer Joe Louis, future general Daniel Chappie James, future Detroit mayor Coleman Young, and the nation's first African American general, B. O. Davis Jr. Through politics he knew Michigan's prominent politicians and was appointed by Governor John Swainson to the Michigan Supreme Court, making him the first black man since Reconstruction to sit on any supreme court in the nation. Smith also knew nationally known figures such as Eleanor Roosevelt, Adam Clayton Powell Jr., Estes Kefauver, and presidents John F. Kennedy and Ronald Reagan. Through his civil rights work, he met A. P. Tureaud, Roy Wilkins, and Benjamin Hooks, and he worked closely with Vernon Jordan. *Looking Beyond Race* provides a rare glimpse into the inner workings of America's largest corporation. Smith was an early advocate of the increased cooperation between business and government that was so necessary for business negotiating the complexities of a global economy. In 1983 he retired as general counsel for the corporation, having been the company's first black officer. This memoir, which Smith dictated during the three years before his death in 1994, is a compelling tale that ends with the inspirational story of Smith's reconciliation with his white relatives who still live in the South. In this highly readable memoir, *Looking Beyond Race* provides a moving tale that will appeal to readers

interested in African American history, politics, labor relations, business, and Michigan history.

Indiana Blacks in the Twentieth Century Emma Lou Thornbrough,2000 Indiana Blacks in the Twentieth Century Emma Lou Thornbrough Edited and with a final chapter by Lana Ruegamer Sequel to Thornbrough's early groundbreaking study of African Americans. Indiana Blacks in the Twentieth Century is the long-awaited sequel to Emma Lou Thornbrough's classic study The Negro in Indiana before 1900. In this posthumous volume, Thornbrough (1913-1994), the acknowledged dean of black history in Indiana, chronicles the growth, both in numbers and in power, of African Americans in a northern state that was notable for its antiblack tradition. She shows the effects of the Great Migration of African Americans to Indiana during World War I and World War II to work in war industries, linking the growth of the black community to the increased segregation of the 1920s and demonstrating how World War II marked a turning point in the movement in Indiana to expand the civil rights of African Americans. Indiana Blacks describes the impact of the national civil rights movement on Indiana, as young activists, both black and

white, challenged segregation and racial injustice in many aspects of daily life, often in new organizations and with new leaders. The final chapter by Lana Ruegamer explores ways that black identity was affected by new access to education, work, and housing after 1970, demonstrating gains and losses from integration. Emma Lou Thornbrough (1913-1994), the acknowledged expert on Indiana black history, was author of *The Negro in Indiana before 1900: A Study of a Minority* (1957, reprinted 1993) and *Since Emancipation: A Short History of Indiana Negroes, 1863-1963* (1964) and editor of *This Far by Faith: Black Hoosier Heritage* (1982). Professor of History at Butler University from 1946 to 1983, Thornbrough held the McGregor Chair in History and received the university's highest award, the Butler Medal. Born in Indianapolis, she was educated at Shortridge High School, Butler University, and the University of Michigan (Ph.D., 1946). Lana Ruegamer, editor for the Indiana Historical Society from 1975 to 1984, is author of *A History of the Indiana Historical Society, 1830-1980*. She taught at Indiana University from 1986 to 1998 and is presently associate editor of the *Indiana Magazine of History*. Ruegamer won the 1995 Thornbrough prize for best article published in that magazine.

The New Encyclopedia of Southern Culture Samuel S. Hill, 2006-12-13
Evangelical Protestant groups have dominated religious life in the South since the early nineteenth

century. Even as the conservative Protestantism typically associated with the South has risen in social and political prominence throughout the United States in recent decades, however, religious culture in the South itself has grown increasingly diverse. The region has seen a surge of immigration from other parts of the United States as well as from Latin America, Asia, and the Middle East, bringing increased visibility to Catholicism, Islam, and Asian religions in the once solidly Protestant Christian South. In this volume of *The New Encyclopedia of Southern Culture*, contributors have revised entries from the original *Encyclopedia* on topics ranging from religious broadcasting to snake handling and added new entries on such topics as Asian religions, Latino religion, New Age religion, Islam, Native American religion, and social activism. With the contributions of more than 60 authorities in the field--including Paul Harvey, Loyal Jones, Wayne Flynt, and Samuel F. Weber--this volume is an accessibly written, up-to-date reference to religious culture in the American South.

The 4 Disciplines of Execution Chris McChesney, Sean Covey, Jim Huling, 2016-04-12
BUSINESS STRATEGY. *The 4 Disciplines of Execution* offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of *The Innovator's Dilemma*). Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running

day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. The 4 Disciplines of Execution can change all that forever.

In Love and Struggle Stephen M. Ward,2016-09-12 James Boggs (1919-1993) and Grace Lee Boggs (1915-2015) were two largely unsung but critically important figures in the black freedom struggle. Born and raised in Alabama, James Boggs came to Detroit during the Great Migration, becoming an automobile worker and a union activist. Grace Lee was a Chinese American scholar who studied Hegel, worked with Caribbean political theorist C. L. R. James, and moved to Detroit to work toward a new American revolution. As husband and wife, the couple was influential in the early stages of what would become the Black Power movement, laying the intellectual foundation for racial and urban struggles during one of the most active social movement periods in recent U.S. history. Stephen Ward details both the personal and the political dimensions of the Boggses' lives, highlighting the vital contributions these two figures made to black activist thinking. At once a dual biography of two crucial figures and a vivid portrait of Detroit as a center of activism, Ward's book restores the Boggses, and the intellectual strain of black radicalism they shaped, to their rightful place in postwar American history.

Pandemic Posts II Jeanne Cohen, 2022-12-27 On July 4, 2021, Americans celebrated with a renewed sense that we were crushing the Coronavirus and the president and encouraged us to enjoy the fireworks with friends and family as a way to mark our independence from Covid-19. This year the Fourth of July is a day of special celebration for we are emerging the darkness of a year of pandemic and isolation, a year of pain, fear and heartbreaking loss, he said. But his optimism, and my own, were misplaced. *Pandemic Post II* picks up six weeks after the First Volume wrapped up when it became clear we were not 'crushing' anything except, perhaps, our collective psycho.
