Genesis and Development of a Scientific Fact Ludwik Fleck,2012-09-05 Originally published in German in 1935, this monograph anticipated solutions to problems of scientific progress, the truth of scientific fact and the role of error in science now associated with the work of Thomas Kuhn and others. Arguing that every scientific concept and theory—including his own—is culturally conditioned, Fleck was appreciably ahead of his time. And as Kuhn observes in his foreword, Though much has occurred since its publication, it remains a brilliant and largely unexploited resource. To many scientists just as to many historians and philosophers of science facts are things that simply are the case: they are discovered through properly passive observation of natural reality. To such views Fleck replies that facts are invented, not discovered. Moreover, the appearance of scientific facts as discovered things is itself a social construction, a made thing. A work of transparent brilliance, one of the most significant contributions toward a thoroughly sociological account of scientific knowledge.—Steven Shapin, *Science*

The Life to Come Michelle De Kretser,2018-03-13 Winner of the Miles Franklin Literary Award Shortlisted for the Stella Prize Longlisted for the International Dublin Literary Award “For a novel concerned with dislocation, there's a lot of grounding humor in *The Life to Come*. Most of it comes at the expense of Pippa and her ilk, but de Kretser's observations are so spot on, you'll forgive her even as you cringe.”—Amelia Lester, *New York Times Book Review* Set in Australia, France, and Sri Lanka, *The Life to Come* is about the stories we tell and don't tell ourselves as individuals, as societies, and as nations. Driven by a vivid cast of characters, it explores necessary emigration, the art of fiction, and ethnic and class conflict. Pippa is a writer who longs for success and eventually comes to fear that she “missed everything important.” Celeste tries to convince herself that her feelings for her married lover are reciprocated. Ash makes strategic use of his childhood in Sri Lanka, but blots out the memory of a tragedy from that time. Sri Lankan Christabel endures her dull job and envisions a brighter future that “rose, glittered, and sank back,” while she neglects the love close at hand. The stand-alone yet connected worlds of *The Life to Come* offer meditations on intimacy, loneliness, and our flawed perception of reality. Enormously moving, gorgeously observant of physical detail, and often very funny, this new novel by Michelle de Kretser reveals how the shadows cast by both the past and the future can transform and distort the present. It is teeming with life and earned wisdom—exhilaratingly contemporary, with the feel of a classic.

PyroMarketing Greg Stielstra,2008-01-29 The era of mass marketing is ending—replaced by the power of customer evangelists unleashed through a systematic approach to word-of-mouth called PyroMarketing. Learn how the system that sparked a revolution in the Christian marketplace can fuel the success of your business. Word-of-mouth is the biggest influence on consumer purchases and its influence is growing. How do you tap its power? The key is not some new technology or advertising fad. The best way to understand the marketing process, the way messages are sent, received, acted upon, and spread, is to think of fire. PyroMarketing simplifies word-of-mouth to a four-step system that optimizes your advertising dollars by targeting the right customers and then converting them into unpaid sales and marketing evangelists. Tapping the latest research into the brain and human behavior, Greg Stielstra demonstrates how traditional marketing techniques are expensive, obsolete, and doomed to failure—while PyroMarketing principles deliver powerful results over the long-term and for less money. Illustrated with case studies including *The Purpose-Driven Life*, one of the bestselling books of all time, and the breakaway phenomenon *The Passion of the Christ*, PyroMarketing is a comprehensive strategy that can help any business reach and retain new markets.

The Odyssey Gareth Hinds,2010-10-12 Fresh from his triumphs in the Trojan War, Odysseus, King of Ithaca, wants nothing more than to return home to his family. Instead, he offends the sea god, Poseidon, who dooms him to years of shipwreck and wandering. Battling man-eating monsters, violent storms, and the supernatural seductions of sirens and sorceresses, Odysseus will need all his strength and cunning--and a little help from Mount Olympus--to make his way home and seize his kingdom from the schemers who seek to wed his queen and usurp his throne. Award-winning graphic artist Gareth Hinds masterfully reinterprets a story of heroism, adventure, and high action that has been told and retold for more than 2,500 years--though never quite like this. With bold imagery and an ear tuned to the music of Homer's epic poem, Gareth Hinds reinterprets the ancient classic as it's never been told before.

Lost Amusement Parks of the North Jersey Shore Rick Geffken and George Severini,2017 By the end of the 19th century, New Jersey coastline was dotted with thriving amusement parks but are just fond and fading memories today. The Jersey Shore has always attracted people seeking relief from summer heat and humidity. Long before Europeans came here, the native Lenape clammed, fished, and played games on the beach and in the surf. These original people could scarcely have imagined that, by the end of the 19th century, the 120-mile-long coastline would be filled with amusement parks featuring gentle kiddie car rides, terrifying roller coasters, merry-go-rounds, and fast-food emporiums. James Bradley in Asbury Park and William Sandlass Jr. in Highland Beach created mass entertainment for hundreds of thousands of people. Their seaside recreation centers, along with those in Long Branch, Bradley Beach, Pleasure Bay, and others, endured for years. Sadly, they are now just distant and vanishing memories that are resurrected in this piece.

Forgotten Wars Włodzimierz Borodziej,Maciej Górny,2021-04-01 Włodzimierz Borodziej and Maciej Górny set out to salvage the historical memory of the experience of war in the lands between Riga and Skopje, beginning with the two Balkan conflicts of 1912-1913 and ending with the death of Emperor Franz Joseph in 1916. The First World War in the East and South-East of Europe was fought by people from a multitude of different nationalities, most of them dressed in the uniforms of three imperial armies: Russian, German, and Austro-Hungarian. In this first volume of Forgotten Wars, the authors chart the origins and outbreak of the First World War, the early battles, and the war's impact on ordinary soldiers and civilians through to the end of the Romanian campaign in December 1916, by which point the Central Powers controlled all of the Balkans except for the Peloponnese. Combining military and social history, the authors make extensive use of eyewitness accounts to describe the traumatic experience that established a region stretching between the Baltic, Adriatic, and Black Seas.
