Black and White Tapestry Fred Cogswell, 1989

EBoy Steffen Sauerteig, 2002 Devoted entirely to the work of eBoy, this volume showcases the firm's graphic artwork with some 500 colour illustrations that represent all of the images currently held in their image database.

Adventures with Ari Kathryn Miles, 2009-04 Traces the author's forays into experiencing nature and promoting green agendas in accordance with a dog's perspective, describing the rewards she enjoyed while exploring the natural world at the side of her free-spirited puppy.

Key to the Elements of New Testament Greek Henry Preston Vaughan Nunn, 1915

Psychedelic Psychiatry Erika Dyck, 2008-09-15 LSD's short but colorful history in North America carries with it the distinct cachet of counterculture and government experimentation. The truth about this mind-altering chemical cocktail is far more complex—and less controversial—than generally believed. *Psychedelic Psychiatry* is the tale of medical researchers working to understand LSD's therapeutic properties just as escalating anxieties about drug abuse in modern society laid the groundwork for the end of experimentation at the edge of psychopharmacology. Historian Erika Dyck deftly recasts our understanding of LSD to show it as an experimental substance, a medical treatment, and a tool for exploring psychotic perspectives—as well as a recreational drug. She recounts the inside story of the early days of LSD research in small-town, prairie Canada, when Humphry Osmond and Abram Hoffer claimed incredible advances in treating alcoholism, understanding schizophrenia and other psychoses, and achieving empathy with their patients. In relating the drug's short, strange trip, Dyck explains how concerns about countercultural trends led to the criminalization of LSD and other so-called psychedelic drugs—concordantly opening the way for an explosion in legal prescription pharmaceuticals—and points to the recent re-emergence of sanctioned psychotropic research among psychiatric practitioners. This challenge to the prevailing wisdom behind drug regulation and addiction therapy provides a historical corrective to our perception of LSD's medical efficacy.

Satan & Salem Benjamin C. Ray, 2017 This book looks beyond single-factor interpretations to offer a far more nuanced view of why the Salem witch-hunt spiraled out of control. Rather than assigning blame to a single perpetrator, Ray assembles portraits of several major characters, each of whom had complex motives for accusing his or her neighbors. In this way, he reveals how religious, social, political, and legal factors all played a role in the drama.

All Standing Kathryn Miles, 2014-01-14 The story of an infant born at sea highlights the efforts of crewpeople and passengers to secure the survival of Irish citizens fleeing from the potato famine through acts of heroism and human decency.

Demoralized Doris A. Santoro, 2021-02-09 *Demoralized: Why Teachers Leave the Profession They Love and How They Can Stay* offers a timely analysis of professional dissatisfaction that challenges the common explanation of burnout. Featuring the voices of educators, the book offers concrete lessons for practitioners, school leaders, and policy makers on how to think more strategically to retain experienced teachers and make a difference in the lives of students. Based on ten years of research and interviews with practitioners across the United States, the book theorizes the existence of a “moral center” that can be pivotal in guiding teacher actions and expectations on the job. Education philosopher Doris Santoro argues that demoralization offers a more precise diagnosis that is born out of ongoing

value conflicts with pedagogical policies, reform mandates, and school practices. Demoralized reveals that this condition is reversible when educators are able to tap into authentic professional communities and shows that individuals can help themselves. Detailed stories from veteran educators are included to illustrate the variety of contexts in which demoralization can occur. Based on these insights, Santoro offers an array of recommendations and promising strategies for how school leaders, union leaders, teacher groups, and individual practitioners can enact and support “re-moralization” by working to change the conditions leading to demoralization.

Banking and Beyond Caterina Cruciani, Gloria Gardenal, Elisa Cavezzali, 2021-08-28 This book explores the evolution of the banking sector and the financing tools it fosters, addressing the impact of new regulations and the ensuing opportunities for financial institutions, firms, and individuals. Written in two parts, the project includes papers presented at the 2019 Annual Conference of the Wolpertinger Club - The European Association of University Teachers in Banking and Finance. The first part addresses the impact of policy changes on banks and financial institutions, particularly the impact of recent changes in European policy. The authors explore how policy has been, and is, communicated and how it shapes new incentives and challenges for the banking sector and institutional and individual investors. The book touches upon the debate on the 'bail-in' vs

'bail-out' options and reviews new opportunities for investors on covered and subordinated bond markets in Europe, covering the new regulatory structure provided by the European authorities. The second part explores new financing tools besides the traditional banking sector available to firms and individuals, examining financing options for firms and individuals, and describing the role that alternative capital-market tools such as mini bonds and crowdfunding are playing within the landscape of SME financing. Arguing that financing decisions can ultimately affect the survival rate of startups, this edited collection will be valuable to those researching both finance and business, but particularly to those studying banking, financial institutions and entrepreneurial finance.

Winslow Homer and the Camera Frank H. Goodyear III, Dana E. Byrd, 2018-01-01
A revelatory exploration of Winslow Homer's engagement with photography, shedding new light on his celebrated paintings and works on paper One of the greatest American painters of the 19th century, Winslow Homer (1836–1910) also maintained a deep engagement with photography throughout his career. Focusing on the important, yet often-overlooked, role that photography played in Homer's art, this volume exposes Homer's own experiments with the camera (he first bought one in 1882). It also explores how the medium of photography and the larger visual economy influenced his work as a painter, watercolorist, and printmaker at a moment when new print technologies inundated the public with images. Frank Goodyear and Dana Byrd demonstrate

that photography offered Homer new ways of seeing and representing the world, from his early commercial engravings sourced from contemporary photographs to the complex relationship between his late-career paintings of life in the Bahamas, Florida, and Cuba and the emergent trend of tourist photography. The authors argue that Homer's understanding of the camera's ability to create an image that is simultaneously accurate and capable of deception was vitally important to his artistic practice in all media. Richly illustrated and full of exciting new discoveries, Winslow Homer and the Camera is a long-overdue examination of the ways in which photography shaped the vision of one of America's most original painters.

The Price of the Haircut Brock Clarke, 2018-03-13 From an acclaimed and original writer comes a new collection of stories bursting with absurdist plot twists and laced with trenchant wit. Brock Clarke, author of *An Arsonist's Guide to Writers' Homes in New England* and *Exley*, among other novels, now offers up bite-sized morsels of his trademark social satire that will have readers laughing, and perhaps shifting uncomfortably in their seats. The title story delivers a cringingly biting dissection of racial attitudes in contemporary America, and Clarke also turns his eagle eye to subjects like PTSD, the fate of child actors, and, most especially, marital discord in stories like "Considering Lizzie Borden, Her Axe, My Wife" and "The Misunderstandings." In "The Pity Palace," a masterful study in self-absorption and self-delusion, a reclusive husband in Florence, Italy, who

believes his wife has left him for a famous novelist, sells tickets to tourists anxious to meet someone more miserable than they. It's a distinctly Clarkean world, in which readers find themselves reflected back with the distortion of funhouse mirrors—and swept up on a wild ride of heart-wrenching insight and self-discovery.

Geometric Inequalities Hayk Sedrakyan, Nairi Sedrakyan, 2017-05-27 This unique collection of new and classical problems provides full coverage of geometric inequalities. Many of the 1,000 exercises are presented with detailed author-prepared solutions, developing creativity and an arsenal of new approaches for solving mathematical problems. This book can serve teachers, high-school students, and mathematical competitors. It may also be used as supplemental reading, providing readers with new and classical methods for proving geometric inequalities.

Duty Julian Fantino, 2008-10-17 Duty is an unflinching behind-the-headlines portrait of what it really means to be a cop.

Thoreau's Maine Woods , 2010-06-01 Beginning in 1847, Henry David Thoreau made three trips to the mostly unexplored Maine woods. Along the way he recorded his observations on the wildlife (flora and fauna), the weather, terrain, and on the nature of the people he met along the way, including loggers, rivermen, and his Abnaki guides. In Thoreau's Maine Woods, photographer Dan Tobyne captures the essence of the Maine Thoreau discovered and described in his book. The combination of short excerpts with stunning

imagery carries Thoreau's work to a higher level, presenting it in both glowing words and pictures.

The Stair-Step Approach in Mathematics Hayk Sedrakyan, Nairi Sedrakyan, 2018-01-23 This book is intended as a teacher's manual and as an independent-study handbook for students and mathematical competitors. Based on a traditional teaching philosophy and a non-traditional writing approach (the stair-step method), this book consists of new problems with solutions created by the authors. The main idea of this approach is to start from relatively easy problems and "step-by-step" increase the level of difficulty toward effectively maximizing students' learning potential. In addition to providing solutions, a separate table of answers is also given at the end of the book. A broad view of mathematics is covered, well beyond the typical elementary level, by providing more in depth treatment of Geometry and Trigonometry, Number Theory, Algebra, Calculus, and Combinatorics.

Thailand, a Travel Survival Kit Joe Cummings, 1984 Fifth, updated edition of a travel guide first published in 1982 which covers remote hill-tribe villages to ancient cities and magnificent temples. Includes information on trekking, boat trips, national parks and shopping, as well as advice on accommodation, where to eat, etiquette, transport, visa and health requirements. Also contains useful phrases, 121 maps and an index.

Reckoning Tara Beagan, Andy Moro, 2016 Reckoning is a triptych of three short plays: Witness is a dance-movement piece featuring a Truth and Reconciliation

Commissioner who unravels as he confronts the brutal testimony of residential school survivors; in Daughter, the daughter of a teacher who was accused of rape seduces her father's accuser; and Survivor is a solo piece about a man preparing to commit suicide as a protest against the insufficiencies of the reconciliation process. Agonizing, poignant, theatrical, hilarious, and true, Reckoning illuminates the difficulties of trying to come to terms with our country's painful past.
