Kudos Rachel Cusk, 2018-06-05 New York Times 100 Notable Books of 2018 • Amazon Editors' Top 100 of 2018 Rachel Cusk, the award-winning and critically acclaimed author of *Outline* and *Transit*, completes the transcendent literary trilogy with *Kudos*, a novel of unsettling power. A woman writer visits a Europe in flux, where questions of personal and political identity are rising to the surface and the trauma of change is opening up new possibilities of loss and renewal. Within the rituals of literary culture, Faye finds the human story in disarray amid differing attitudes toward the public performance of the creative persona. She begins to identify among the people she meets a tension between truth and representation, a fissure that accrues great dramatic force as *Kudos* reaches a profound and beautiful climax. In this conclusion to her groundbreaking trilogy, Cusk unflinchingly explores the nature of family and art, justice and love, and the ultimate value of suffering. She is without question one of our most important living writers.

**The Mobile Revolution** Dan Steinbock, 2007 In *The Mobile Revolution* senior executives of the world's leading mobile vendors, operators, service providers, software giants, chip kings, media and entertainment conglomerates, publishers, music moguls and brand marketers reveal their secrets and strategies. Nokia, Motorola, Sony Ericsson, Qualcomm, Vodafone, Microsoft, Intel, Yahoo, New York Times, EMI, CNN, ABC, Disney, Warner Music and Universal are just a few of the names that feature. As a result, the book abounds with inside stories of great industry successes (and equally great flops!) as the narrative shifts constantly between the major cities of several continents - from Helsinki and Stockholm, London and Frankfurt, Tokyo and Seoul, Beijing and Singapore, New York City and Los Angeles, to Bangalore and Moscow. *The Mobile Revolution* is about the making of mobile markets and services worldwide, with a firm emphasis on innovation. Not just another account of technology innovation, it examines the rise of mobile services in the context of maturing and emerging mobile markets.

*Plutonium in the Environment* A. Kudo, 2001-02-23 The first volume of the new series, *Radioactivity in the Environment*, focuses on the environmental occurrence, the speciation, the behaviour, the fate, the applications and the health consequences of that much-feared and much-publicised element, plutonium. Featuring a collection of selected, peer-reviewed, up-to-date papers by leading researchers in the field, this work provides a state-of-the-art description of plutonium in the environment. This title helps to explain where present frontiers are drawn in our continuing efforts to understand the science of environmental plutonium and will help to place widespread concerns into perspective. As a whole this new book series on environmental radioactivity addresses, at academic research level, the key aspects of this socially important and complex interdisciplinary subject. Presented objectively and with the ultimate authority gained from the many contributions by the world's leading experts, the negative and positive consequences of having a radioactive world around us will be documented and given perspective.

**Mobile Communications and Public Health** Marko Markov, 2018-06-13 This book represents a comprehensive overview of the distribution of the various forms of mobile communications devices, with increasing variations and intensities that constitute a serious hazard to both the biosphere and

mankind. Contributors stress the lack of controls over mobile communication signal sources, as well as the absence of monitoring the health of individuals exposed to microwave radiation. The work also entails a review of the engineering behind mobile communication technology, including a summary of basic scientific evidence of the effects of biological exposure to microwaves, and unique coverage on potential hazards of mobile communication for children. Marko S. Markov has been professor and chairman of the Department of Biophysics and Radiobiology of Sofi University for 22 years. With over 45 years of basic science research experience, and over 40 years in the clinical application of electromagnetic fields, he is recognized as one of the world's best experts in the subject. His list of publications includes 196 papers and 18 books. Presents an overview of what modern science knows about mobile communications signals Details the latest research on potential hazards related to uncontrolled use of mobile devices Provides information related to children's organisms not developed biologically prior to exposure to microwave signals Offers methods of control of the house and work environment Explores the link between science and electromagnetics hazards.

**100 Under \$100** Betsy Teutsch,2015-03-06 100 Under \$100: One Hundred Tools for Empowering Global Women is a comprehensive look at effective, low-cost solutions for helping women in the Global South out of poverty. Most books on this subject focus on one problem and one solution; author Betsy Teutsch instead spreads her net wide, sharing one hundred successful, proven paths out of poverty in eleven different sectors—including tech, public health, law, finance, and more—in a visually striking book full of images of vibrant, strong women farmers, health practitioners, entrepreneurs, and humanitarian tech stars doing exciting, cutting-edge work. Eye-opening and compelling, 100 Under \$100 is an accessible entry point

for globally-attuned readers excited about using a broad range of tools to empower women and help alleviate poverty in the developing world.

*Building Mobile Apps at Scale* Gergely Orosz, 2021-04-06 While there is a lot of appreciation for backend and distributed systems challenges, there tends to be less empathy for why mobile development is hard when done at scale. This book collects challenges engineers face when building iOS and Android apps at scale, and common ways to tackle these. By scale, we mean having numbers of users in the millions and being built by large engineering teams. For mobile engineers, this book is a blueprint for modern app engineering approaches. For non-mobile engineers and managers, it is a resource with which to build empathy and appreciation for the complexity of world-class mobile engineering. The book covers iOS and Android mobile app challenges on these dimensions: Challenges due to the unique nature of mobile applications compared to the web, and to the backend. App complexity challenges. How do you deal with increasingly complicated navigation patterns? What about non-deterministic event combinations? How do you localize across several languages, and how do you scale your automated and manual tests? Challenges due to large engineering teams. The larger the mobile team, the more challenging it becomes to ensure a consistent architecture. If your company builds multiple apps, how do you balance not rewriting everything from scratch while moving at a fast pace, over waiting on centralized teams? Cross-platform approaches. The tooling to build mobile apps keeps changing. New languages, frameworks, and approaches that all promise to address the pain points of mobile engineering keep appearing. But which approach should you choose? Flutter, React Native, Cordova? Native apps? Reuse business logic written in Kotlin, C#, C++ or other languages? What engineering approaches do world-class mobile engineering teams choose in non-functional aspects like code quality, compliance, privacy, compliance, or with experimentation, performance, or app size?

Research on Selected China's Legal Issues of E-Business Yimeei Guo, 2014-09-12 This book focuses on various problems arising as a result of China's e-business development. These include e-commerce aspects of the internet industry and e-governance aspects of the presiding agencies. E-privacy and online IPR protection will be of particular interest to readers, as these are important international problems that China has been trying its best to deal with for many years. Each paper in this book presents valuable guidelines and suggestions to allow readers to form a sound understanding of China's e-business development.

**Handbook of Research on Cybersecurity Issues and Challenges for Business and FinTech Applications** Saeed, Saqib, Almuhaideb, Abdullah

M.,Kumar, Neeraj,Zaman, Noor,Zikria, Yousaf Bin,2022-10-21 Digital transformation in organizations optimizes the business processes but also brings additional challenges in the form of security threats and vulnerabilities. Cyberattacks incur financial losses for organizations and can affect their reputations. Due to this, cybersecurity has become critical for business enterprises. Extensive technological adoption in businesses and the evolution of FinTech applications require reasonable cybersecurity measures to protect organizations from internal and external security threats. Recent advances in the cybersecurity domain such as zero trust architecture, application of machine learning, and quantum and post-quantum cryptography have colossal potential to secure technological infrastructures. The Handbook of Research on Cybersecurity Issues and Challenges for Business and FinTech Applications discusses theoretical foundations and empirical studies of cybersecurity implications in global digital transformation and considers cybersecurity challenges in diverse business areas. Covering essential topics such as artificial intelligence, social commerce, and data leakage, this reference work is ideal for cybersecurity professionals, business owners, managers, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.

**Kudo Kids: The Mystery of the Masked Medalist** Maia Shibutani,Alex Shibutani,Michelle Schusterman,2021-04-06 From two-time Olympic bronze medalists Maia and Alex Shibutani comes a fun-filled, fast-paced middle-grade mystery set at the 2020 Tokyo Olympics. Andy and Mika are going to Tokyo! The Kudo Kids have never been to Japan before, so they can't believe they get to attend the Summer Olympics there. The siblings plan to eat tons of delicious Japanese food, watch every event they can, and win a super-popular new game called OlympiFan. Developed by a mysterious former medalist, OlympiFan brings players together from all over the world to search Tokyo for virtual medals and clues to the creator's identity. Andy loves puzzles, and he's determined to crack this one, especially since the winning team will get to be beta testers for the Masked Medalist's future games! Mika wants to find as many clues as she can, but she also has a secret goal of her own--one that could get her into big trouble. But when someone sabotages the game, the Kudo Kids have an even bigger mystery to solve than the Masked Medalist's identity. If they want to capture the gold, Mika and Andy have to figure out who's trying to stop their team before someone beats them to the grand prize!
