Key to the Ottoman-Turkish Conversation-grammar V. H. Hagopian,1908

Marshallese-English Dictionary Takaji Abo,Byron W. Bender,Alfred Capelle,Tony DeBrum,1977-05-01 The Marshallese-English Dictionary contains almost 12,000 entries giving information on an estimated 30,000 Marshallese words. Built upon the information collected in earlier dictionaries, its entries are enriched with grammatical information and illustrative sentences. Many words not previously recorded have been added, both older words dealing with the lore of the islands and newer words that reflect the changing circumstances of life today. Following the recommendations made by a committee of Marshallese leaders in 1971, the words in this dictionary are spelled along traditional lines, but spellings have been regularized phonetically by computer. An English Finder List is provided to enable the user to easily locate terms for navigation, currents, weather, food preparation, games, and other important aspects of Marshallese culture. A special section lists more than 4,000 place names in the Marshall Islands. Scientific identifications are given for the names of plants, marine life, animals, and stars and constellations. Created to fill the need for a comprehensive dictionary in programs of bilingual education in the schools of the Marshall Islands, this work will also be of use to anthropologists and linguists specialising in the Pacific.

Environmental Planning and Sustainability Susan Buckingham,1996-06-19 Environmental Planning and Sustainability Edited by Susan Buckingham-Hatfield Brunel University College, London and Bob Evans South Bank University, London Environmental Planning and Sustainability critically assesses the concept of sustainability and the way in which it is used as a basis for environmental planning. The book, which brings together authors from a wide range of professions and academic disciplines, argues that national environmental planning is reactive and ad hoc, and calls for a wider ranging refocusing of environmental planning based on reliable and consistent data collection, equitable public participation and a well debated understanding of sustainability. It also argues that the challenge offered by the United Nations through its Agenda 21 programme and by European policies should result in a re-think, not only about how we plan to achieve environmental sustainability, but also about the contexts in which we should do so. Offering a wide range of perspectives on the notion of sustainability and how we should go about achieving it through environmental planning, this book makes essential reading for students, lecturers and researchers in environmental policy and planning, human geography, policy studies, environmental studies and town planning, and for policy makers and practitioners in the field of environmental planning.

Kisses in the Nederends Epeli Hau'ofa,1995-06-01 In the best Rabelaisian tradition, this brilliant satire weaves a tale of improbabilities around the seat of the last great taboo. Oilei Bomboki wakes one morning with an excruciating pain that sends him anxiously searching for a cure. Unsuccessful treatments at the hands of various healers and doctors, culminating in a bizarre operation, lead the desperate Oilei to seek the help of Babu Vivekanand--sage, yogi, and conman. Through Babu's teachings, Oilei learns to love and respect the source of his own complaint. By turns savage and absurdly comic, this brilliant satire allows Hau'ofa to comment on aspects of life in a small Pacific community perched precariously between traditional and modern ways.

The Death of William Gooch Greg Dening,1995 A penetratating study of the young astronomer on board the Daedalus.

Coral and Concrete Greg Dvorak,2018-11-30 Coral and Concrete, Greg Dvorak's cross-cultural history of Kwajalein Atoll, Marshall Islands, explores intersections of environment, identity, empire, and memory in the largest inhabited coral atoll on earth. Approaching the multiple "atollscapes" of Kwajalein's past and present as Marshallese ancestral land, Japanese colonial outpost, Pacific War battlefield, American weapons-testing base, and an enduring home for many, Dvorak delves into personal narratives and collective mythologies from contradictory vantage points. He navigates the tensions between "little stories" of ordinary human actors and "big stories" of global politics—drawing upon the "little" metaphor of the coral organisms that colonize and build atolls, and the "big" metaphor of the all-encompassing concrete that buries and co-opts the past. Building upon the growing body of literature about militarism and decolonization in Oceania, this book advocates a layered, nuanced approach that emphasizes the multiplicity and contradictions of Pacific Islands histories as an antidote to American hegemony and globalization within and beyond the region. It also brings Japanese, Korean, Okinawan, and American perspectives into conversation with Micronesians' recollections of colonialism and war. This transnational history—built upon a combination of reflective personal narrative, ethnography, cultural studies, and postcolonial studies—thus resituates Kwajalein Atoll as a pivotal site where Islanders have not only thrived for thousands of years, but also mediated between East and West, shaping crucial world events. Based on multi-sited ethnographic and archival research, as well as Dvorak's own experiences growing up between Kwajalein, the United States, and Japan, Coral and Concrete integrates narrative and imagery with semiotic analysis of photographs, maps, films, and music, traversing colonial tropical fantasies, tales of victory and defeat, missile testing, fisheries, war-bereavement rituals, and landowner resistance movements, from the twentieth century through the present day. Representing history as a perennial struggle between coral and concrete, the book offers an Oceanian paradigm for decolonization, resistance, solidarity, and optimism that should appeal to all readers far beyond the Marshall Islands.

Observations on the Yurok Erik H. Erikson,1965

Yurok-Karok Basket Weavers Lila Morris O'Neale,1995 Lila O'Neale's Yurok-Karok Basket Weavers, first published in 1932, remains one of the finest and most comprehensive books devoted to American Indian basketry. In contrast to the typical treatment of tribal arts in her day, which saw them as homogeneous, anonymous, and conservative, O'Neale regarded the weavers as individuals, with personal styles and outlooks and a capacity for innovation. A pioneer in the study of Native American art, she presented the art from the weaver's point of view. In addition to an introduction by O'Neale scholar Margot Schevill, this edition includes an appendix listing the identities and tribal affiliations of O'Neale's 43 consultants.

Underwater Dogs Seth Casteel,2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In Underwater Dogs, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

Melal Robert Barclay,2002-06-30 On Good Friday, 1981, Rujen Keju and his two sons come face to face with their complicated inheritance--one that includes years of atomic testing and the continued military presence of the U.S. in the Pacific. In this highly original work of history and adventure, novelist Robert Barclay weaves together characters and stories from mythological times with those of the present-day to give readers a rare and unsparing look at life in the contemporary Pacific.

Naval Operations Analysis Donald H Wagner,W. Charles Mylander,Thomas J. Sanders,1999-01-31 This third edition covers the basic analytical developments in naval search and detection theory over the last fifty years. Accessible to anyone with a mathematical background, it covers analytical decision-making, simulation techniques, and models used in determining the probability of detection.
