Burma in Revolt Bertil Lintner,1999-05-01 In 1948, Burma was a promising young democracy with a bustling free market economy and a standard of living that surpassed nearly all of its other Asian neighbours. Fifty years later, Burma is one of the poorest nations in the world, with a military dictatorship in Rangoon and 50,000 armed rebels from a myriad of ethnic insurgency groups. In this well documented and detailed account, well-known Burma journalist Bertil Lintner explains the nexus between Burma's booming drug production and its insurgency and counter-insurgency, providing an answer to the question of why Burma has been unable to shake off thirty-five years of military rule and build a modern, democratic society. Lintner's lively account is interspersed with numerous anecdotes gleaned from personal research and interviews. Individuals are given features and personality in the complicated "jigsaw" of Burma's modern history. Beginning with the shock of Aung San's murder in 1947, Lintner retraces events from the 1920s that led to this disastrous event and continues his narrative up to the present, navigating the reader through webs of intrigue involving power, politics and drugs. Key players are the Rangoon government, the ethnic resistance, the Communists, the Kuomintang, and the US government. This revised and updated edition includes five extensive appendixes for serious readers and Burma scholars alike: a list of acronyms, a chronology of events, a who's who of important figures in Burma's insurgency, an annotated list of rebel armies, and biographical sketches of the Thirty Comrades. "Bertil Lintner, one of Burma's (Myanmar's) closest and most incisive observers, has written an important book. It is more than a study of the drug trade and the minority rebellions. It is in a sense a history of Burma since independence. No one concerned with Burma, with Southeast Asia, or with international narcotics affairs can neglect this work". — David I. Steinberg, Georgetown University

Environmental Politics and Deliberative Democracy Karin Bäckstrand, 2010-01-01 This important new book provides an excellent critical evaluation of new modes of governance in environmental and sustainability policy. The multidisciplinary team of contributors combine fresh insights from all levels of governance all around a carefully crafted conceptual framework to advance our understanding of the effectiveness and legitimacy of new types of steering, including networks, public private partnerships, and multi-stakeholder dialogues. This is a crucial contribution to the field. Frank Biermann, VU University Amsterdam, The Netherlands Can new modes of governance, such as public private partnerships, stakeholder consultations and networks, promote effective environmental policy performance as well as increased deliberative and participatory quality? This book argues that in academic inquiry and policy practice there has been a deliberative turn, manifested in a revitalized interest in deliberative democracy coupled with calls for novel forms of public private governance. By linking theory and practice, the contributors critically examine the legitimacy and effectiveness of new modes of governance, using a range of case studies on climate, forestry, water and food safety policies from local to global levels. *Environmental Politics and Deliberative Democracy* will appeal to scholars, both advanced undergraduate and postgraduate, as well as researchers of environmental politics, international relations, environmental studies and political science. It will also interest practitioners involved in the actual design and implementation of new governance modes in areas of sustainable development, food safety, forestry and climate change.

Leading to Choices Mahnaz Afkhami, Ann Eisenberg, Haleh Vaziri, 2002-11-01 This work is based on a conceptualization of leadership as horizontal, inclusive, and participatory. The alternative leadership model responds to the need for leaders who aspire to create egalitarian, democratic societies based on collaborative decision-making and gender equality. Women's groups in Cameroon, Ghana, Liberia, Nigeria, Sierra Leone, Tanzania, Uganda and Zimbabwe are using the manual to help participants hone their skills for women's rights advocacy. A participant from Liberia described how she overcame intimidations from fellow cabinet members, and went on to implement major improvements to the ministry under her purview.

Home Cell Group Explosion Joel Comiskey, 2023-03-08 *Home Cell Group Explosion* (2023 version) is the most researched and practical book ever written on cell group evangelism! Joel Comiskey traversed the globe to find out why certain churches and small groups are successful in reaching the lost. He found the answers and freely shares them within this volume. If you are a pastor or small group leader, you should devour this book! It will encourage you and give you simple, practical steps for dynamic small group life and growth. My friend Joel Comiskey is a combination of a local church practitioner and a painstaking scholar. Joel spent hundreds of hours and thousands of dollars visiting eight of the highest-visibility cell group churches to interview their leaders and record his findings. I love this book because it focuses on the multiplication of cells for the greatest evangelistic results. (C. Peter Wagner, Author, Scholar, and Church Growth Expert) Comiskey does not just describe what is happening in cell churches. He takes the next step and identifies in a step-by-step fashion how we can apply these principles in our churches. It is all here-everything we need to know to start and grow a cell group ministry. I am grateful to Dr. Comiskey, for the time, effort, and research that has gone into producing this long-needed book. (Richard Peace, Ph.D., Professor of Evangelism and Spiritual Formation, Fuller Theological Seminary) Joel and I shared many days in Bogota as this book was written. His grasp of cell church models is superior to any other person I have worked with: this book is a treasure of information for church planters and pastors wishing to transition to the cell model. (Ralph W. Neighbour, Jr., Author, and Pioneer Church Planter)

Drawn from the Ground Jennifer Green,2014-05-08 Sand stories from Central Australia are a traditional form of Aboriginal women's verbal art that incorporates speech, song, sign, gesture and drawing. Small leaves and other objects may be used to represent story characters. This detailed study of Arandic sand stories takes a multimodal approach to the analysis of the stories and shows how the expressive elements used in the stories are orchestrated together. This richly illustrated volume is essential reading for anyone interested in language and communication. It adds to the growing recognition that language encompasses much more than speech alone, and shows how important it is to consider the different semiotic resources a culture brings to its communicative tasks as an integrated whole rather than in isolation.

Relative Clauses in Languages of the Americas Bernard Comrie,Zarina Estrada Fernández,2012 Patterns of relative clause formation tend to vary according to the typological properties of a language. Highly polysynthetic languages tend to have fully nominalized relative clauses and no relative pronouns, while other typologically diverse languages tend to have relative clauses which are similar to main or independent clauses. Languages of the Americas, with their rich genetic diversity, have all been under the influence of European languages, whether Spanish, English or Portuguese, a situation that may be expected to have influenced their grammatical patterns. The present volume focuses on two tasks: The first deals with the discussion of functional principles related to relative clause formation: diachrony and paths of grammaticalization, simplicity vs. complexity, and formalization of rules to capture semantic-syntactic correlations. The second provides a typological overview of relative clauses in nine different languages going from north to south in the Americas.
