Out in the Country Mary L. Gray, 2009-08-01 Winner of the 2009 Ruth Benedict Prize for Outstanding Monograph from the Society of Lesbian and Gay Anthropologists Winner of the 2010 Distinguished Book Award from the American Sociological Association, Sociology of Sexualities Section Winner of the 2010 Congress Inaugural Qualitative Inquiry Book Award Honorable Mention An unprecedented contemporary account of the online and offline lives of rural LGBT youth From Wal-Mart drag parties to renegade Homemaker's Clubs, *Out in the Country* offers an unprecedented contemporary account of the lives of today's rural queer youth. Mary L. Gray maps out the experiences of young people living in small towns across rural Kentucky and along its desolate Appalachian borders, providing a fascinating and often surprising look at the contours of gay life beyond the big city. Gray illustrates that, against a backdrop of an increasingly impoverished and privatized rural America, LGBT youth and their allies visibly—and often vibrantly—work the boundaries of the public spaces available to them, whether in their high schools, public libraries, town hall meetings, churches, or through websites. This important book shows that, in addition to the spaces of Main Street, rural LGBT youth explore and carve out online spaces to fashion their emerging queer identities. Their triumphs and travails defy clear distinctions often drawn between online and offline experiences of identity, fundamentally redefining our understanding of the term 'queer visibility' and its political stakes. Gray combines ethnographic insight with incisive cultural critique, engaging with some of the biggest issues facing both queer studies and media scholarship. *Out in the Country* is a timely and groundbreaking study of sexuality and gender, new media, youth culture, and the meaning of identity and social movements in a digital age.

LGBT Identity and Online New Media Christopher Pullen, Margaret Cooper, 2010-06-04 *LGBT Identity and Online New Media* examines constructions of LGBT identity within new media. The contributors consider the effects, issues, influences, benefits and disadvantages of these new media phenomena with respect to the construction of LGBT identities. A wide range of mainstream and independent new media are analyzed, including MySpace, Facebook, YouTube, gay men's health websites, message boards, and Craigslist ads, among others. This is a pioneering interdisciplinary collection that is essential reading for anyone interested in the intersections of gender, sexuality, and technology.

International Handbook on the Demography of Marriage and the Family D. Nicole Farris, A. J. J. Bourque, 2020-03-31 This handbook provides a global perspective on contemporary demographic theories and studies of marriage and the family. Inside, readers will find a comprehensive analysis that enables demographic comparison between and across international borders. Coverage is centered around four main sections that present a history of marriage and the family, detail relevant data and measurement concerns, examine global marriage practices, analyze interactions of such demographic characteristics as age, sex, and race with marriage and the family, and consider public policy, contemporary trends, and future directions. In addition, the book includes research on current social issues such as alternative family structures, cohabitation, divorce, boomerang children, and adoption. The family is universal but extremely varied in form and function. This handbook provides students, researchers, and policymakers with an all-inclusive, international demographic analysis that fully investigates the diverse nature of the modern family.

Fried & Convicted Fay Jacobs, 2017-03-20 As the author of four humorous memoirs, activist and comedian Fay Jacobs returns with her newest tall tales, *Fried & Convicted*, Rehoboth Beach Uncorked. And, as you'd expect, It's chock-full of Fay's signature witty, wise, and often laugh-out-loud commentary about the craziness of contemporary life in the diverse and welcoming resort town of Rehoboth Beach on the Delaware Coast. This time, though, everyone's favorite "Sit-Down Comic" grapples with the insanity of a high-tech bra, cartoon bladders in prescription advertising, and refusing to act her age . . . *Fried & Convicted* was written over the last few years and culminates with Election Day, 2016. It chronicles the joy of gaining equal marriage rights for same-sex couples, tales of Icelandic lagoons, Provincetown adventures, and much ado about lesbians of a certain age. It tells a few harrowing personal stories, such as Bonnie's unnerving medical diagnosis, the time Fay went kayaking with alligators, and how she came up with a public relations scheme to rescue her pal's purloined pooch. And through it all, she finds a way to make it provocative, political, occasionally heartwarming, and reliably hilarious. Featuring Fay's latest magazine columns plus new, never before published material, *Fried & Convicted* is a pleasure for longtime fans and new readers alike. Come along for the ride—you'll be happy you did! Fay Jacobs spent thirty years in Washington, DC working in journalism and public relations. Her latest project is a one-woman show, *Aging Gracelessly: 50 Shades of Fay*, which is being performed in theatres around the country. She lives in Rehoboth Beach with her wife of thirty-four years and a Miniature Schnauzer.

Conflict and Counterpoint in Lesbian, Gay, and Feminist Studies J. Foertsch, 2007-05-14 Interrogating a broad array of lesbian, gay, and feminist theories, this book considers instances of unnecessarily divisive turf-battling, yet focuses primarily on the productive debates that define and vitalize the field.

The Oxford Handbook of Mobile Communication and Society Rich Ling, Leopoldina Fortunati, Gerard Goggin, Sun Sun Lim, Yuling Li, 2020-04-06 Mobile communication has dramatically changed over the past decade with the diffusion of smartphones. Unlike the basic 2G mobile phones, which merely facilitated communication between individuals on the move, smartphones allow individuals to communicate, to entertain and inform themselves, to transact, to navigate, to take photos, and countless other things. Mobile communication has thus transformed society by allowing new forms of coordination, communication, consumption, social interaction, and access to news/entertainment. All of this is regardless of the space in which users are immersed. Set in the context of the developed and the developing world, *The Oxford Handbook of Mobile Communication and Society* updates current scholarship surrounding mobile media and communication. The 43 chapters in this handbook examine mobile communication and its evolving impact on individuals, institutions, groups, societies, and businesses. Contributors examine the communal benefits, social consequences, theoretical perspectives, organizational potential, and future consequences of mobile communication. Topics covered include, among many other things, trends in the Global South, location-based

services, and the application of mobile communication and society.

Gayellow Pages, 2009

Religion in Today's World Melissa M. Wilcox, 2013-12-19 Religion is a major force in contemporary society. It is also one of the least understood social and political influences on individuals and communities. In this innovative collection of original essays and classic readings, experts explore the significance of contemporary religiosity: as a source of meaning and motivation, how it unites and divides us, and how it is used politically and culturally. Readers will be introduced to the broad debates in ways that will equip them to analyze, discuss, and make their own judgments about religion and society. This book should be read by anyone interested in understanding religion as a central source of meaning and politics, and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective.

Sport and Social Movements Jean Harvey, John Horne, Parissa Safai, Simon Darnell, Sebastien Courchesne-O'Neill, 2013-11-21 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. From neighborhood coalitions organizing against the building of a sport facility for professional sports teams subsidized by public funds, to global campaigns for equity for women in sport, to worldwide bans of apartheid regimes, sites and levels of protest, resistance and activism have been present throughout the history of sport. Contentious forms of collective actions are now ever more present in various forms at the local, the national and the global levels. **Sport and Social Movements: From the Local to the Global** is the first book-length treatment of the way social movements have intersected and continue to intersect with sport. It traces the history of various social movements associated with labour, women, peace, the environment and rights (civil, racial, disability and sexual), and their relationship to sport and sports mega-events such as the Olympic Games. Based on research conducted by a multinational team of authors that draws on theories of social movements and new social movements, the book includes a valuable chronology of social movements, illustrations of key episodes in the development of the relationships between sport and different social movements and an agenda for future research and scholarship. Written in a clear and comprehensive style it is suitable for all levels of higher education, researchers and the general reader who want to know more about the role that sport has played in the development of social movements and campaigns for social justice.

Handbook of Tourism and Quality-of-Life Research Muzaffer Uysal, Richard Perdue, M. Joseph Sirgy, 2012-01-07 Quality of life (QOL) research in tourism has gained much momentum over the last two decades. Academics working in this area research issues related to tourists and host communities. Practitioners are becoming increasingly interested in understanding the science that allows them to develop better marketing and managerial programs designed to enhance the quality of life of tourists. Tourism bureaus and government agencies are increasingly interested in issues of sustainable tourism, specifically in understanding and measuring the impact of tourism on the quality of life of the residents of the host communities. This handbook covers all relevant topics and is divided into two parts: research relating to travelers/tourists, and research relating to the residents of host communities. It is the only state-of-the-art reference book in its field and will prove invaluable to academics interested in QOL research, as well as tourism practitioners interested in applying the science of QOL in the tourism industry.

Network Mobilization Dynamics in Uncertain Times in the Middle East and North Africa Frédéric Volpi, Janine A. Clark, 2020-06-29 This comprehensive volume investigates the dynamics of mobilization and demobilization of social networks before, during, and after episodes of political turbulence in the Middle East region, focusing particularly on the 2011 Arab uprisings. The authors consider important questions regarding agency, strategic action, and institutional outcomes that have significance for social mobilization, social movements, and authoritarian governance. This collection proposes an interactive perspective linking up contentious politics with routine governance through a dynamic articulation of repertoires of contention. The authors use a micro-mobilization perspective to frame the different trajectories of protest networks in times of uncertainty. They place the interactions between grassroots activists, structured organizations, and state actors at the centre of the explanation of change and stability in the recent mobilizations of the region. By starting with descriptions of interactions at the grassroots level, the authors then explain macro level dynamics between networks and other players, including the state. This book was originally published as a special issue of the journal *Social Movement Studies*.

Communicating Prejudice Michael L. Hecht, 1998-04-13 Prejudice pervades our society in many guises, from pejorative remarks to acts of violence. *Communicating Prejudice* explores the many dimensions of prejudice. It presents a new and integrative conceptual model of prejudice, the layered perspective of cultural intolerance, and uses this model to analyze the communication of prejudice in a variety of spheres such as racism, sexism, homophobia, ageism, and classism. Drawing on multidisciplinary perspectives, the first two chapters present the model and theoretical foundation for the book, and subsequent chapters deal with specific foci of prejudice, including personal prejudice and prejudice in relationships, organizations, and the media. Included is a series of personal narratives to illustrate specific types and instances of prejudice. This book will be useful as a supplementary text in upper-level undergraduate and graduate-level courses examining issues of race, gender, and ethnicity.

Global Gay Frederic Martel, 2018-04-27 A panoramic view of gay rights, gay life, and the gay experience around the world. In *Global Gay*, Frédéric Martel visits more than fifty countries and documents a revolution underway around the world: the globalization of LGBT rights. From Saudi Arabia to South Africa, from Amsterdam to Tel Aviv, from Singapore to the United States, activists, culture warriors, and ordinary people are part of a movement. Martel interviews the proprietor of a "gay-friendly" café in Amman, Jordan; a Cuban-American television journalist in Fort Lauderdale, Florida; a South African jurist who worked with Nelson Mandela to enshrine gay rights in the country's constitution; an American lawyer who worked on the campaign for marriage equality; an Egyptian man who fled his country after escaping a raid on a gay club; and many others. He tells us that in China, homosexuality is neither prohibited nor permitted, and that much Chinese gay life takes place on social media; that in Iran, because of the strict separation of the sexes, it seems almost easier to be gay than heterosexual; and that Raul Castro's daughter, a gay rights icon in Cuba, expressed her lingering anti-American sentiments by calling for Pride celebrations in May rather than June. Ten countries maintain the death penalty for homosexuals. "Homophobia is what Arab governments give to Islamists to keep them calm," one activist tells Martel. Martel finds that although the "gay American way of life" has created a global template for gay activism and culture, each country offers distinctly local variations. And around the world, the status of gay rights has become a measure of a

country's democracy and modernity. This English edition, which has been thoroughly revised and updated, has received the French Voices Award for excellence in publication and translation, supported by a grant from the French-American Book Fund.
