Beyond the Divide Tammy Gaber, 2022-02-23 Canada's first mosque, the Al Rashid mosque in Edmonton, was built in 1938. In the years since, as Canada's Muslim population has grown, close to two hundred mosques, Islamic centres, prayer spaces, and jamatkhana have been built across the country. *Beyond the Divide* explores the mosques of Canada in their diversity, beauty, practicality, and versatility. From east to west and to the north, Tammy Gaber visits ninety mosques in more than fifty cities, including Canada's most northern places of worship in Nunavut and the Northwest Territories. For nearly a century Muslims have made mosques in a variety of spaces, from converted shops and vacated churches to large, purpose-built complexes. Drawing on site photographs, architectural drawings, and interviews, Gaber explores the extraordinary diversity in how these spaces have been designed, built, and used – as places not only of worship, but of community gathering, education, charitable work, and civic engagement. Throughout, *Beyond the Divide* provides a groundbreaking analysis of gendered space in Canadian mosques, how these spaces are designed and reinforced, and how these divides shape community experience. The first comprehensive study of mosque history and architecture in Canada, *Beyond the Divide* reveals the mosque to be a dynamic building type that adapts to its context, from its climate and physical environment to the community it serves. Above all, mosque designs depend on the people who gather in them, and what those people strive for their mosques to be.

The Centennial Cure Meaghan Elizabeth Beaton, 2017-01-01 This book examines the intersection of state policy, cultural development, and commemoration during Canada's 1967 centennial celebrations. It explores four initiatives that were undertaken in Nova Scotia to mark this anniversary, and demonstrates one province's response to Lamontagne's appeal to stem Canada's cultural poverty. These initiatives also reflected

those larger social, cultural, economic, and political transformations that took place in postwar Nova Scotia. Further they help us understand the province's experience within the broader context of the development of modern Canadian cultural and social history.--

Tiller's Guide to Indian Country Veronica E. Velarde Tiller, 2005 This comprehensive guide to 562 American Indian tribes includes tribal history and culture and current information on location, tribal government, services and facilities, economic activity, and tribal contact information.

Fire and the Full Moon David Webster, 2010-01-01 Our image of Canada's postwar foreign policy is dominated by the Cold War, while the story of Canada's response to decolonization in the Global South is less well known. This book explores Canadian-Indonesian relations to determine whether Canada's postwar foreign policy was guided by an overarching set of altruistic principles. It shows that Canada remained a loyal member of the Western alliance. Canada wanted developing countries to follow its own non-revolutionary model of decolonization and paid little attention to violations of human rights. Webster's reassessment of Canada's foreign-policy objectives in Indonesia, and of its own national image, will appeal to students of diplomatic history interested in Asia and the developing world.

Dead Tree Media Michael Stamm, 2018-10-16 A deep and timely account of how American newspapers were produced and distributed on paper. Winner of the Best Book in Canadian Business History by the Canadian Business History Association Popular assessments of printed newspapers have become so grim

that some have taken to calling them “dead tree media” as a way of invoking the medium’s imminent demise. There is a literal truth hidden in this dismissive expression: printed newspapers really are material goods made from trees. And, throughout the twentieth century, the overwhelming majority of trees cut down in the service of printing newspapers in the United States came from Canada. In *Dead Tree Media*, Michael Stamm reveals the international history of the commodity chains connecting Canadian trees and US readers. Drawing on newly available corporate documents and research in archives across North America, Stamm offers a sophisticated rethinking of the material history of the printed newspaper. Tracing its industrial production from the forest to the newsstand, he provides an account of the obscure and often hidden labor involved in this manufacturing process by showing how it was driven by not only publishers and journalists but also lumberjacks, paper mill workers, policymakers, chemists, and urban and regional planners. Stamm describes the 1911 shift in tariff policy that gave US publishers duty-free access to Canadian newsprint, providing a tremendous boost to Canadian paper manufacturers and a significant subsidy to American newspaper publishers. He also explains how Canada attracted massive American foreign investment in paper mills around the same time that US publishers were able to gain greater access to Canada’s vast spruce forests. Focusing particularly on the *Chicago Tribune*, Stamm provides a new history of the rise and fall of both the mass circulation printed newspaper and the particular kind of corporation in the newspaper business that had shaped many aspects of the cultural, political, and even physical landscape of North America. For those seeking to understand the travails of the contemporary newspaper business, *Dead Tree Media* is essential reading.

Recasting History Monica MacDonald, 2019-06-15 Since 1952, CBC television has played a unique role as the primary mass media purveyor of Canadian history. Yet until now, there have been no comprehensive accounts of Canadian history on television. Monica MacDonald takes us behind the scenes of the major documentaries and docudramas broadcast on the CBC, including in *Explorations* (1956-64) and the series *Images of Canada* (1972-76), *The National Dream* (1974), *The Valour and the Horror* (1992), and *Canada: A People's History* (2000-02). Drawing on a wide range of sources, MacDonald explores how producers struggled to represent the Canadian past under a range of external and internal pressures. Despite dramatic shifts in the writing of history over this period, she determines that television themes and interpretations largely remained the same. The greater change was in the production and presentation, particularly in the role of professional historians, as journalists emerged not only as the new producers of Canadian history on CBC television, but also as the new content authorities. A critique of public history through the lens of political economy, *Recasting History* reveals the conflicts, compromises, and controversies that have shaped the CBC version of the Canadian past.

Young, 2008 Written by two of Quebec's most respected historians, *A Short History of Quebec* offers a concise yet comprehensive overview of the province from the pre-contact native period to the present-day. John A. Dickinson and Brian Young bring a refreshing perspective to the history of Quebec, focusing on the social and economic development of the region as well as the identity issues of its diverse peoples. This revised fourth edition covers Quebec's recent political history and includes an updated bibliography and chronology and new illustrations. A Canadian classic, *A Short History of Quebec* now takes into account such issues as the 1995 referendum, recent ideological shifts and societal changes, considers Quebec's place in North America in the light of NAFTA, and offers reflections on the Grand Bouchard-Charles Taylor Commission on Accommodation and Cultural Differences in 2008. Give Me Shelter Andrew Burtch, 2012-04-01 How could you and your family survive a nuclear war? From 1945 onwards, the Canadian government developed civil defence plans and encouraged citizens to join local survival corps. By the time of the Cuban Missile Crisis, the civil defence program was widely mocked, and the public was still vastly unprepared for nuclear war. An exposé of the challenges of educating the public on the threat of nuclear annihilation, *Give Me Shelter* provides a well-grounded explanation of why Canada's civil defence strategy ultimately failed. It is essential reading for anyone interested in Canada's Cold War home front.
