

Lake Placid And Saranac Lake Ski Area

Dorothy Whitehill

Lost Ski Areas of the Northern Adirondacks Jeremy K. Davis, 2014-10-14 Some of the northern Adirondacks' most beloved ski areas have sadly not survived the test of time despite the pristine powder found from the High Peaks to the St. Lawrence. Even after hosting the Winter Olympics twice, Lake Placid hides fourteen abandoned ski areas. In the Whiteface area, the once-prosperous resort Paleface, or Bassett Mountain, succumbed after a series of bad winters. Juniper Hills was the biggest little hill in the North Country and welcomed families in the Northern Tier for more than fifteen years. Big Tupper in Tupper Lake and Otis Mountain in Elizabethtown defied the odds and were lovingly restored in recent years. Jeremy Davis of the New England/Northeast Lost Ski Areas Project rediscovers these lost trails and shares beloved memories of the people who skied on them.

Lake Placid Dean S. Stansfield, 2002 On of the best-known areas of the Adirondacks is Lake Placid, a large lake and village located in the northeast corner of the great New York State park. Tourists started coming to Lake Placid in the early 1850s, when the only public accommodations available were a few rooms in a nearby farmhouse. Fifty years later, there were four major hotels and numerous smaller ones open to travelers and vacationers. Tourism had become the mainstay of the village economy. Just after 1900, winter sports gained prominence and, in 1932, the village hosted the third Winter Olympics. From then on, the community was considered to be the winter sports capital of North America. Lake Placid showcases more than two hundred thirty images dating from the mid-1870s to 1940. This fascinating visual history contains stunning views of the lake and the sports for which it is famous, including scenes from the 1932 Olympics.

Also pictured are residents and visitors, streets and buildings, hotels and rustic camps, and the private Lake Placid Club.

North Elba and Whiteface Mountain Dean S.

Stansfield,2003-01-01 For more than a century and a half, the town of North Elba has been one of the most visited places in the Adirondack region. Its proximity to the beautiful High Peaks region and Whiteface Mountain has made it a four-season vacation destination. North Elba and Whiteface Mountain contains more than two hundred rare photographs depicting the mountain, the village of Lake Placid, Mirror and Placid Lakes, Ray Brook, the Cascade Lakes, Pontiac Bay, and Wilmington Notch. Accompanied by detailed narrative, these historical views reveal the people, life, and events of the town from 1875 to 1950, among them Franklin Delano Roosevelt attending the Whiteface Mountain Memorial Highway opening in 1935.

Mountain Resorts Julia LeMense,2016-04-22 Mountains are the home of significant ecological resources - wildlife habitat, higher elevation plant systems, steep slopes, delicate soils and water systems. These resources are subject to very visible and growing pressures, most of which are caused by the unique features of mountains. Using as case studies four mountain resorts in the US and Canada, this book analyzes the extent to

which the law protects the ecological systems of mountains from the adverse impacts associated with the development, operation and expansion of resorts. In order to examine these issues, Mountain Resorts takes an interdisciplinary approach, with contributions from ecologists and lawyers who focus on ski-related activities, increasing four-season use of the mountains and expanding residential, commercial and recreational development at the mountains' base. Its analysis of an array of US and Canadian federal, state and local laws provides a multifaceted exploration of the intersection of ecology and the law at mountain resorts.

Olympic Winter Games, 1980, Lake Placid, North Elba and Wilmington and Vicinity ,1977

Olympic Cities John R. Gold, Margaret M. Gold, 2016-07-11
The first edition of *Olympic Cities*, published in 2007, provided a pioneering overview of the changing relationship between cities and the modern Olympic Games. This substantially revised and enlarged third edition builds on the success of its predecessors. The first of its three parts provides overviews of the urban legacy of the four component Olympic festivals: the Summer Games; Winter Games; Cultural Olympiads; and the Paralympics. The second part comprises systematic surveys of seven key aspects of activity involved in staging the Olympics: finance; place promotion; the creation of Olympic Villages; security; urban regeneration; tourism; and transport. The final part consists of nine chronologically arranged portraits of host cities, from 1936 to 2020, with particular emphasis on the six Summer Olympic and Paralympic Games of the twenty-first century. As controversy over the growing size and expense of the Olympics, with associated issues of accountability and legacy, continues unabated, this book's incisive and timely assessment of the Games' development and the complex agendas that host cities attach to the event will be essential reading for a wide audience. This will include not just urban and sports historians, urban

geographers, event managers and planners, but also anyone with an interest in the staging of mega-events and concerned with building a better understanding of the relationship between cities, sport and culture.

Lake Placid Club on Adirondack Lakes ,1910

The Adirondack Park Barbara McMartin, 1999-06-01 Long considered one of the most respected authorities on the history and geography of the Adirondack region, award-winning author and conservationist Barbara McMartin focuses on the uniqueness of the forty four individual tracts that make up the two-and one-half-million-acre Forest Preserve within the Adirondack Park. In *The Adirondack Park*, McMartin has aptly likened the various wild forests, wilderness, recreation and primitive areas to a patchwork quilt, with landscapes connecting to jagged boundaries following rivers and narrow valleys. Sidebars of views and visits give readers an insider's advantage to making the most of any Adirondack expedition. With a storyteller's ease, McMartin provides a brief history and description of each area. Skillfully combining the results of meticulous research and her life-long passion and advocacy for the Adirondack region, she illuminates the story of how the land parcels were pieced together to become the most sought-after and protected acreage in the east. The book is generously interspersed with maps and vivid geographic descriptions of the forest cover, lakes, mountains, and natural and human history.
