Handbook of Research on Literacy and Diversity Lesley Mandel Morrow,Robert Rueda,Diane Lapp,2010-11-03 This is the first research handbook to address all dimensions of diversity that have an impact on literacy achievement. Leading experts examine how teaching and learning intersect with cultural and language differences and socioeconomic disparities in today's increasingly diverse schools and communities. The volume weaves compelling research findings together with theory, policy considerations, and discussions of exemplary instructional practices. It offers fresh perspectives on such topics as family literacy, multiliteracies, drawing on cultural resources in the classroom, factors that promote success in high-poverty schools, equity issues, and ways to teach specific literacy skills. The concluding section provides crucial recommendations for teacher preparation and professional development.

Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II James Flood,Shirley Brice Heath,Diane Lapp,2015-04-22 The Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II brings together state-of-the-art research and practice on the evolving view of literacy as encompassing not only reading, writing, speaking, and listening, but also the multiple ways through which learners gain access to knowledge and skills. It forefronts as central to literacy education the visual, communicative, and performative arts, and the extent to which all of the technologies that have vastly expanded the meanings and uses of literacy originate and evolve through the skills and interests of the young. **Deconstructing Penguins** Lawrence Goldstone,Nancy Goldstone,2007-12-18

"Books are like puzzles," write Lawrence and Nancy Goldstone. "The author's ideas are hidden, and it is up to all of us to figure them out." In this indispensable reading companion, the Goldstones—noted parent-child book club experts—encourage grownups and young readers alike to adopt an approach that will unlock the magic and power of reading. With the Goldstones help, parents can inspire kids' lifelong love of reading by teaching them how to unlock a book's hidden meaning. Featuring fun and incisive discussions of numerous children's classics, this dynamic guide highlights key elements—theme, setting, character, point of view, climax, and conflict—and paves the way for meaningful conversations between parents and children. "Best of all," the Goldstones note, "you don't need an advanced degree in English literature or forty hours a week of free time to effectively discuss a book with your child. This isn't Crime and Punishment, it's Charlotte's Web."

**Sleep Disorders and Sleep Deprivation** Institute of Medicine,Board on Health Sciences Policy,Committee on Sleep Medicine and Research,2006-10-13 Clinical practice related to sleep problems and sleep disorders has been expanding rapidly in the last few years, but scientific research is not keeping pace. Sleep apnea, insomnia, and restless legs syndrome are three examples of very common disorders for which we have little biological information. This new book cuts across a variety of medical disciplines such as neurology, pulmonology, pediatrics, internal medicine, psychiatry, psychology, otolaryngology, and nursing, as well as other medical practices with an interest in the management of sleep pathology. This area of research is not limited to very young and old patients—sleep disorders reach across all ages and ethnicities. Sleep Disorders and Sleep Deprivation presents a structured analysis that explores the following: Improving awareness among the general public and health care professionals. Increasing investment in interdisciplinary somnology and sleep medicine research training and mentoring activities. Validating and developing new and existing technologies for diagnosis and treatment. This book will be of interest to those looking to learn more about the enormous public health burden of sleep disorders and sleep deprivation and the strikingly limited capacity of the health care enterprise to identify and treat the majority of individuals suffering from sleep problems.
