The Inner Bitch Guide to Men, Relationships, Dating, Etc.
Elizabeth Hilts, 2004-09-01 It's the Bitch in bed! If love is the answer, could you please rephrase the question? --Lily Tomlin No more two-week wonders. No more romantic cul-de-sacs. No more saying Yes when you mean No. Don't even pretend you don't know what I'm talking about. Your Inner Bitch, that integral, powerful part of you, is essential when you're falling in love, and even more essential when you're falling out of love. Looking for romance? Looking for a date? Looking for a relationship? Let your Inner Bitch be your guide. Remember, lust makes you stupid. -- Nicole Hollander

Photography, Vision, and the Production of Modern Bodies Suren Lalvani, 1996-01-01 Lalvani argues that modernity represents the powerful privileging of vision and the introduction of a paradigm of seeing that is historically distinctive. Taking the introduction of photography in the nineteenth century as a crucial development in the expansion of modern vision, he draws on the writings of Alan Sekula, John Tagg, Jonathan Crary, Norman Bryson and Martin Jay to examine in a comprehensive manner how photography functioned to organize a set of relations between knowledge, power, and the body. However, in taking a broad cultural studies approach Lalvani situates the practices of photography within the larger visual order of the nineteenth century. He demonstrates how the new lines of visibility formed not only by photography but by new urban spaces and new modes of transportation resulted in a particular organizing of the social order, of subjectivity and social relations.

Intel Inside New Mexico SouthWest Organizing Project, 1995 INTEL INSIDE documents the growth of the electronics industry in New Mexico & focuses on the growth of computer chip giant Intel Corporation & its largest & most

profitable chip factory near Albuquerque. Attracted to this southwestern desert state by low wages, weak regulatory enforcement, generous public subsidy, & -- amazingly -- cheap water, high-tech companies have left sick workers & contaminated air & water in their wake. INTEL INSIDE tells the story of the siting of Intel's FAB 11 Pentium chip plant in New Mexico & the company's instigation of a bidding war for the new facility between New Mexico & the other states. The book is highly critical of economic development decision making in this era of free trade -- including the inability of local & state governments to look at long term environmental & economic implications of their decisions. A final section of INTEL INSIDE speaks to the need for communities to define for ourselves what development is sustainable, & lists recommendations for governments, communities & the industry. Order from: SouthWest Organizing Project, 211 10th St., SW, Albuquerque, NM 87102, FAX: 505-247-9972.

I Don't Want to Be Big Dev Petty, 2016-10-11 Fans of the hit picture book *I Don't Want to Be a Frog* will love this silly companion featuring a frog that's still as stubborn as ever and his surprisingly patient father. Reminiscent of Mo Willems's 'Elephant and Piggie' series—Publishers Weekly Frog does NOT want to grow up. Doesn't need to be tall. Doesn't want to be able to jump high enough to see the tree frogs. He's just FINE being small. Besides, if you grow up, you don't get to do fun things like jump in mud puddles with your best friend, Pig. Do you? This hilarious story—which uses humor to teach that it's great being exactly who you are—is sure to bring a smile to every kid who just wants to stay a kid, in addition to those who are the smallest in their class. It's a sly and smartly funny tale that will have children

and parents laughing together. And look for all the books in this hilarious series: *I Don't Want to Be a Frog There's Nothing to Do!* *I Don't Want to Go to Sleep*

The Ultimate Guide to Sex After Fifty Joan

Price, 2014-12-22 The population over age 50 is larger than ever in history. According to the U.S. Census Bureau, 32.1 percent of the U.S. population were age 50 and over in 2011. This demographic is also healthier, more aware, more youthful, and more vocal than any previous older generation. Thanks to ongoing medical discoveries, the sexual revolution, and the Internet, today's seniors are also sexier than ever — or at least they're now willing to talk and ask about sex as never before. They are the generation that discovered clitoral orgasms, vibrators, and Viagra, and there's no stopping the thirst for knowledge and pleasure now. Since 2005, Joan Price has penned *Better Than I Ever Expected: Straight Talk About Sex After Sixty* and emerged as the go-to sexpert for the over-50 population. Price's savvy advice, honesty, helpfulness, and humor garnered awareness in the media, in professional circles of therapists and sex educators, and among the huge population of people over 50 who hunger for real information from an age appropriate author. Price tackles it all in this definitive guide to sex and aging: health, fun (and function), disability, dating, illness, orgasms, G-spots, P-spots, polyamory, kink, and much more.

School's Out Catherine Connell, 2014-11-24 How do gay and lesbian teachers negotiate their professional and sexual identities at work, given that these identities are constructed as mutually exclusive, even as mutually opposed? Using interviews and other ethnographic materials from Texas and California, *School's Out* explores how teachers struggle to create a classroom persona that balances who they are and what's expected of them in a climate of pervasive homophobia. Catherine Connell's examination of the tension between the rhetoric of gay pride and the professional ethic of discretion insightfully connects and

considers complicating factors, from local law and politics to gender privilege. She also describes how racialized discourses of homophobia thwart challenges to sexual injustices in schools. Written with ethnographic verve, *School's Out* is essential reading for specialists and students of queer studies, gender studies, and educational politics.

Letters at 3am Michael Ventura, 1993 I'd rather have one or two of his whiplashing essays in my hands than almost any tome of philosophy. -- Thomas Moore

Clarence Darrow John A. Farrell, 2012-05-01 Winner of the Los Angeles Times Book Prize for Biography The definitive biography of Clarence Darrow, the brilliant, idiosyncratic lawyer who defended John Scopes in the "Monkey Trial" and gave voice to the populist masses at the turn of the twentieth century, thus changing American law forever. Amidst the tumult of the

industrial age and the progressive era, Clarence Darrow became America's greatest defense attorney, successfully championing poor workers, blacks, and social and political outcasts, against big business, fundamentalist religion, Jim Crow, and the US government. His courtroom style—a mixture of passion, improvisation, charm, and tactical genius—won miraculous reprieves for men doomed to hang. In Farrell's hands, Darrow is a Byronic figure, a renegade whose commitment to liberty led him to heroic courtroom battles and legal trickery alike.

Two Rooms Lee Blessing, 1990 THE STORY: The two rooms of the title are a windowless cubicle in Beirut where an American hostage is being held by Arab terrorists and a room in his home in the United States, which his wife has stripped of furniture so that, at least symbolically, she c

Long, Last, Happy Barry Hannah, 2010-12-01 A definitive, career-spanning, best-of tribute to a master of the modern American short story, featuring work from his final unpublished collection. A fitting summation of one of America's greatest short story masters, this towering tribute features stories from *Airships*, *Captain Maximus*, *Bats Out of Hell*, *High Lonesome*, and *Barry Hannah's* final unfinished collection, *Long, Last, Happy*. The astonishingly varied stories in this collection span nearly five decades of unrelenting brilliance. Praised for writing "the most consistently interesting sentences of any writer in America" (Sven Birkerts), Hannah's ferocious, glittering prose and sui generis worldview introduced readers to a literary New South—a fictional landscape that encompasses "women, God, lust, race, nature, gay Confederates, good old boys, bad old boys, guns, animals, fishing, fighting, cars, pestilence, surrealism, gritty realism, the future, and the past . . . tossed together in glorious juxtapositions" (*Vanity Fair*). *Long, Last, Happy* confirms Barry Hannah as one of our most brilliant voices. "Hannah is the Jimi Hendrix of American short fiction; an electrifying Mark Twain—a wailing genius of literary twang, reverb, feedback, and general sonic unholiness

that results in grace notes so piercing your heart melts like an overloaded amp.” —Interview

The Great Movies III Roger Ebert, 2010-10-15 Roger Ebert has been writing film reviews for the Chicago Sun-Times for over four decades now and his biweekly essays on great movies have been appearing there since 1996. As Ebert noted in the introduction to the first collection of those pieces, “They are not the greatest films of all time, because all lists of great movies are a foolish attempt to codify works which must stand alone. But it’s fair to say: If you want to take a tour of the landmarks of the first century of cinema, start here. Enter *The Great Movies III*, Ebert’s third collection of essays on the crème de la crème of the silver screen, each one a model of critical appreciation and a blend of love and analysis that will send readers back to the films with a fresh set of eyes and renewed enthusiasm—or maybe even lead to a first-time viewing. From *The Godfather: Part II* to *Groundhog Day*, from *The Last Picture Show* to *Last Tango in Paris*, the hundred pieces gathered here display a welcome balance between the familiar and the esoteric, spanning Hollywood blockbusters and hidden gems, independent works and foreign language films alike. Each essay draws on Ebert’s vast knowledge of the cinema, its fascinating history, and its breadth of techniques, introducing newcomers to some of the most exceptional movies ever made, while revealing new insights to connoisseurs as well. Named the most powerful pundit in America by *Forbes* magazine, and a winner of the Pulitzer Prize, Roger Ebert is inarguably the most prominent and influential authority on the cinema today. *The Great Movies III* is sure to please his many fans and further enhance his reputation as America’s most respected—and trusted—film critic.

A Very Irregular Head Rob Chapman, 2010-10-26 “I don’t think I’m easy to talk about. I’ve got a very irregular head. And I’m not anything that you think I am anyway.”—Syd Barrett’s last interview, *Rolling Stone*, 1971 Roger Keith “Syd” Barrett

(1946–2006) was, by all accounts, the very definition of a golden boy. Blessed with good looks and a natural aptitude for painting and music, he was a charismatic, elfin child beloved by all, who fast became a teenage leader in Cambridge, England, where a burgeoning bohemian scene was flourishing in the early 1960s. Along with three friends and collaborators—Roger Waters, Richard Wright, and Nick Mason—he formed what would soon become Pink Floyd, and rock ‘n’ roll was never the same. Starting as a typical British cover band aping approximations of American rhythm ‘n’ blues, they soon pioneered an entirely new sound, and British psychedelic rock was born. With early, trippy, Barrett-penned pop hits such as “Arnold Layne” (about a clothesline-thieving cross-dresser) and “See Emily Play” (written specifically for the epochal “Games For May” concert), Pink Floyd, with Syd Barrett as their main creative visionary, captured the zeitgeist of “Swinging” London in all its Technicolor glory. But there was a dark side to all this new-found freedom. Barrett, like so many around him, began ingesting large quantities of a revolutionary new drug, LSD, and his already-fragile mental state—coupled with a personality inherently unsuited to the life of a pop star—began to unravel. The once bright-eyed lad was quickly replaced, seemingly overnight, by a glowering, sinister, dead-eyed shadow of his former self, given to erratic, highly eccentric, reclusive, and sometimes violent behavior. Inevitably sacked from the band, Barrett retreated from London to his mother’s house in Cambridge, where he would remain until his death, only rarely seen or heard, further fueling the mystery. In the meantime, Pink Floyd emerged from the underground to become one of the biggest international rock bands of all time, releasing multi-platinum albums, many that dealt thematically with the loss of their friend Syd Barrett: *The Dark Side of the Moon*, *Wish You Were Here*, and *The Wall* are all, on many levels, about him. In *A Very Irregular Head*, journalist Rob Chapman lifts the veil of secrecy that has surrounded the legend of Syd Barrett for nearly

four decades, drawing on exclusive access to family, friends, archives, journals, letters, and artwork to create the definitive portrait of a brilliant and tragic artist. Besides capturing all the promise of Barrett's youthful years, Chapman challenges the oft-held notion that Barrett was a hopelessly lost recluse in his later years, and creates a portrait of a true British eccentric who is rightfully placed within a rich literary lineage that stretches through Kenneth Graham, Hilaire Belloc, Edward Lear, Lewis Carroll, John Lennon, David Bowie, and on up to the pioneers of Britpop. A tragic, affectionate, and compelling portrait of a singular artist, *A Very Irregular Head* will stand as the authoritative word on this very English genius for years to come.

Important Message Louisia Richard, 2021-08-08 Written by an independent artist who is interested in encouraging independence and love within the self. This book discourages manipulation and focuses on finding and hoping that others find the confidence to be in love. A collection of poems about love and happiness.
