Curious Video Game Machines Lewis Packwood,2023-11-30 The story of video games is often told as the successive rise of computers and consoles from famous names like Atari, Commodore, Nintendo, Sega, Sony and Microsoft. But beyond this familiar tale, there's a whole world of weird and wonderful gaming machines that seldom get talked about. Curious Video Game Machines reveals the fascinating stories behind a bevy of rare and unusual consoles, computers and coin-ops – like Kimtanktics, a 1970s wargame computer made out of calculator parts, or the suite of Korea-exclusive consoles made by car manufacturer Daewoo. Then there's the Casio Loopy, a 1990s console that doubled up as a sticker printer, the RDI Halcyon, a 1985 LaserDisc-based machine that could recognize your voice, and the Interton VC 4000, a German console made by a hearing-aid company, as well as a range of bizarre arcade machines, from early attempts at virtual reality to pedal-powered flying contraptions. There are tales of missed opportunities, like the astonishingly powerful Enterprise 64 computer, which got caught in development hell and arrived too late to make an impact on the British microcomputer market. And there are tales of little-known triumphs, like the Galaksija DIY computer kit that introduced a whole generation of Yugoslavians to computing before the country became engulfed by war. Featuring exclusive interviews with creators, developers and collectors, Curious Video Game Machines finally shines a light on the forgotten corners of video-game history.

Floored! Russell J. Kendzior,2017-09-18 When watching the evening news you can be led to believe that most slip and fall claims are bogus and nothing more than a scam designed to fleece business owners and the insurance industry for money. But not all Plaintiffs are scam artists, and not all victims are seeking to cash in on their injury. Falls can affect each of us. The next victim could be your mother, your brother, your spouse or child...and oh yes, even you! The truth of the matter is, each year millions of personal injury lawsuits are filed by victims of a slip, trip and fall accidents, most of which are settled out of court. However, over the past decade there has been a noticeable rise in the average settlement as well as jury verdicts. As an expert witness, Russell J. Kendzior has been retained in more than 700 slip, trip, and fall lawsuits and has now compiled over 50 of his top cases in **Floored!** Rather than debate the truth behind slip, trip and fall litigation Kendzior sets the record straight and provides the reader with a behind the curtain view of the people filing these lawsuits and the companies being sued. This book is a great resource that explains what can be done to prevent the injury and thus the lawsuit through the eyes of a safety expert and stories of real-world victims.
