Breaking News Alan Rusbridger,2018-11-27 An urgent account of the revolution that has upended the news business, written by one of the most accomplished journalists of our time Technology has radically altered the news landscape. Once-powerful newspapers have lost their clout or been purchased by owners with particular agendas. Algorithms select which stories we see. The Internet allows consequential revelations, closely guarded secrets, and dangerous misinformation to spread at the speed of a click. In *Breaking News*, Alan Rusbridger demonstrates how these decisive shifts have occurred, and what they mean for the future of democracy. In the twenty years he spent editing *The Guardian*, Rusbridger managed the transformation of the progressive British daily into the most visited serious English-language newspaper site in the world. He oversaw an extraordinary run of world-shaking scoops, including the exposure of phone hacking by London tabloids, the Wikileaks release of U.S.diplomatic cables, and later the revelation of Edward Snowden's National Security Agency files. At the same time, Rusbridger helped *The Guardian* become a pioneer in Internet journalism, stressing free access and robust interactions with readers. Here, Rusbridger vividly observes the media's transformation from close range while also offering a vital assessment of the risks and rewards of practicing journalism in a high-impact, high-stress time.

Reappraising Local and Community News in the UK David Harte,Rachel Matthews,2021-09-13 Drawing on expert contributions from around the UK, this collection brings together a series of insights into the contemporary local and community news media landscape in the UK. Offering an analysis of the ongoing 'crisis' in the provision of local news, exacerbated by the COVID-19 pandemic, the book provides a critical space for practitioners and scholars to reflect on emerging models for economically sustainable, participatory local news services. It showcases new scholarly analyses of local news provision and community news practices, giving voice to the experiences of practitioners from across the local news ecology. In a set of diverse contributing chapters, campaigners and practitioners map out the period of recent rapid change for local news, questioning contemporary government initiatives and highlighting the advent of diverse, entrepreneurial reactions to the spaces created by a decline in local mainstream news services. This book is a timely examination of what we can learn from the variety of approaches being taken across the local media landscape in the commercial, subsidised and non-profit sector, shining new light on how practices that place the engagement of citizens at their centre might be propagated within this policy and funding landscape. *Reappraising Local and Community News in the UK* is a valuable resource for students and scholars interested in local news and journalism, as well as for anyone interested in the evolving local media landscape in the UK.

False Alarm Bjorn Lomborg,2020-07-14 The New York Times-bestselling skeptical environmentalist argues that panic over climate change is causing more harm than good Hurricanes batter our coasts. Wildfires rage across the American West. Glaciers collapse in the Arctic. Politicians, activists, and the media espouse a common message: climate change is destroying the planet, and we must take drastic action immediately to stop it. Children panic about their future, and adults wonder if it is even ethical to bring new life into the world. Enough, argues bestselling author Bjorn Lomborg. Climate change is real, but it's not the apocalyptic threat that we've been told it is. Projections of Earth's imminent demise are based on bad science and even worse economics. In panic, world leaders have committed to wildly expensive but largely ineffective policies that hamper growth and crowd out more pressing investments in human capital, from immunization to education. *False Alarm* will convince you that everything you think about climate change is wrong -- and points the way toward making the world a vastly better, if slightly warmer, place for us all.

Breaking News Jeremy Thompson,2017-11-14 Until his retirement at the end of 2016, Jeremy Thompson was one of the longest-serving journalists and news anchors in the UK. During a forty-year career in television news, Thompson gained a reputation as the consummate broadcaster, latterly as the anchor of Sky News' early evening programme, though as frequently broadcasting on location from the heart of the story. Thompson worked for all the major news broadcasters in the UK: the BBC, ITV and finally Sky, where he started as a foreign correspondent in 1993. He covered many of the most important news events of our time and reported from all over the world, picking up countless awards for his work. The first TV journalist to broadcast live as British peacekeeping forces arrived in Kosovo, he also covered the first Gulf War and, in 2003, anchored Sky News' coverage of the second Gulf War from Iraq. There he presented every night for a month on the front line and was the first anchor to present from inside Baghdad. He was also in South Africa to cover the death of Nelson Mandela and the murder trial of Oscar Pistorius. This extraordinary book tells the life story of one of the nation's most popular broadcasters.

"I'm Not Gonna Die in This Damn Place" Juan David Coronado,2018-03-01 By the time of the Vietnam War era, the "Mexican American Generation" had made tremendous progress both socially and politically. However, the number of Mexican Americans in comparison to the number of white prisoners of war (POWs) illustrated the significant discrimination and inequality the Chicano population faced in both military and civilian landscapes. Chicanos were disproportionately "grunts" (infantry), who were more likely to be killed when captured, while pilots and officers were more likely to be

both white and held as POWs for negotiating purposes. A fascinating look at the Vietnam War era from a Chicano perspective, “I’m Not Gonna Die in this Damn Place”: Manliness, Identity, and Survival of the Mexican American Vietnam Prisoners of War gives voice to the Mexican American POWs. The stories of these men and their families provide insights to the Chicano Vietnam War experience, while also adding tremendously to the American POW story. This book is an important read for academics and military enthusiasts alike.

A vibrant, neon chronicle with plenty of attitude ... A triumph of imagination and spirit.” —Los Angeles Times “What happens when a shoe-crazy, lipstick-obsessed, wine-swilling, pasta-slurping, fashion-fanatic, about-to-get-married big-city girl cartoonist with a fabulous life finds ... a lump in her breast?” That’s the question that sets this powerful, funny, and poignant graphic memoir in motion. In vivid color and with a taboo-breaking sense of humor, Marisa Acocella Marchetto tells the story of her eleven-month, ultimately triumphant bout with breast cancer—from diagnosis to cure, and every challenging step in between.

Stop Reading the News Rolf Dobelli, 2021-01-07 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling *The Art of Thinking Clearly*, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.
