Dan Slater

A Million First Dates Dan Slater, 2014-01-28 ** Previously published in hardcover as *Love in the Time of Algorithms* ** Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what's possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us?

Latina Teachers Glenda M. Flores, 2017-06-13 Winner, 2018 Outstanding Contribution to Scholarship Book Award presented by the American Sociological Association's Section on Race, Class, and Gender Honorable Mention, 2018 Distinguished Contribution to Research Book Award presented by the American Sociological Association's Latina/o Sociology Section How Latina teachers are making careers and helping students stay in touch with their roots. Latina women make up the fastest growing non-white group entering the teaching profession at a time when it is estimated that 20% of all students nationwide now identify as Latina/o. Through ethnographic and participant observation in two underperforming majority-minority schools in Los Angeles, as well as interviews with teachers, parents and staff, *Latina Teachers* examines the complexities stemming from a growing workforce of Latina teachers. The teachers profiled use Latino cultural resources and serve as agents of ethnic mobility. They actively teach their students how to navigate American race and class structures while retaining their cultural roots, necessary tactics in an American education system that has not fully caught up with the nation's demographic changes. Flores also explores the challenges faced by Latina teachers, including language barriers and cultural acclimation, and professional inequalities that continue to affect women of color at work. An unprecedented look at an understudied population, *Latina Teachers* presents an important picture of the women who are increasingly shaping the way America's children are educated.

New York Magazine, 1991-12-23 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Latina/o Pathway to the Ph.D. Jeanett Castellanos, Alberta M. Gloria, Mark Kamimura, 2023-07-03 The Latina/o population constitutes the largest racial and ethnic minority group in the U.S. and is disproportionately under-represented in college and in graduate programs. This is the first book specifically to engage with the absence of Latinas/os in doctoral studies. It proposes educational and administrative strategies to open up the pipeline, and institutional practices to ensure access, support, models and training for Latinas/os aspiring to the Ph.D. The under-education of Latina/o youth begins early. Given that by twelfth grade half will stop out or be pushed out of high school, and only seven percent will complete a college degree, it is not surprising so few enter graduate studies. When Latina/o students do enter higher education, few attend those colleges or universities that are gateways to graduate degrees. Regardless of the type of higher education institution they attend, Latinas/os often encounter social and academic isolation,

unaffordable costs, and lack of support. This historic under-representation has created a vicious cycle of limited social and economic mobility. There is a paucity of the Latina/o faculty and leaders whom research shows are essential for changing campus climate and influencing institutions to adapt to the needs of a changing student body. As a result, Latina/o graduate students often have few role models, advocates or mentors, and limited support for their research agendas. By reviewing the pipeline from kindergarten through university, this book provides the needed data and insights to effect change for policy makers, administrators, faculty, and staff; and material for reflection for aspiring Latina/o Ph.D.s on the paths they have taken and the road ahead. The book then addresses the unique experiences and challenges faced by Latina/os in doctoral programs, and offers guidance for students and those responsible for them. Chapters cover issues of gender and generational differences, the role of culture in the graduate school, mentorship, pursuing research, and professional development opportunities for Latina/os. The book closes with the voices of by Latina/o students who are currently pursuing or recently completed their doctoral degree. These narratives describe their cultural and educational journeys, providing insight into their personal and professional experiences. These stories bring alive the graduate experience for anyone interested in successful recruitment, retention, and graduation of Latina/o doctoral students – an inspiration and guidance to those aspiring to the doctorate.

SAGE Readings for Introductory Sociology Kimberly McGann, 2021-03-25 This brief anthology for introductory sociology is a collection of 24 short readings that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The selections represent four theoretical traditions in sociology (functionalism, symbolic interaction, conflict theory, feminism) and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some original scholarship in their first sociology course, but who do not want to adopt a comprehensive reader along with the core text they are using.

The Architecture of Desire Solangel Maldonado, 2024-05-21 Explores the reach of the law into our most personal and private romantic lives The Architecture of Desire examines how the law influences our most personal and private choices—who we desire and choose as intimate partners—and explores the psychological, economic, and social effects of these choices. Romantic preferences, as shaped by law, perpetuate segregation and subordination by limiting, on the basis of race, individuals' prospects for marriage and marriage-like commitments, as well as economic and social mobility. The book begins by tracing the legacy of slavery, anti-miscegenation, segregation, and racially discriminatory immigration laws to show how this legal landscape facilitated the residential, economic, and social distance between racial and ethnic groups, which in turn continue to shape romantic preferences today. Solangel Maldonado argues that the law further influences intimate choices by structuring the spaces within which individuals meet and interact via practices such as redlining, gentrification, and zoning. Maldonado includes studies of online and offline dating preferences to demonstrate that romantic predilections follow a gendered racial hierarchy in which Whites are at the top, African-Americans at the bottom, and—depending on skin tone—Asian-Americans and Latinos in the middle. These preferences may be explicit, implicit, or both, but they are usually the result of stereotypes reflected in social and cultural norms. Furthermore, since marriage confers substantial legal, economic, and social advantages, sexual racism further limits an individual's opportunity to find a partner and reap these benefits. Finally, the book proposes ways to minimize the law's influence over who we desire, love, and bring into our families, such as changes to dating platforms as well as to housing, education, and transportation policies.

Latinas in the Criminal Justice System Vera Lopez, Lisa Pasko, 2021-09-14 How Latina girls and women

become entangled in the criminal justice system. Despite representing roughly 16 percent of incarcerated women, Latina women and girls are often rendered invisible in accounts of American crime and punishment. In *Latinas in the Criminal Justice System*, Vera Lopez and Lisa Pasko bring together a group of distinguished scholars to provide a more complete, nuanced picture of Latinas as victims, offenders, and targets of deportation. Featuring Cecilia Menjívar, Lisa M. Martinez, Alice Cepeda, and others, this volume examines the complex histories, backgrounds, and struggles of Latinas in the criminal justice system. Contributors show us how Latinas encounter a variety of justice systems, including juvenile detention, adult court and corrections, and immigration and customs enforcement. Topics include Latina victims of crime and their perceptions of police officers; the impact of the US “crimmigration” system on undocumented Latina women; and help-seeking among Latina victims of intimate partner violence. Additionally, key chapters highlight the emergence of legal reforms, community mobilization efforts, and gender-sensitive alternatives to incarceration designed to increase equitable outcomes. Lopez and Pasko broaden our understanding of how gender, ethnicity, and legal status uniquely shape the experiences of system-impacted Latina girls and women. *Latinas in the Criminal Justice System* is a timely and much-needed resource for academics, activists, and policymakers.

Latina/o Sexualities Marysol Asencio, 2010 Latina/os are currently the largest minority population in the United States. They are also one of the fastest growing. Yet, we have very limited research and understanding of their sexualities. Instead, stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context. Gathering the latest empirical work in the social and behavioral sciences, this reader offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities. Situated at the juncture of Latina/o studies and sexualities studies, *Latina/o Sexualities* provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective. Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models. This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable.

Latina Girls Jill Denner, Bianca Guzman, 2006-06 The existing research has focused on stereotypical perceptions of Latinas as frequently dropping out of school, becoming teen mothers, or being involved with boyfriends in gangs. *Latina Girls* brings together cutting edge research that challenges these stereotypes.

Art in the Pre-Hispanic Southwest Radosław Palonka, 2022-07-07 In *Art in the Pre-Hispanic Southwest: An Archaeology of Native American Cultures*, Radosław Palonka reconstructs the development of pre-Hispanic Native American cultures and tribes in the American Southwest and Mexican Northwest. Palonka also examines the wider context through the lenses of settlement studies and social transformation, while paying close attention to the material manifestations of pre-Hispanic beliefs, including intricately decorated ceramics and rock art iconography in paintings and petroglyphs.

The New Latina's Bible Sandra Guzmán, 2011-05-03 For nearly a decade, *The Latina's Bible* has been the go-to guide for Latinas everywhere. In this updated and expanded edition, author Sandra Guzman

continues to use her trademark warmth, humor, and wisdom to explore a wide range of topics, from dating and sexuality to family and career. The New Latina's Bible charts new territory, adding chapters that cover important issues such as sexual abuse, domestic and dating violence, interracial love, and gender identity. Guzman once again provides a hip, empowering, highly readable guide for women who are facing the trials and joys of living and loving as twenty-first century Latinas.

The Dating Divide Celeste Vaughan Curington, Jennifer Hickey Lundquist, Ken-Hou Lin, 2021-02-09
The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at digital-sexual racism, a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the real world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

The Latino Male David T. Abalos, 2002 Abalos (religious studies and sociology, Seton Hall U.) presents a critique of archetypal roles of Latino males including the womanizer, the macho, and the patriarch. As an alternative to these outdated and restrictive ways of living, Abalos describes how Latino males are able to radically redefine themselves and create new transformational archetypes. He goes on to discuss how Latino men can become agents of transformation in the family and the larger world. c. Book News Inc.
