The Launch Pad Randall Stross, 2013-09-24 A behind-the-scenes look at how tomorrow's hottest startups are being primed for greatness Investment firm Y Combinator is the most sought-after home for startups in Silicon Valley. Twice a year, it funds dozens of just-founded startups and provides three months of guidance from Paul Graham, YC's impresario, and his partners. Receiving an offer from YC creates the opportunity of a lifetime. Acclaimed journalist Randall Stross was granted unprecedented access to Y Combinator, enabling a unique inside tour of the world of software startups. Over the course of a summer, we watch as a group of founders scramble to make something people want. This is the definitive story of a seismic shift in the business world, in which coding skill trumps experience, undergraduates confidently take on Goliaths, and investors fall in love.

The People Equation Deborah Perry Piscione, David Crawley PhD, 2017-04-03 Teaching leaders how to focus on people development rather than product development, this book provides you with a formula for exponentially increasing out-of-the-box thinking in your organization and multiplying your chances for greater growth and success. --

Securing U.S. Innovation Darren E. Tromblay, Robert G. Spelbrink, 2016-09-08 Historical and recent examples illustrate the threats to innovation, the various approaches to mitigating them, and how the evolution of the innovative process now requires rethinking how the United States can benefit from and preserve its cutting edge human capital.

How Healthcare Data Privacy Is Almost Dead ... and What Can Be Done to Revive It! John J. Trinckes, Jr., 2017-01-27 The healthcare industry is under privacy attack. The book discusses the issues from the healthcare organization and individual perspectives. Someone hacking into a medical device and changing it is life-threatening. Personal information is available on the black market. And there are increased medical costs, erroneous medical record data that could lead to wrong diagnoses, insurance companies or the government data-mining healthcare information to formulate a medical 'FICO' score that could lead to increased insurance costs or restrictions of insurance. Experts discuss these issues and provide solutions and recommendations so that we can change course before a Healthcare Armageddon occurs.

Whose America? Maria Cristina Garcia, Maddalena Marinari, 2023-07-18 A centerpiece of contemporary politics, draconian immigration policies have been long in the making. Maria Cristina Garcia and Maddalena Marinari edit works that examine the post-1980 response of legislation and policy to issues like undocumented immigration, economic shifts, national security, and human rights. Contributors engage with a wide range of ideas, including the effect of the Illegal Immigration Reform and Immigrant Responsibility Act and other laws on the flow of migrants and forms of entry; the impact of neoliberalism and post-Cold War political realignment; the complexities of policing and border enforcement; and the experiences of immigrant groups in communities across the United States. Up-to-date yet rooted in history, *Whose America?* provides a sophisticated account of recent immigration policy while mapping the ideological struggle to answer an essential question: which people have the right to make America their home or refuge? Contributors: Leisy Abrego, Carl Bon Tempo, Julio Capó, Jr., Carly Goodman, Julia Rose Kraut, Monique Laney, Carl Lindskoog, Yael Schacher, and Elliott Young

Launching While Female Susanne Althoff, 2020-10-27 An exposé of the gender gap in entrepreneurship and a road map for a more inclusive and economically successful future for us all Journalist and professor Susanne Althoff investigates the obstacles women and nonbinary entrepreneurs—especially those of color—face when launching, funding, and growing their companies, obstacles that persist because the current start-up world was engineered by and for white men. Through interviews with over a hundred founders across the country and in all industries, Althoff paints a picture of an entrepreneurial system rife with bias and discrimination, where women receive less than 3 percent of this country's venture capital, struggle to find mentors in the wake of #MeToo, and are dismissed as "mompreneurs." The effects of this unequal system—a weaker economy, fewer jobs, less innovation—are felt by all of us, and Althoff explains how more equitable structures in business and entrepreneurship will benefit all people, not just those hoping to fund a startup. By exploring some of the practical ways we can open the entrepreneurial system to everyone, Althoff provides a rallying cry and a way forward for women entrepreneurs and their allies, showing that change is urgent and within our reach.

The Crisis of the Twenty-First Century Russell Foster, 2017-07-05 Empire is one of the oldest forms of political organisation and has dominated societies in all parts of the world. Yet, despite the emergence of nation-states in the eighteenth and nineteenth centuries, and the apparent end of empire with the breakup of European colonial regimes and the Soviet Union in the twentieth century, empire remains powerful in the modern world. The EU's accession policies, the United States War on Terror, China's economic developments in Africa, among others, draw accusations of imperial agendas. Empire is no stranger to crisis but, in recent years, the effects of global austerity have forced states, both powerful and weak, to adapt, with varying degrees of success and failure. The confusions, contradictions, and contestations which emerge from imperial crisis point to a vital question how is Austerity changing Empire and how will this shape tomorrow's world? This book was published as a special issue of Global Discourse.

Silicon Valley Bank Xuan-Thao Nguyen, 2024-02-15 Describes the founding and ascent of Silicon Valley Bank to challenge the conventional understanding of risky tech lending.

Launching Into Cyberspace Marcus F. Franda, 2002 Franda (government and politics, U. of Maryland) examines the extent to which Internet development has taken place in Africa, the Middle East, Asia, Eurasia, and Central and Eastern Europe. His focus is on the impact of the Internet on international relations. He discusses in detail the different ways each region has reacted to the spread of the global Internet and the consequences of these reactions for international relationships. c. Book News Inc.

Industrial Internet of Things Sabina Jeschke, Christian Brecher, Houbing Song, Danda B. Rawat, 2016-10-12 This book develops the core system science needed to enable the development of a complex industrial internet of things/manufacturing cyber-physical systems (IIoT/M-CPS). Gathering contributions from leading experts in the field with years of experience in advancing manufacturing, it fosters a research community committed to advancing research and education in IIoT/M-CPS and to translating applicable science and technology into engineering practice. Presenting the current state of IIoT and the concept of cybermanufacturing, this book is at the

nexus of research advances from the engineering and computer and information science domains. Readers will acquire the core system science needed to transform to cybermanufacturing that spans the full spectrum from ideation to physical realization.

Handbook of Research on the Efficacy of Training Programs and Systems in Medical Education Gotian, Ruth,Kang, Yoon,Safdieh, Joseph,2019-12-27 The content of medical education knowledge transfer is compounded as medical breakthroughs constantly impact treatment, and new diseases are discovered at an increasingly rapid pace. While much of the knowledge transfer remains unchanged throughout the generations, there are unique hallmarks to this generation's education, ranging from the impact of technology on learning formats to the use of standardized patients and virtual reality in the classroom. The Handbook of Research on the Efficacy of Training Programs and Systems in Medical Education is an essential reference source that focuses on key considerations in medical curriculum and content delivery and features new methods of knowledge and skill transfer. Featuring research on topics such as the generational workforce, medical accreditation, and professional development, this book is ideally designed for teachers, physicians, learning practitioners, IT consultants, higher education faculty, instructional designers, school administrators, researchers, academicians, and medical students seeking coverage on major and high-profile issues in medical education.

9-11-11: The Tenth Anniversary Attack ,

Cultures@SiliconValley J.A. English-Lueck,2017-08-29 Since the initial publication of Cultures@SiliconValley fourteen years ago, much has changed in Silicon Valley. The corporate landscape of the Valley has shifted, with tech giants like Google, Facebook, LinkedIn, and Twitter vying for space with a halo of applications that connect people for work, play, romance, and education. Contingent labor has been catalyzed by ubiquitous access to the Internet on smartphones, enabling ride-sharing services like Uber and Lyft and space-sharing apps like Airbnb. Entrepreneurs compete for people's

attention and screen time. Alongside these changes, daily life for all but the highest echelon has been altered by new perceptions of scarcity, risk, and shortage. Established workers and those new to the workforce try to adjust. The second edition of *Cultures@SiliconValley* brings the story of technological saturation and global cultural diversity in this renowned hub of digital innovation up to the present. In this fully updated edition, J. A. English-Lueck provides readers with a host of new ethnographic stories, documenting the latest expansions of Silicon Valley to San Francisco and beyond. The book explores how changes in technology, especially as mobile phones make the Internet accessible everywhere, impact work, family, and community life. The inhabitants of Silicon Valley illustrate in microcosm the social and cultural identity of the future.

The Launch Pad Randall Stross, 2012-12-06 In *The Launch Pad*, Randall Stross, author of *eBoys* and *Planet Google*, takes a behind-the-scenes look at how tomorrow's hottest startups are being primed for greatness. Twice a year, in the heart of Silicon Valley, a small investment firm called Y Combinator selects an elite group of young entrepreneurs. Months of intense work culminates in Demo Day, when investors and venture capitalists flock to hear their pitches. Any one of them might turn out to be the next Dropbox (class of 2007), or Airbnb (class of 2009). Randall Stross was granted unprecedented access to Y Combinator, enabling a unique inside tour of the world of software startups. He tells the full story of this ultra-exclusive institution, how it chooses the aspiring Mark Zuckerbergs, and how it teaches them to go from concept to profitability in record time. This is the definitive story of a seismic shift in the business world, in which coding skill beats job experience, pairs of undergraduates take on Goliaths, and investors fall in love. *The Launch Pad* is both a gripping narrative and a gold mine of useful insights. 'A must-read for anyone interested in the realities of modern entrepreneurship' -Eric Ries, author of *The Lean Startup* 'Stross's account of the best new entrepreneurs and the exciting companies they're building at startup schools is a great read for founders and would-be founders alike' -Marc Andreessen, cofounder, Andreessen Horowitz Randall Stross is the author of several acclaimed books, including *eBoys*, *Planet Google*, and *The Wizard of Menlo Park*. He has a Ph.D. in history from Stanford University.

For-Profit Philanthropy Dana Brakman Reiser, Steven A. Dean, 2023-01-03 This book exposes a migration of business practices, players, and norms into philanthropy that strains the regulatory regime sustaining public trust in elite generosity through accountability and transparency and proposes legal reforms and private solutions to restore it. Practices, players, and norms native to the business sector have migrated into philanthropy, shattering longstanding barriers between commerce and charity. Philanthropies organized as limited liability companies, donor-advised funds sponsored by investment company giants, and strategic corporate philanthropy programs aligning charitable giving by multinationals with their business objectives paint a startling new picture of elite giving. In *For-Profit Philanthropy*, Dana Brakman Reiser and Steven A. Dean reveal that philanthropy law has long operated as strategic compromise, binding ordinary Americans and elites together in a common purpose. At its center stands the private foundation. The authors show how the foundation neatly combines donor autonomy with a regulatory framework to elevate the public's voice. This framework compels

foundations to spend a small but meaningful portion of the assets their elite donors have pledged to the public each year. Prophylactic restrictions separate foundations from their funders' business and political interests. And foundations must disclose more about the sources and uses of their assets than any other business or charity. The philanthropic innovations increasingly espoused by America's most privileged individuals and powerful companies prioritize donor autonomy and privacy, casting aside the foundation and the tools it provides elites to demonstrate their good faith. By threatening to displace impactful charity with hollow virtue signaling, these actions also jeopardize the public's faith in the generosity of those at the top. Private ordering, targeted regulation, or a new strategic bargain could strike a modern balance, preserving the benefits of the compromise between the modest and the mighty. For-Profit Philanthropy offers a detailed roadmap to show how it can be accomplished.

Unwoke Ted Cruz, 2023-11-07 Our institutions have gone woke. Everybody knows that. But nobody has come up with a way to stop it. Until now. In this hard-hitting new book, Senator Ted Cruz delivers a realistic battle plan for defeating the woke assault on America. The Democratic Party is now controlled by Cultural Marxists. So are our universities and public schools, the media, Big Tech, and Big Business. Corporations push transgenderism down their customers' throats. Banks punish gun shops. Hollywood insults our religious beliefs and grooms our children. The big investment companies use our retirement savings to promote leftist causes. And the Biden administration has turned our military into an indoctrination camp, neglected transportation safety to focus on climate change, and persecuted peaceful pro-lifers while leaving prochoice arsonists at large. The son of Cuban immigrants who fled communist oppression, Cruz is uniquely equipped to fight the woke revolution. He eloquently explains how Cultural Marxism got a foothold in America, how it progressed, and how, in precise steps, we can fight back to regain our institutions, regain our country—and win the future for our children. Bold, practical, and necessary, *Unwoke* is the book we need to restore the America we love.

The North American West in the Twenty-First Century Brenden W. Rensink, 2022 This edited volume takes stories from the modern West of the late twentieth century and carefully pulls them toward the present--explicitly tracing continuity with and unexpected divergence from trajectories established in the 1980s and 1990s.

Perspectives on Taiwan Bonnie S. Glaser, Matthew P. Funaiolo, 2019-05-02 The CSIS Taiwan-U.S. Policy Program (TUPP) program provides a much-needed opportunity for future leaders to gain a better understanding of Taiwan through first-hand exposure to its politics, culture, and history. The papers in this compendium were written by the 10 members of the 2018 TUPP delegation.

The Silicon Valley Model Annika Steiber, Sverker Alänge, 2024-01-15 The first edition of *The Silicon Valley Model*, published in 2016, addresses the need for a fundamentally new approach to managing and developing large firms with an emphasis on entrepreneurship. This second edition validates, extends, and updates these original findings. While still encompassing the observations and analysis featured in the first edition, this new edition addresses new developments in management and in the global business environment. Further, it presents Dr. Steiber's research identifying more companies in Asia,

Europe, and the USA that are implementing management approaches that parallels the Silicon Valley Model, and in some respects, advanced upon it. New material, appearing mainly in the “Recent Developments” sections in each chapter, includes both real-life events and new research findings related to the management principles for entrepreneurship. In some cases, elements of innovation and development of the Silicon Valley Model have taken new forms in response to changing times or the desires of the companies involved. The Silicon Valley Model, Second Edition is beneficial to executives from the board and CEO level on down, consultants, researchers, and others who study or work with new developments in management.

constitutives et
contradictaires de la
démocratie de masse c
est en ce sens qu elle
est une réalité nouvelle
tant au plan fonctionnel
que théorique
