Law of Attraction Jenny Hashkins, 2020-06-03 The energy from the universe emanates through space and helps us send out vibrations, only to receive back what is in our inner desires. I know that sounds like a complicated sentence, but that basically sums up the law of attraction. To understand this more fully, we have to understand those concepts separately: Vibrations, energy, mindfulness to receive the things we want. All those things are related to each other. One way in which people increase their chances to receive their desires, is by using hypnosis or self-hypnosis. These practices have been tested and often underestimated by the masses. But they can work in a person's favor, especially if that person is committed to changing his or her life. Morning routines are another element of having success. Many people start out the day wrong, and then don't end up where they want to be. By starting each day with a well-thought-out ritual, you can make those changes in your life.

21 Days Manifesting Mastery Benny Zhang, 2017-01-06 Many people believe that successful people must have a certain secret. The secret is what makes them rich, abundant, and success. Thus, they want to find out this secret. That's why they keep reading books, attending seminars, listening to CDs, etc. Unfortunately, there is no such secret. Even if there is a secret, it is in your mind. You don't have to look it everywhere. You can find it in your mind. But how do we find it? How do we search our minds? Well, this book can help you. This book is going to help you. This book is going to help you to master your mind. This book is going to teach you how to use the power of your mind to manifest your dreams. Some books probably discuss the Law of Attraction from the Quantum Physics perspective. Some also discuss it from the spiritual perspective. But I am going to discuss it from how the mind works, or the science of the mind. In order to master the Law of Attraction, you don't need to understand the theory of Quantum Physics or the Law of Physics. It is much more important to master your mind. Once you have mastered your mind, you will be able to master your life, as well as the Law of Attraction. It's because everything begins from the mind. Your thoughts create your reality. You are what you think. There are 21 chapters in this book, more exactly, they are 21 DAYS. I want you to read this book one chapter per day. Why should you do that? Are you not allowed to read all the chapters at once? You can read all the chapters at once, or read it in accordance with your pace. But I would like to suggest you to read this book one chapter per day. Based on the study I read before, after reading a book, someone will forget 90% of the content of the book after 3 days. Imagine in just 3 days, we forget about 90% of the content. I don't want you to just read this book. I want you to read and understand it. And I want you practice everything what I have written in this book.

Thought Vibration William Walker Atkinson, 2017-07-06 This eBook edition of *Thought Vibration* has been formatted to the highest digital standards and adjusted for readability on all devices. Extract: The Universe is governed by Law - one great Law. Its manifestations are multiform, but viewed from the Ultimate there is but one Law. We are familiar with some of its manifestations, but are almost totally ignorant of certain others. Still we are learning a little more every day - the veil is being gradually lifted. We speak learnedly of the Law of Gravitation, but ignore that equally wonderful manifestation, THE LAW OF ATTRACTION IN THE THOUGHT WORLD. We are

familiar with that wonderful manifestation of Law which draws and holds together the atoms of which matter is composed - we recognize the power of the law that attracts bodies to the earth, that holds the circling worlds in their places, but we close our eyes to the mighty law that draws to us the things we desire or fear, that makes or mars our lives. William Walker Atkinson (1862-1932) was a prolific writer. His works treat themes related to the mental world, occultism, divination, psychic reality, and mankind's nature. They constitute a basis for what Atkinson called New Psychology or New Thought.
