The Law of Attraction and the Scriptures, Second Edition: A Guide for Latter-Day Saints Michael James Fitzgerald,2015-12-31 Is the law of attraction real? If you have been wondering if the ideas presented by secular teachers of this law have any relevance to or a foundation in the scriptures, this book is for you. It explores the law of attraction-also called the law of the harvest or the Royal Law-as found in the standard works accepted by Latter-day Saints: The Bible, Book of Mormon, Doctrine and Covenants, and Pearl of Great Price. The book also discusses the background of the modern concept of the law of attraction, including: Newton's Third Law of Motion (the Law of Reciprocal Actions); Newton's Law of Universal Gravitation; the zero-point field; the role of positive thoughts and beliefs in our lives; what the universe really is; why nothing is impossible with God; how Jesus expressed affirmations; the power of gratitude; and true wealth.

Mormons and the Bible Philip L. Barlow,1997-02-27 The Mormons have been one of the most studied American religious groups; still, no consensus exists about the essential

nature of the movement or its place in American religion. In this study, Barlow analyzes the approaches taken to the Bible by key Mormon leaders, from founder Joseph Smith up to the present day. He shows that Mormon attitudes toward the Bible comprise an extraordinary mix of conservative, liberal, and radical ingredients: an almost fundamentalist adherence to the King James Version of the Bible coexists with belief in the possibility of new revelation and surprising ideas on the limits of human language. Exploring this unique Mormon stance on scripture, Barlow takes important steps toward unraveling the mystery of this quintessential American religious phenomenon.
