Shaping Immigration News Rodney Benson, 2013-08-19 This book offers a comprehensive portrait of French and American journalists in action as they grapple with how to report and comment on one of the most important issues of our era. Drawing on interviews with leading journalists and analyses of an extensive sample of newspaper and television coverage since the early 1970s, Rodney Benson shows how the immigration debate has become increasingly focused on the dramatic, emotion-laden frames of humanitarianism and public order. In both countries, less commercialized media tend to offer the most in-depth, multi-perspective and critical news. Benson challenges classic liberalism's assumptions about state intervention's chilling effects on the press, suggests costs as well as benefits to the current vogue in personalized narrative news, and calls attention to journalistic practices that can help empower civil society. This book offers new theories and methods for sociologists and media scholars and fresh insights for journalists, policy makers and concerned citizens.

What makes Grammaticalization? Walter Bisang, Nikolaus P. Himmelmann, Björn Wiemer, 2009-02-26 The status of grammaticalization has been the subject of many controversial discussions. The contributions to What makes Grammaticalization? approach the prevalent phenomenon from the angle of language structure and focus on the

interrelation between the levels of phonology, pragmatics (inference), discourse and the lexicon and some of them try to integrate the areal perspective. A wealth of data from Slavonic languages as well as from languages of other genetic and areal affiliation is discussed. The book is of interest to linguists specializing in grammaticalization, lexicalization and morphological typology, to language typologists as well as to functional, historical and cognitive linguists.

Code-Switching in Early English Herbert Schendl, Laura Wright, 2011-11-30 The complex linguistic situation of earlier multilingual Britain has led to numerous contact-induced changes in the history of English. However, bi- and multilingual texts, which are attested in a large variety of text types, are still an underresearched aspect of earlier linguistic contact. Such texts, which switch between Latin, English and French, have increasingly been recognized as instances of written code-switching and as highly relevant evidence for the linguistic strategies which medieval and early modern multilingual speakers used for different purposes. The contributions in this volume approach this phenomenon of mixed-language texts from the point of view of code-switching, an important mechanism of linguistic change. Based on a variety of text types and genres from the medieval and Early Modern English periods, the individual papers present detailed linguistic analyses of a large number of texts, addressing a variety of issues, including methodological questions as well as functional, pragmatic, syntactic and lexical aspects of language mixing. The very specific nature of language mixing in some text types also raises important theoretical questions such as the distinction between borrowing and switching, the existence of discrete linguistic codes in earlier multilingual Britain and, more generally,

the possible limits of the code-switching paradigm for the analysis of these mixed texts from the early history of English. Thus the volume is of particular interest not only for historical linguists, medievalists and students of the history of English, but also for sociolinguists, psycholinguists, language theorists and typologists.

The Diary of Queen Maria Carolina of Naples, 1781-1785 Cinzia

Recca,2016-11-25 This work offers a new portrayal of Queen Maria Carolina of Naples as a woman of power with weaknesses and ambitions, and analyzes the Queen's actions, from her political choices to her alliance and betrayals. A careful examination of the period (1781-1785) covered by the diary shows that the daily life of the Queen and offers key evidence of her political acumen and her personal relationships. Recca cross-analyses unpublished personal documents, which include the integral diary and private correspondence. The book focuses on the political influence that Queen Maria Carolina wielded beside her husband, King Ferdinand IV, and the criticism that has been made by contemporary historians and intellectuals who have often tended to discredit the sovereign for personal rather than political reasons.

Kingdom of Saudi Arabia, author Sherifa Zuhur reveals the fascinating people, culture, politics, and economic development of the largest Arab country of the Middle East. Global Subjects Jean-François Bayart, 2007 Globalization is part of the fabric of our everyday lives. And yet we often view it as a threat to our identities, or even our very survival. This study offers a radically new vision of this phenomenon, one which goes completely against the way it is interpreted by neo-liberals or the anti-globalization movement.

Patrick Modiano ,2007-01-01 While his preoccupation with the period of the Occupation remains a permanent theme, Patrick Modiano is increasingly interested in the exploration of time and memory, and the attendant problem of reconstituting the past. This

volume explores all these features. It casts new light on Modiano's earliest novels, examines afresh his more recent work including his stories for children, situates it in the context of contemporary writing and unravels the intricacies and subtleties of his style. It underlines Modiano's position as one of France's major writers of the twentieth and twenty-first centuries and will be of interest to all who are interested in the modern French novel and the complex interactions between fiction and history.

Poverty Row Studios, 1929-1940 Michael R. Pitts, 2015-09-17 From the beginning of the sound era until the end of the 1930s, independent movie-making thrived. Many of the independent studios were headquartered in a section of Hollywood called Poverty Row. Here the independents made movies on the cheap, usually at rented facilities where shooting was limited to only a few days. From Allied Pictures Corporation to Willis Kent Production, 55 Poverty Row Studios are given histories in this book. Some of the studios, such as Diversion Pictures and Cresnet Pictures, came into existence for the sole purpose of releasing movies by established stars. Others, for example J.D. Kendis, were early exploitation filmmakers under the guise of sex education. The histories include critical commentary on the studio's output and a filmography of all titles released from 1929

through 1940.
