Leading In Sync Jill Harrison Berg, 2018-08-15 Teacher leadership holds great promise for improving the quality of teaching and ensuring student success. But for co-performance of leadership among teacher leaders and principals to be effective, they must learn to lead in sync. *Leading In Sync: Teacher Leaders and Principals Working Together for Student Learning* provides principals, assistant principals, coaches, department leaders, grade-level and content team leaders, mentors, professional development leaders, and in fact all teachers with the strategies and tools needed to *Examine their own thinking about what constitutes high-quality teaching so they can work toward a shared vision. *Identify teachers' many strengths as potential assets for achieving the shared vision. *Recognize ways in which most teachers are already leading. *Support leadership collaboration through efficient, effective communication. *Develop trust required to learn to lead together. Jill Harrison Berg offers thought-provoking context and reflection questions that enable educators to examine their unique settings; real-world examples of teachers and principals co-performing leadership to improve student success; and dozens of strategies, tools, and templates to facilitate leading in sync. This book includes a link to free downloadable tools.

Mirror Neurons and the Evolution of Brain and Language Maxim I. Stamenov, Vittorio Gallese, 2002-12-17 The emergence of language, social intelligence, and tool development are what made homo sapiens sapiens differentiate itself from all other biological species in the world. The use of language and the management of social and instrumental skills imply an awareness of intention and the consideration that one faces

another individual with an attitude analogical to that of one's own. The metaphor of 'mirror' aptly comes to mind. Recent investigations have shown that the human ability to 'mirror' other's actions originates in the brain at a much deeper level than phenomenal awareness. A new class of neurons has been discovered in the premotor area of the monkey brain: 'mirror neurons'. Quite remarkably, they are tuned to fire to the enaction as well as observation of specific classes of behavior: fine manual actions and actions performed by mouth. They become activated independent of the agent, be it the self or a third person whose action is observed. The activation in mirror neurons is automatic and binds the observation and enaction of some behavior by the self or by the observed other. The peculiar first-to-third-person 'intersubjectivity' of the performance of mirror neurons and their surprising complementarity to the functioning of strategic communicative face-to-face (first-to-second person) interaction may shed new light on the functional architecture of conscious vs. unconscious mental processes and the relationship between behavioral and communicative action in monkeys, primates, and humans. The present volume discusses the nature of mirror neurons as presented by the research team of Prof. Giacomo Rizzolatti (University of Parma), who originally discovered them, and the implications to our understanding of the evolution of brain, mind and communicative interaction in non-human primates and man. The New Nikon Compendium Simon Stafford, Rudi Hillebrand, Rudolf Hillebrand, Hans-Joachim Hauschild, 2004 Presenting the thoroughly revised, fully illustrated edition of The Nikon Compendium, updated by the technical editor of Nikon Owner magazine to include all the new Nikon cameras, lenses, and accessories. This is

what Nikon enthusiasts have eagerly awaited: the most complete Nikon reference book ever. At almost double the length of the original, the guide describes virtually every Nikon camera ever produced, right up to the wide variety of popular digital models. It aids identification, offers user-friendly tips, explains what system fits with which camera, and discusses what limitations occur when equipment from one generation is married to items from another. Professional and amateur photographers, as well as enthusiasts, collectors, and retailers will want this on their bookshelves.

Leading in Sync Jill Harrison Berg, 2018-08-15 Teacher leadership holds great promise for improving the quality of teaching and ensuring student success. But for co-performance of leadership to be effective, teachers and principals need to lead in sync. Leadership coach Jill Harrison Berg guides educators through the process of creating a shared vision for student success and effective teaching, developing a mutual understanding of each person's role in achieving that vision, establishing a schoolwide culture of teacher leadership, and building the trust needed to bring it all together. *Leading In Sync: Teacher Leaders and Principals Working Together for Student Learning* provides principals, assistant principals, coaches, department leaders, grade-level and content team leaders, mentors, professional development leaders, and in fact all teachers with the strategies and tools needed to:

- * Examine their own thinking about what constitutes quality teaching.
- * Tap faculty members who are already leading.
- * Identify who has the knowledge, skills, and dispositions required for particular leadership roles.
- *

Support leadership collaboration through efficient, effective communication. * Develop trust within the school community. Berg offers thought-provoking context and reflection questions so that educators can examine their own unique settings; real-world examples of teachers and principals co-performing leadership to improve student success; and dozens of strategies, tools, and templates to facilitate leading in sync.
