The Leader in Me Stephen R. Covey, 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them

as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Roadmap to a Brighter Future Paul A. Laudicina, 2021-09-14 A Wall Street Journal and Publishers Weekly bestseller America's best days should still lie ahead. Here's the realistic and definitive path to get us there. The future doesn't just happen. It's a choice that we can and must help determine. But as our deeply divided nation reels from converging crises and seemingly intractable discord, where do we begin when the stakes are unfathomably high? With multiple possible futures before us, Americans need to understand the specific consequences of our immediate choices, seize the opportunity to renew the nation's promise, and set the stage to benefit current and future generations. If we chart our course correctly, we can emerge from our current troubles with a brighter future in reach of all Americans. Based on decades of expertise in envisioning and articulating policy options, Paul Laudicina lays out four vastly different visions for America's future. In *Roadmap to a Brighter Future*, he outlines why the best version of America will only come about if the correct actions are taken now—and outlines

the ten steps needed to decisively tackle our most pervasive problems and address critical priorities. Laudicina, who led one of the world's most-respected management consultancies and has worked as a longtime senior advisor to Joe Biden, also integrates the uncensored views and fresh ideas of dozens of the world's leading thinkers, CEOs, scientists, government leaders, and innovators, to show why optimism about the United States is not only warranted, but crucial.
