Survival Chinese Boye Lafayette De Mente, 2013-02-05 A handy Mandarin Chinese phrasebook and guide to the Chinese language, Survival Chinese contains basic vocabulary necessary for getting around. This book contains all the necessary words and phrases for speaking Mandarin Chinese in any kind of setting. Perfect for students, tourists, or business people learning Mandarin or traveling to China or Taiwan, it also contains a beginner guide to the Mandarin language, allowing for a deeper understanding of Chinese than a typical Mandarin phrasebook or Chinese dictionary. The book is broken into four basic sections: Common Chinese Expressions and Key Words, Essential Chinese Communication Tools, Chinese Travel Vocabulary, and making your own sentences. All Chinese words and phrases are written in Romanized form (pinyin) as well phonetically, making pronouncing Chinese a breeze. For example, the word for reservation, yuding is also written as yuu-deeng. Authentic Chinese characters are also included so that in the case of difficulties the book can be shown to the person the user is trying to communicate with. Key features of Survival Chinese include: Hundreds of useful Chinese words and expressions. An A-Z index which allows the book to function as a English to Chinese dictionary. Romanized forms, phonetic spellings, and Chinese Characters (Hanzi) for all words and phrases. A concise background and history of the Chinese language. A complete guide to Chinese pronunciations. A concise guide to using Chinese tones. A brief introduction to Chinese grammar.

Mother Tongue Christine Gilbert, 2016-05-17 One woman's quest to learn Mandarin in Beijing, Arabic in Beirut, and Spanish in Mexico, with her young family along for the ride. Imagine negotiating for a replacement carburetor in rural Mexico with

words you're secretly pulling from a pocket dictionary. Imagine your two-year-old asking for more niunai at dinner—a Mandarin word for milk that even you don't know yet. Imagine finding out that you're unexpectedly pregnant while living in war-torn Beirut. With vivid and evocative language, Christine Gilbert takes us along with her into foreign lands, showing us what it's like to make a life in an unfamiliar world—and in an unfamiliar tongue. Gilbert was a young mother when she boldly uprooted her family to move around the world, studying Mandarin in China, Arabic in Lebanon, and Spanish in Mexico, with her toddler son and all-American husband along for the ride. Their story takes us from Beijing to Beirut, from Cyprus to Chiang Mai—and also explores recent breakthroughs in bilingual brain mapping and the controversial debates happening in linguistics right now. Gilbert's adventures abroad prove just how much language influences culture (and vice versa), and lead her to results she never expected. *Mother Tongue* is a fascinating and uplifting story about taking big risks for bigger rewards and trying to find meaning and happiness through tireless pursuit—no matter what hurdles may arise. It's a treat for language enthusiasts and armchair travelers alike.

Tuttle Learning Chinese Characters Alison Matthews, Laurence Matthews, 2011-12-20 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short stories, and the systematic building up of more complicated characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning

techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

The Way of the Linguist Steve Kaufmann, 2005-11
The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not

more people do the same? In his book *The Way of The Linguist, A language learning odyssey*, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

Hacking Chinese Olle Linge, 2016-03-26 Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like

when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study. - Geoff van der Meer, VP engineering This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision. - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

Basic Patterns of Chinese Grammar Qin Xue Herzberg, Larry Herzberg, 2012-11-15 Here is a concise guide to supplement any course of study and help with homework, travel, and test preparation. Topics include word order, time, nouns, verbs, adjectives, word choices with verbs and adverbs, and letter writing. The simple format has one goal: quick mastery and growing

confidence. Qin Xue Herzberg, a graduate of Beijing Normal University, has taught Chinese for decades and has been an upper-level Chinese professor at Calvin College for ten years. Larry Herzberg did his PhD work in Chinese and founded the Chinese language programs at Albion College and Calvin College. Qin and Larry live in Grand Rapids, Michigan, and are co-authors of the popular China Survival Guide as well as Chinese Proverbs and Popular Sayings.

Remembering Simplified Hanzi 1 James W. Heisig, Timothy W. Richardson, 2008-10-31 The approach that has helped thousands of learners memorize Japanese kanji has been adapted to help students with Chinese characters. Remembering Simplified Hanzi covers the writing and meaning of the 1,000 most commonly used characters in the traditional Chinese writing system, plus another 500 that are best learned at an early stage. Of critical importance to the approach found in these pages is the systematic arranging of characters in an order best suited to memory. In the Chinese writing system, strokes and simple components are nested within relatively simple characters, which can, in turn, serve as parts of more complicated characters and so on. Taking advantage of this allows a logical ordering, making it possible for students to approach most new characters with prior knowledge that can greatly facilitate the learning process.--BOOK JACKET.

Pimsleur Chinese (Mandarin) Level 1 CD

Pimsleur, 2000-01-01 The Easiest and Fastest Way to Learn Mandarin Chinese Did you know that Mandarin Chinese is the world's most widely spoken language with over one billion native speakers? Once you get the basics down, you'll be surprised how quickly you're able to begin speaking it. And even knowing a little bit of the language will make travel to China far easier, and much more fun. Whether your goal is to travel, communicate with friends or colleagues, reconnect with family, or just understand more of what's going on in the world around you, learning to speak Mandarin Chinese will expand your horizons and immeasurably enrich your life. The best part is that it doesn't have to be difficult or take years to master. Thirty minutes a day is all it takes, and we get you speaking right from the first day. Pimsleur courses use a scientifically proven method that puts you in control of your learning. If you've tried other language learning methods but found they simply didn't stick, then you owe it to yourself to give Pimsleur a try. Why Pimsleur? - Quick + Easy - Only 30 minutes a day. - Portable + Flexible - Core lessons can be done anytime, anywhere, and easily fit into your busy life. - Proven Method - Works when other methods fail. - Self-Paced - Go fast or go slow - it's up to you. - Based in Science - Developed using proven research on memory and learning. - Cost-effective - Less expensive than classes or immersion, and features all native speakers. - Genius - Triggers your brain's natural aptitude to learn. - Works for everyone - Recommended for ages 13 and above. What's Included? - 30, 30-minute audio lessons - 60 minutes of recorded Notes to provide you some insight into Mandarin Chinese culture - In total, 16 hours of audio, all featuring native speakers - a Notes Booklet and a User's Guide What You'll Learn In the first 10 lessons, you'll cover the basics: saying hello, asking for or giving

information, scheduling a meal or a meeting, asking for or giving basic directions, and much more. You'll be able to handle minimum courtesy requirements, understand much of what you hear, and be understood at a beginning level, but with near-native pronunciation skills. In the next 10 lessons, you'll build on what you've learned. Expand your menu, increase your scheduling abilities from general to specific, start to deal with currency and exchanging money, refine your conversations and add over a hundred new vocabulary items. You'll understand more of what you hear, and be able to participate with speech that is smoother and more confident. In the final 10 lessons, you'll be speaking and understanding at an intermediate level. In this level, more directions are given in the Mandarin Chinese language, which moves your learning to a whole new plane. Lessons include shopping, visiting friends, going to a restaurant, plans for the evening, car trips, and talking about family. You'll be able to speak comfortably about things that happened in the past and make plans for the future. One hour of recorded Cultural Notes are included at the end of Lesson 30. These notes are designed to provide you with some insight into Mandarin Chinese culture. A Notes booklet is also included. The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his "secrets": The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind. Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase

your ability with every lesson. Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory. Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture. Learning in Context Research has shown that learning new words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success. Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English. The Mandarin Chinese Language Over one billion people speak Chinese. The two most common dialects are Mandarin and Cantonese. They are not mutually intelligible. Mandarin is the official language in Mainland China, Taiwan, and Singapore. The Mandarin dialect is used in most Chinese schools, and in most TV programs, movies, and radio stations throughout the country, even in Guangzhou (formerly Canton), where people speak Cantonese in their daily lives. Mandarin is one of the six official languages of the United Nations. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.
