**Humble Math - 100 Days of Money, Fractions, & Telling the Time: Workbook (With Answer Key): Ages 6-11 - Count Money (Counting United States Coins and** Humble Math, 2020-09-02 100 days of practice counting money, learning fractions, and telling the time. Three core areas of math that students often need additional help to master. Start by counting groups of coins that have a value of a dollar or less. Slowly learn to count greater amounts of money that

include small and large bills too. Add and subtract values, and even learn to make change. Learn fractions one step at a time. Start with simple fractions and eventually learn to add and subtract mixed numbers. Telling the time is one of the more difficult concepts for children to learn. Gradually progress from learning to tell hours, to quarter hours. Eventually tell time in five minute and minute increments. This is a great workbook to start out with. Most students will grasp the concepts within each of the three sections. If a student still needs more practice, Humble Math has workbooks that provide additional practice for these concepts too.

**Practice Counting Money Workbook for Kids** Bearlyn,CREATESPACE,2012-05-01 This workbook includes 150 visual problems with a combination of pennies, nickels, dimes, quarters, dollar bills, five dollar bills, ten dollar bills, and twenty dollar bills. The problems have pictures of play money drawn by artist Bearlyn. The coins have similar relative sizes as real US coins, but have pictures of bears instead of US presidents. The pictures appear in black and white. The coins do not appear in actual size, but the relative size is approximate: Quarters look larger than nickels, nickels larger than pennies, and pennies slightly larger than dimes; and pennies appear in a different shade since they come in a different color. The actual sizes of the coins vary from picture to picture, but in any picture the relative sizes of the coins are approximately correct. Each coin clearly has the word 'penny,' 'nickel,' 'dime,' or 'quarter' written on it to help distinguish among them. Kids add up the money shown in each problem. The answers are tabulated in the back of the book, and appear on pictures of piggy banks and cash registers. The problems start out with just coins. \$1 bills are introduced next, then \$5, \$10, and finally \$20 toward the end of the book.
