Registers of Communication Asif Agha, Frog, 2015-12-03 In any society, communicative activities are organized into models of conduct that differentiate specific social practices from each other and enable people to communicate with each other in ways distinctive to those practices. The articles in this volume investigate a series of locale-specific models of communicative conduct, or registers of communication, through which persons organize their participation in varied social practices, including practices of politics, religion, schooling, migration, trade, media, verbal art, and ceremonial ritual. Drawing on research traditions on both sides of the Atlantic, the authors of these articles bring together insights from a variety of scholarly disciplines, including linguistics, anthropology, folklore, literary studies, and philology. They describe register models associated with a great many forms of interpersonal behavior, and, through their own multi-year and multi-disciplinary collaborative efforts, bring register phenomena into focus as features of social life in the lived experience of people in societies around the world.

The Romanians, 1774-1866 Keith Hitchins, 1996 This original and ground-breaking work examines the building of the European nation which became Romania in 1859. The evolution of the Romanians in the century between the 1770s and the 1860s was marked by a transition from long-established agrarian economic and social structures, locked into an essentially medieval political system, to a society moulded by urban and industrial values and held together by allegiance to the nation-state. This fascinating analysis of the building of a European nation-state is the first detailed account of the Romanians during this dramatic period.

"In vain I tried to tell you" Dell Hymes, 2016-11-11 From the Introduction: This book is . . . devoted to the first literature of North America, that of the American Indians, or Native Americans. The texts are from the North Pacific Coast, because that is where I am from, and those are the materials I know best. The purpose is general: All traditional American Indian verbal art requires attention of this kind if we are to comprehend what it is and says. There is linguistics in this book, and that will put some people off. "Too technical, they will say. Perhaps such people would be amused to know that many linguists will not regard the work as linguistics. Not theoretical, they will say, meaning not part of a certain school of grammar. And many folklorists and anthropologists are likely to say, too linguistic and too literary both, whereas professors of literature are likely to say, anthropological or folklore, not literature at all. But there is no help for it. As with *Beowulf* and *The Tale of Genji*, the material requires some understanding of a way of life. Within that way of life, it has in part a role that in English can only be called that of literature. Within that way of life, and now, I hope, within others, it offers some of the rewards and joys of literature. And if linguistics is the study of language, not grammar alone, then the study of these materials adds to what is known about language.

East Central Europe between the Two World Wars Joseph Rothschild, 2016-06-01 *East Central Europe Between The Two*

Verbal Art as Performance Richard Bauman, 1984-01-01

The cross-disciplinary and integrative nature of sociolinguistics is clearly evidenced in this highly regarded, insightful volume. Bauman's holistic study brings together the separate fields of folklore, anthropology, linguistics, and literary criticism as they focus on verbal art. The work represented here is a clear assembly of perspectives and methodology of these disciplines from the viewpoint of performance-artistic action and artistic event. The basic principles underlying sociolinguistics (patterned variability and context as revealed through language) provide the coherence. In addition to Bauman's useful conceptual framework, four lively, informative essays by leading scholars are included that clarify, illustrate, and amplify in an effort to treat verbal art as performance.

Defending Democracy Giovanni Capocchia, 2007-09-01

Winner, Best Book on European Politics, 2005, European Politics and Society Section, American Political Science Association How does a democracy deal with threats to its stability and continued existence when those threats come from political parties that play the democratic game? In *Defending Democracy*, political scientist Giovanni Capocchia studies key European nations between World Wars I and II which survived such democratic crises. A comprehensive and thoughtful historical analysis of the democracies of interwar Europe, *Defending Democracy* provides a unique perspective on the many lessons to be learned from their successes and failures. With this exclusively empirical investigative approach, Capocchia develops a methodology for analyzing contemporary democracies—such as Algeria, Turkey, Israel, and others—where similar political conditions are present.

Given the rise of terrorism and the persistence of extremism in both established and new democracies today, continued research and dialogue on the defense of democracy are necessary for its preservation.

Cultural Politics in Greater Romania Irina

Livezeanu, 2018-08-06 Since the fall of the Ceausescu regime, Romanian politics have been haunted by unresolved issues of the past. Irina Livezeanu examines a critical chapter in Eastern European history—the trajectory of the aggressive nationalism that dominated Romania between the world wars.

History and Culture of Economic Nationalism in East Central Europe Helga Schultz, Eduard Kubů, 2006-01-01

Latinos in Israel Alejandro I. Paz, 2018-10-25 *Latinos in Israel* charts the unexpected ways that non-citizen immigrants become potential citizens. In the late 1980s Latin Americans of Christian background started arriving in Israel as labor migrants. Alejandro Paz examines the ways they perceived themselves and were

perceived as potential citizens during an unexpected campaign for citizenship in the mid-2000s. This ethnographic account describes the problem of citizenship as it unfolds through language and language use among these Latinos both at home and in public life, and considers the different ways by which Latinos were recognized as having some of the qualities of citizens. Paz explains how unauthorized labor migrants quickly gained certain limited rights, such as the right to attend public schools or the right to work. Ultimately engaging Israelis across many such contexts, Latinos, especially youth, gained recognition as citizens to Israeli public opinion and governing politics. Paz illustrates how language use and mediatized interaction are under-appreciated aspects of the politics of immigration, citizenship, and national belonging.

How to Read an Oral Poem John Miles Foley, 2002 Drawing on many examples including an American slam poet, a Tibetan paper-singer, a South African praise-poet, and an ancient Greek bard (Homer) the author shows that although oral poetry predates writing it continues to be a vital culture-making and communications tool. Based on research on epics, folktales, lyrics, laments, charms, etc.--Back cover.

Transylvania and the Banat Great Britain. Foreign Office. Historical Section, 1920 Contains geographical, political, and economic assessments for the British delegates to the 1919-1920 Paris Peace Conference.

Directions in Sociolinguistics John Gumperz, Dell Hymes, 1986 *Directions in Sociolinguistics* is a now classic collection of pioneering essays by leading sociolinguists. It is published here for the first time in paperback and incorporates an extensive new bibliography. The book proceeds from the assumption that we may learn from language as interactional behaviour, illustrating both advances in theoretical insights and changes in research interests. Taking a speaker's communicative competence as a social as well

as grammatical fact, this volume is an invaluable compendium of articles by some of the most eminent researchers in Sociolinguistics, and in the sociology and anthropology of language.
