The Legal Protection of Databases Estelle Derclaye,2008-01-01 Dr Derclaye's book is well structured. . . the methodology is theoretical and comparative. . . Derclaye's work on database law is timely and readable, presenting a sound thesis to the perceived problems. Patricia Akester, Journal of Intellectual Property This book has a wide-ranging, detailed appeal for all lawyers, students and those in the public and private sectors. . . Richard Chambers . . . this book is a detailed, comprehensive and well-researched examination of legal protection of databases, which offers a valuable template for reform that will be of great interest to academics and policymakers alike. Tanya Aplin, European Intellectual Property Review The protection of the investment made in collecting, verifying or presenting database contents is still not harmonised internationally. Some laws over-protect database contents, whilst others under-protect them. This book examines and compares several methods available for the protection of investment in database creation namely, intellectual property, unfair competition, contract and technological protection measures in order to find an adequate type and level of protection. To this effect, the author uses criteria based on a combination of the economics of information goods, the human rights to intellectual property and to information, and the public interest, proposing a model that can be adopted at international and national levels. The Legal Protection of Databases will be of interest to intellectual property lawyers, competition lawyers, as well as general commercial lawyers because of the breadth of laws reviewed. It will also appeal

to practitioners, policymakers, economists and students.

Wörterbuch der Handels-, Finanz- und Rechtssprache / Dictionary of Commerical, Financial and Legal Terms / Dictionnaire des Termes Commerciaux, Financiers et Juridiques HERBST, 2012-12-06 Die Arbeit an den drei Bänden dieses Wörterbuches wurde 1932 in London begonnen und ist in ständiger Fortsetzung auf den jetzt vorliegenden Stand gebracht worden. In seinem Aufbau und in der besonderen Anordnung des Stoffes erstrebt das Werk, einem doppelten Zweck zu dienen: Besonders leichtes und schnelles Auffinden eines Stichwortes in möglichst vielen fertig vorbereiteten Verbindungen und möglichst wirksamer Ausschluß von Übersetzungsfehlern, besonders wenn zwischen mehrfachen Bedeutungen desselben Stichwortes gewählt werden muß. Im Verfolg dieser Ziele ist das Werk im wahrsten Sinne aus der Praxis entstanden. Dementsprechend ist es auch für die Praxis als Nachschlagewerk für den Alltagsgebrauch bestimmt. An seiner Schaffung haben Menschen des Berufs- und Geschäftslebens mit praktischen Erfahrungen mitgewirkt. Der Entwicklung der drei Sprachen folgend, wurde der Text durch Aufnahme neuer Fachausdrücke und Wendungen bedeutend erweitert und auf den neuesten Stand gebracht. Hierbei wurden auch die im Bereich der internationalen Organisationen - insbesondere der Europäischen Gemeinschaften - entwickelten und gebräuchlichen Ausdrücke und Begriffe miteinbezogen. Cambridge Yearbook of European Legal Studies provides a forum for the scrutiny of significant issues in EU Law, the Law of the Council of Europe, and Comparative Law with a 'European' dimension, and particularly those issues which have come to the fore during the year preceding publication. The contributions appearing in the collection are commissioned by the Centre for European Legal Studies (CELS) Cambridge, a research centre in the Law Faculty of the University of Cambridge specialising in European legal issues. The papers presented are all at the cutting edge of the fields which they address, and reflect the views of recognised experts drawn from the University world, legal practice, and the civil services of both the EU and its Member States. Inclusion of the comparative dimension brings a fresh perspective to the study of European law, and highlights the effects of globalisation of the law more generally, and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders. The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration. **INDIVIDUAL CHAPTERS** Please click on the link below to purchase individual chapters from Volume 9 through Ingenta Connect: www.ingentaconnect.com **SUBSCRIPTION TO SERIES** To place an annual online subscription or a print standing order through Hart Publishing please click on the link below. Shaping Claims to Urban Land Fons van Overbeek, 2022-10-03 The concept of 'hybridity' is often still poorly theorized and problematically applied by peace and development scholars and researchers of resource governance. This book turns to a particular ethnographic reading of Michel Foucault's Governmentality and investigates its usefulness to study precisely those mechanisms, processes and practices that hybridity once promised to clarify. Claim-making to land and authority in a post-conflict environment is the empirical grist supporting this exploration of governmentality. Specifically in the periphery of Bukavu. This focus is relevant as urban land is increasingly becoming scarce in rapidly expanding cities of eastern Congo, primarily due to internal rural-to-urban migration as a result of regional insecurity. The governance of urban land is also important analytically as land governance and state authority in Africa are believed to be closely linked and co-evolve. An ethnographic reading of governmentality enables researchers to study hybridization without biasing analysis towards hierarchical dualities. Additionally, a better understanding of hybridization in the claim-making practices may contribute to improved government intervention and development assistance in Bukavu and elsewhere.

Legal Aspects of Crowdfunding Caroline Kleiner, 2021-11-05 This book offers a comparative perspective on 18 countries' legal regulation of crowdfunding. In the wake of the financial crises of 2008, use of this alternative financing method has increased substantially, in various forms. Whereas some states have adopted tailor-made regimes in order to regulate but also encourage this way of financing projects, allowing loans to be made by non-banking institutions, others still haven't specifically addressed the subject. An analysis of these diverse legislative stances offers readers a range of legal solutions for managing crowdfunding activities with regard to e.g. protecting investors, imposing limits on project owners, and finally the role and duties of intermediaries, i.e., companies operating crowdfunding platforms. In addition, the content presented here provides a legal basis for states and supranational organizations interested in regulating this phenomenon to achieve more legal certainty.

An Empirical Investigation of the Role of Legal Origin on the Performance of Property Stocks Within the Context of a Tactical Asset Allocation Strategy Christopher Shun, 2005-07-06 The role of legal origin was first introduced in the Law and Finance Literature by La Porta et al. (1997) in an original study of legal determinants of external finance. Their study is timely given that investor protection is crucial because in many countries, expropriation of minority shareholders and creditors by controlling shareholders or corporate insiders is extensive. This dissertation intends to replicate the original La Porta et al. (1997) study for Property stocks in 23 countries whose legal jurisdictions falls into the four of the legal fraternities established by La Porta namely, English, French, German and Scandinavian. The primary motivations for this thesis, is that the Property stocks broadly captures several critical aspects of the original La Porta study. Specifically, Property stocks are very tangible assets that can easily be collateralised due to the direct property underpinning the net asset backing of Property stocks. The end result of this research endeavour is to provide a framework for institutional portfolio investors to determine the appropriate countries whose real estate markets have the most favourable investor climate to facilitate a more attractive environment for institutional investors given the Means Variance Optimisation (MVO) methodology. A tactical asset

allocation strategy will be employed to determine the three stages that a global investor should undertake to arrive at the optimum proportions of funds to invest in Common stocks or Real Estate stocks in any country firstly based on an Emerging/Developed country analysis then secondly, a geographic Regional analysis and finally on Legal Origin analysis to distil the appropriate proportions of funds that should be invested. This Dissertation has three original contributions, which are as follows: 1) An Empirical investigation of role of Legal origin on the performance of Real Estate stocks within the context of a tactical asset allocation strategy. This dissertation studies the impact that Developed versus Emerging, Regional markets and Legal Origin jurisdictions have on the results of the optimal MVO portfolios (based on the highest Sharpe ratio) and presents the research findings of this study, at the Primary, Secondary and Tertiary levels. This dissertation is envisaged to fill the research gap between legal origin and the performance of Property stocks across four legal fraternities in 23 countries and make an original contribution in the Law & Finance and Portfolio Management Literature. 2) ACTIVE (Ex-Ante) versus PASSIVE (naïve) portfolio management strategy. The original contribution is the application of this methodology to property stocks specifically within a Legal Origin and Regional market framework. Data is collated from 1984 to 2003 (20 years inclusive) from 23 countries with specific reference to the Common and Real Estate stocks markets therein. A 5 year rolling Ex-Post analysis is computed to determine the optimum allocation weights in a multi-asset portfolio and subsequently an Ex-Ante analysis (next immediate year) of the portfolio weights applied to an Actively managed portfolio. This portfolio will be compared with actual portfolio performance from 1989 to 2002 (fifteen subsequent years) to determine

whether the Ex-ANTE methodology which underpinned the Active management strategy is preferred over a Passive (equal investment in each asset class) strategy for real estate stocks portfolio management. The Ex-Ante analysis will be undertaken at two stages: Firstly, Legal Origin markets and Secondly, Regional markets. 3) A replication of the Gordon et al. (1995) study which determined the appropriate percentage based on the Markowitz Portfolio Theory (MPT) that should be invested in the Real Estate stock markets in 14 countries. The original contribution is the application of Gordon s methodology to the Legal Origin markets proposed by La Porta et al. (1997). This research study encompasses 23 c

Between Ideology and Utopia A. Liebich, 2012-12-06 Nineteenth-century European intellectual history has given rise to such varied and abundant research that one is surprised to find certain important problems long identified and yet still relatively unexplored. Such is the case for certain aspects of the crucial transition from Hegel to Marx, for minority tendencies among French socialists and for the Messianic phenomenon, national and religious, so central to the period, particularly in Eastern Europe, and so rarely studied in detail. Certainly, these lacunae are exemplified by the absence of any comprehensive work on August Cieszkowski whose overall contribution to the history of the period may be marginal but whose specific role in each of the areas mentioned is both significant in itself and illustrative of certain wider problems. Cieszkowski first achieved recognition as the author of the *Prolegomena zur Historiosophie* in 1838. This short tract never became popular among the Berlin Hegelians for whom it was intended but it affected a number of radical intellectuals outside their circle. His next work, *Gott und Palingenesie*, was a defense of personal immortality against Hegelian revisionism. The following year, however, he founded as

a bulwark of the Hegelian school the Philosophische Gesellschaft against external critics and internal dissolution.
