The Gentrification of Queer Activism Olimpia Burchiellaro, 2023-07-13 In the 2010s, London's LGBTQ+ scene was hit by extensive venue closures. For some, this represented the increased inclusion of LGBTQ+ people in society. For others, it threatened the city's status as a 'global beacon of diversity' or merely reaffirmed the hostility of London's neoliberal landscapes. Navigating these competing realities, Olimpia Burchiellaro explores the queer politics of LGBTQ+ inclusion in London. Drawing on ethnographic research conducted with activists, professionals and LGBTQ-friendly businesses, the author reveals how gender and sexuality come to be reconfigured in the production and consumption of LGBTQ+ inclusion and its promises. Giving voice to queer perspectives on inclusion, this is an important contribution to our understanding of urban policy, nightlife, neoliberalism and LGBTQ+ politics.

Lean Out Elissa Shevinsky, 2015-09-03 Why aren't the great, qualified women already in tech being hired or promoted? Should people who don't fit in seek to join an institution that is actively hostile to them? Does the tech industry deserve women leaders? The split between the stated ideals of the corporate elite and the reality of working life for women in the tech industry—whether in large public tech companies or VC-backed start-ups, in anonymous gaming forums, or in Silicon Valley or Alley—seems designed to crush women's spirits. Corporate manifestos by women who already fit in (or who are able to convincingly fake it) aren't helping. There is a high cost for the generation of young women and transgender people currently navigating the harsh realities of the tech industry, who gave themselves to their careers only to be ignored, harassed and disrespected. Not everyone can be a CEO; not everyone is able to embrace a workplace culture that diminishes the contributions of women and ignores real complaints. The very culture of high tech, where foosball tables and endless supplies of beer are de facto perks, but maternity leave and breast-feeding stations are controversial, is designed to appeal to young men. *Lean Out* collects 25 stories from the modern tech industry, from people who fought GamerGate and from women and transgender artists who have made their own games, from women who have started their own companies and who have worked for some of the most successful corporations in America, from LGBTQ women, from women of color, from transgender people and people who do not ascribe to a gender. All are fed up with the glacial pace of cultural change in America's tech industry. Included are essays by Anna Anthropy, Leigh Alexander, Sunny Allen, Lauren Bacon, Katherine Cross, Dom DeGuzman, FAKEGRIMLOCK, Krys Freeman, Gesche Haas, Ash Huang, Erica Joy, Jenni Lee, Katy Levinson, Melanie Moore, Leanne Pittsford, Brook Shelley, Elissa Shevinsky, Erica Swallow, and Squinky. Edited and selected by entrepreneur and tech veteran Elissa Shevinsky, *Lean Out* sees a possible way forward that uses tech and creative disengagement to jettison 20th century corporate culture: "I've figured out a way to create safe space for myself in tech," writes Shevinsky. "I've left Silicon Valley, and now work remotely from home. I adore everyone on my team, because I hired them myself."

Inside, learn why Tony Kushner quit cello and how Colm Toibin found his voice, why Emma Donoghue calls her experience a fluke and the best advice Bill T. Jones got was from his mother, and also how being an inaugural poet changed Richard Blanco's life and how Ugandan activist "LongJones" escaped death threats and gained asylum. But you will also see other stories, like the bravery of a Uruguayan author who was rejected by her immediate family even as she began a family of her own. Be inspired by the audacity to fight for justice that motivates National Center for Lesbian Rights Executive Director Kate Kendell, a Mormon who grew up in Utah. Learn how two couples transcend time and distance to finally be together and how one NBA sports executive summoned the courage to come out. Discover the message of love from the first openly lesbian United Methodist Church Bishop. Learn the secrets of a successful, out IBM executive based in London and the rewards of Ballroom Basix founder in Harlem. See how the Maori philosophy of whanau guided the MP who won marriage rights in New Zealand and how high expectations overcame disability and bullying for an acclaimed mezzo-soprano. Meet the professional violinist and composer impacted by family tensions and the Armenian Genocide. Read about the ballroom dancers and Hungarian activists on neo-Nazi "hit lists." *Pride & Joy* shows why there is hope it gets better for everyone in the queer community, including: The transgender choreographer and dancer who continues to break rules and enlighten audiences The Dutch singer, songwriter and independent theater producer who breaks down stereotypes The founder of an award-winning smoking cessation program The California political director of the Obama re-election campaign The Russian émigré award-winning computer scientist and the Chinese folk dancer

Queer Technologies Katherine Sender, Adrienne Shaw, 2017-06-26 Queer media studies has mostly focused on lesbian, gay, bisexual, transgender, and queer (LGBTQ) visibility, stereotypes, and positive images, but media technologies aren't just vehicles for representations, they also shape them. How can queer theory and queer methodologies complicate our understanding of communication technologies, their structures and uses, and the cultural and political implications of these? How can queer technologies inform debates about affect, temporality, and publics? This book presents new scholarship that addresses queer media production and practices across a wide range of media, including television, music, zines, video games, mobile applications, and online spaces. The authors consider how LGBTQ representations and reception are shaped by technological affordances and constraints. Chapters deal with critical contemporary concepts such as counterpublics, affect, temporality, nonbinary practices, queer technique, and transmediation to explore intersections among communication and media studies and cutting-edge queer and transgender theory. This collection moves beyond considering LGBTQ representations as they appear in media to consider the central role of technologies in understanding intersections among gender, sexuality, and media. Even the most heteromale technologies can be queered, yet we can't assume queerness works in the same way across different media. Emergent media technologies afford queer worldmaking, but these worlds are forged between normalization and niche marketing. This book was originally published as a special issue of *Critical Studies in Media Communication*.

Design Justice Sasha Costanza-Chock, 2020-03-03 An exploration of how design might be led by marginalized communities, dismantle structural inequality, and advance collective liberation and ecological survival. What is the relationship between design, power, and social justice? "Design justice" is an approach to design that is led by marginalized communities and that aims explicitly to challenge, rather than reproduce, structural inequalities. It has emerged from a growing community of designers in various fields who work closely with social movements and

community-based organizations around the world. This book explores the theory and practice of design justice, demonstrates how universalist design principles and practices erase certain groups of people—specifically, those who are intersectionally disadvantaged or multiply burdened under the matrix of domination (white supremacist heteropatriarchy, ableism, capitalism, and settler colonialism)—and invites readers to “build a better world, a world where many worlds fit; linked worlds of collective liberation and ecological sustainability.” Along the way, the book documents a multitude of real-world community-led design practices, each grounded in a particular social movement. Design Justice goes beyond recent calls for design for good, user-centered design, and employment diversity in the technology and design professions; it connects design to larger struggles for collective liberation and ecological survival.

Information Activism Cait McKinney, 2020-07-17 For decades, lesbian feminists across the United States and Canada have created information to build movements and survive in a world that doesn't want them. In *Information Activism* Cait McKinney traces how these women developed communication networks, databases, and digital archives that formed the foundation for their work. Often learning on the fly and using everything from index cards to computers, these activists brought people and their visions of justice together to organize, store, and provide access to information. Focusing on the transition from paper to digital-based archival techniques from the 1970s to the present, McKinney shows how media technologies animate the collective and unspectacular labor that sustains social movements, including their antiracist and trans-inclusive endeavors. By bringing sexuality studies to bear on media history, McKinney demonstrates how groups with precarious access to control over information create their own innovative and resourceful techniques for generating and sharing knowledge.

Horse Barbie Geena Rocero, 2023-05-30 The heartfelt memoir of a trans pageant queen from the Philippines who went back into the closet to model in New York City—until she realized that living her truth was the only way to step into her full power. “Packed with grit, ferocity, and grace, Geena Rocero’s story proves that embracing who you are—in all your complexity, and in a world that often seems to think you’re simply not allowed—is a truly revolutionary act.”—Gabrielle Union-Wade As a young femme in 1990s Manila, Geena Rocero heard, “Bakla, bakla!,” a taunt aimed at her feminine sway, whenever she left the tiny universe of her eskinita. Eventually, she found her place in trans pageants, the Philippines’ informal national sport. When her competitors mocked her as a “horse Barbie” due to her statuesque physique, tumbling hair, long neck, and dark skin, she leaned into the epithet. By seventeen, she was the Philippines’ highest-earning trans pageant queen. A year later, Geena moved to the United States where she could change her name and gender marker on her documents. But legal recognition didn’t mean safety. In order to survive, Geena went stealth and hid her trans identity, gaining one type of freedom at the expense of another. For a while, it worked. She became an in-demand model. But as her star rose, her sense of self eroded. She craved acceptance as her authentic self yet had to remain vigilant in order to protect her dream career. The high-stakes double life finally forced Geena to decide herself if she wanted to reclaim the power of Horse Barbie once and for all: radiant, head held high, and unabashedly herself. A dazzling testimony from an icon who sits at the center of transgender history and activism, Horse Barbie is a celebratory and universal story of survival, love, and pure joy.

A Trans Feminist's Past Forest Handford, 2021-06-09 Forest Handford was brought up male, but never felt comfortable with that gender. As early as preschool, it was clear that she had interests and habits that were considered feminine. While Forest has supportive parents, they didn't have the knowledge to alert them that she was transgender, a word that wasn't even widely known until long after Forest was an adult. What little information Forest found about being trans was misleading and harmful. It took cosplaying her favorite Dr. Who character, Clara Oswald, in 2018 for her to find acceptance in feminine clothes. Forest soon discovered that she met the definition of transgender. For a short time, Forest considered herself genderfluid because she didn't believe transition was possible due to misinformation she had been taught to believe. A non-binary friend of Forest's mentioned that their therapist had recommended that they try hormone replacement therapy (HRT). Curious why a therapist would make such a recommendation, Forest did some research that revealed that not only was transition possible for her but that trying a small dose of HRT was a safe way to determine if it could help with her gender dysphoria. Forest's transition began when trans rights were under attack in her state of residence (Massachusetts). In 2018, Forest knew multiple trans folk who were fired due to their gender identity. Forest had to balance her trans rights advocacy against her safety as a frequent business traveler to Egypt, where being LGBT comes with a 10-year prison sentence. Forest's memoir covers details of her life and the historical context in which it has been lived. Many of the stories in this book reveal the challenges of being feminine. While those challenges were painful, and some aspects of transitioning during her midlife were difficult, she values the views she has had on both sides of male privilege. She uses this rare perspective as an analogy for her understanding of white privilege. While many trans stories exist, Forest's perspectives as an Eagle Scout, as somebody who lived in Egypt, and someone who transitioned while in a management position, bring new dimensions to the space, further illustrating that there is no single trans narrative.

The Wake Up Michelle MiJung Kim, 2021-09-28 This informative guide helps allies who want to go beyond rigid Diversity and Inclusion best practices, with real tools to go from good intentions to making meaningful change in any situation or venue. 2022 NAUTILUS BOOK AWARDS GOLD WINNER 2022 NATIONAL ANTIRACIST BOOK FESTIVAL SELECTION 2021 PORCHLIGHT PERSONAL DEVELOPMENT & HUMAN BEHAVIOR BOOK OF THE YEAR As we become more aware of various social

injustices in the world, many of us want to be part of the movement toward positive change. But sometimes our best intentions cause unintended harm, and we fumble. We might feel afraid to say the wrong thing and feel guilt for not doing or knowing enough. Sometimes we might engage in performative allyship rather than thoughtful solidarity, leaving those already marginalized further burdened and exhausted. The feelings of fear, insecurity, inadequacy are all too common among a wide spectrum of changemakers, and they put many at a crossroads between feeling stuck and giving up, or staying grounded to keep going. So how can we go beyond performative allyship to creating real change in ourselves and in the world, together? In *The Wake Up*, Michelle MiJung Kim shares foundational principles often missing in today's mainstream conversations around "diversity and inclusion," inviting readers to deep dive into the challenging and nuanced work of pursuing equity and justice, while exploring various complexities, contradictions, and conflicts inherent in our imperfect world. With a mix of in-the-trenches narrative and accessible unpacking of hot button issues—from inclusive language to representation to cancel culture—Michelle offers sustainable frameworks that guide us how to think, approach, and be in the journey as thoughtfully and powerfully as possible. *The Wake Up* is divided into four key parts: **Grounding**: begin by moving beyond good intentions to interrogating our deeper "why" for committing to social justice and uncovering our hidden stories. **Orienting**: establish a shared understanding around our historical and current context and issues we are trying to solve, starting with dismantling white supremacy. **Showing Up**: learn critical principles to approach any situation with clarity and build our capacity to work through complexity, nuance, conflict, and imperfections. **Moving Together**: remember the core of this work is about human lives, and commit to prioritizing humanity, healing, and community. *The Wake Up* is an urgent call for us to move together while seeing each other's full and expansive humanity that is at the core of our movement toward justice, healing, and freedom.

A Queer New York Jen Jack Gieseke, 2020-09-15 Winner, 2021 Glenda Laws Award given by the American Association of Geographers The first lesbian and queer historical geography of New York City Over the past few decades, rapid gentrification in New York City has led to the disappearance of many lesbian and queer spaces, displacing some of the most marginalized members of the LGBTQ+ community. In *A Queer New York*, Jen Jack Gieseke highlights the historic significance of these spaces, mapping the political, economic, and geographic dispossession of an important, thriving community that once called certain New York neighborhoods home. Focusing on well-known neighborhoods like Greenwich Village, Park Slope, Bedford-Stuyvesant, and Crown Heights, Gieseke shows how lesbian and queer neighborhoods have folded under the capitalist influence of white, wealthy gentrifiers who have ultimately failed to make room for them. Nevertheless, they highlight the ways lesbian and queer communities have succeeded in carving out spaces—and lives—in a city that has consistently pushed its most vulnerable citizens away. Beautifully written, *A Queer New York* is an eye-opening account of how lesbians and queers have survived in the face of twenty-first century gentrification and urban development.
