**No More Teaching a Letter a Week** Rebecca McKay,William H. Teale,2015 Letter-a-week may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In No More Teaching a Letter a Week, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a B; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.

Letter Tracing Workbook For Preschoolers And Toddlers Activity Treasures,2021-09-26 Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take them on an exciting journey through ABC with: Letter Tracing Workbook For Preschoolers And Toddlers: A Fun ABC Practice Workbook To Learn The Alphabet For Preschoolers And Kindergarten Kids! Lots Of Writing Practice And Letter Tracing For Ages 3-5 Writing is one of the first skills children learn in school. The time of wild scribbling has come to an end, and suddenly, clear lines are to be formed into letters and words. However, this is not easy for everyone. While some children start off eagerly and soon develop a certain feeling for pencil guidance, others need a little more help and time to get there. It is perfectly normal that some letters are easier to translate than others. After all, an I is much simpler than G or an M, for example. As your child learns with each letter - whether easy or challenging - he or she will gradually develop the skills needed to write even tricky letters with confidence. The learning process must be lined with as many successes as possible to boost your child's motivation to learn. This book, therefore, proceeds step by step. The individual lower and upper case letters - from A to Z - are presented one after the other. Ideally, the next letter should be started when the previous one has already been memorized. For this reason, learning each letter is divided into three simple steps: Tracing: Every letter is a new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. If your child is still struggling after the first pass, the process can easily be repeated with a new pen in a different color. Add Word: This is followed by a word containing the letter they have just learned. So your child learns to put the letter in a word. Encourage them to read the word aloud - this will directly practice the corresponding sound. Independent writing: Finally, they are ready to write the letters freely and without pre-drawn lines. Of course, auxiliary lines are still provided to help them place the letter at the correct height. A quick look at the most important facts of the book: Great preparation for pre-school and kindergarten A fun way to learn the printed letters from Aa to Zz Promotes correct pen management and concentration Over 100 pages of writing exercise Lots of space for free practice and lovely designs Get this book NOW!

**Letter And Number Tracing Book For Kids Ages 3-5** Activity Treasures,2021-08-06 Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take your child on an exciting journey through the entire ABC and all the numbers from 0 to 30 with: Letter And Number Tracing Book For Kids Ages 3-5: A Fun Practice Workbook To Learn The Alphabet And Numbers From 0 To 30 For Preschoolers And Kindergarten Kids! This exercise book introduces your child to writing letters and numbers in a playful and age-appropriate manner that will help him or her get to know the alphabet and the numbers 0 to 30. In this way, children are guided and optimally prepared for pre-school and primary school. The book is divided into sections: numbers and letters. The learning process is guided as follows: Letters Every letter is new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height. In both areas, learning takes place in a meaningful and reliable structure that gives your child security and constantly encourages them to see their own progress. Parents can help their children work through this exercise book and provide the necessary support. After all, writing is not easy for every child. Parents should keep a special eye on the correct pen position and hand guidance and celebrate every milestone with their child. For both numbers and letters, encourage your child to speak out loud about what he or she has learned. The more senses are involved in the learning process, the faster and easier it is to learn. By completing this exercise book, your child will be able to write the lower and upper

case letters from A to Z, as well as the numbers 0 to 30. It is especially important that your child can work and learn at their own pace. This is the only way to keep the fun and become more confident in writing from letter to letter, or from number to number. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 and the letters A to Z Designed and sensibly structured to suit children Promotes correct pen management and concentration Lots of space for free practice Lovely designs Combine play with learning. Benefit from Letter And Number Tracing Book For Kids Ages 3-5 and accompany your child within a meaningful structure on the way to writing letters and numbers! Get this book NOW!
