Financial Exclusion and the Poverty Trap Paul Mosley, Pamela Lenton, 2012-02-27 The persistence of poverty hurts us all, and attacking poverty is a major policy objective everywhere. In Britain, the main political parties have an anti-poverty mandate and in particular an agreed commitment to eliminate child poverty by 2020, but there is controversy over how this should be done. This book addresses one of the main causes of poverty, financial exclusion – the inability to access finance from the high-street banks. People on low or irregular incomes typically have to resort to loan sharks, ‘doorstep lenders’ and other informal credit sources, a predicament which makes escape from the poverty trap doubly difficult. Over the last fifteen years, a strategy of breaking down the poverty trap has been implemented, known in the UK as community development financial institutions (CDFIs), typically non-profit lending institutions focussed on the financially excluded, and seeking to learn from the achievements of microfinance around the world. Focussing on the period 2007-09, during which the UK went into a global recession, this book investigates how CDFIs work and how well they have helped low-income people and businesses to weather that recession. Based on a study of eight CDFIs in four UK cities, we ask: what ideas for overcoming financial exclusion have worked well, and which have worked badly? What can we learn from the experience of these CDFIs which can help reduce poverty in this country and globally? We assess the impact of CDFIs using a range of indicators (including income, assets, education, health) and ask what changes in policy by both CDFIs and government agencies (for example, benefits agencies) might be able to increase impact. Some of the key lessons are: CDFIs need to work with appropriate partners to build up savings capacity in their clients; the community environment is vital in determining who escapes from the poverty trap; and CDFIs can never function properly unless they learn how to control their overdue debts. This book will be vital reading for those concerned with social policy, microfinance and anti-poverty policies in industrialised countries and around the world.

Death Traps Belton Y. Cooper, 2007-12-18 “An important contribution to the history of World War II . . . I have never before been able to learn so much about maintenance methods of an armored division, with precise details that underline the importance of the work, along with descriptions of how the job was done.”—Russell F. Weigley, author of *Eisenhower's Lieutenants* “Cooper saw more of the war than most junior officers, and he writes about it better than almost anyone. . . . His stories are vivid, enlightening, full of life—and of pain, sorrow, horror, and triumph.”—Stephen E. Ambrose, from his Foreword “In a down-to-earth style, *Death Traps* tells the compelling story of one man's assignment to the famous 3rd Armored Division that spearheaded the American advance from Normandy into Germany. Cooper served as an ordnance officer with the forward elements and was responsible for coordinating the recovery and repair of damaged American tanks. This was a dangerous job that often required him to travel alone through enemy territory, and the author recalls his service with pride, downplaying his role in the vast effort that kept the American forces well equipped and supplied. . . . [Readers] will be left with an indelible impression of the importance of the support troops and how dependent combat forces were on them.”—Library Journal “As an alumnus of the 3rd, I eagerly awaited this book's coming out since I heard of its release . . . and the wait and the book have both been worth it. . . . Cooper is a very polished writer, and the book is very readable. But there is a certain quality of ‘you are there’ many other memoirs do not seem to have. . . . Nothing in recent times—ridgerunning in Korea, firebases in Vietnam, or even the one hundred hours of Desert Storm—pressed the ingenuity and resolve of American troops . . . like WWII. This book lays it out better than any other recent effort, and should be part of the library of any contemporary warrior.”—Stephen Sewell, *Armor Magazine* “Cooper's writing and recall of harrowing events is superb and engrossing. Highly recommended.”—Robert A. Lynn, *The Stars and Stripes* “This detailed story will become a classic of WWII history and required reading for anyone interested in armored warfare.”—Publishers Weekly (starred review) “[*Death Traps*] fills a critical gap in WWII literature. . . . It's a truly unique and valuable work.”—G.I. Journal

Lewis & Clark, Tailor Made, Trail Worn Robert John Moore, Michael Haynes, 2003 When the Lewis and Clark Expedition crossed a continent in 1803 to 1806, they started out in U.S. Army uniforms, which gradually had to be replaced with simple leather garments. For parts of those uniforms, only a single drawing, pattern, or example survives. Historian Moore and artist Haynes have researched archives and museums to locate and verify what the men wore, and Haynes has painted and sketched the clothing in scenes of the trip. Also included are Indian styles the men adopted, and the wardrobes of the Creole interpreters and the French boatmen. Weapons and accessories round out this complete record of what the expedition wore or carried--and why. A great reference for artists, living

history performers, museums, and military historians.
