**The Debt Trap** Sebastien Canderle, 2016-09-19 This is the inside story of private equity dealmaking. Over the last 40 years, LBO fund managers have demonstrated that they are good at making money for themselves and their investors. But when one looks beneath the surface of the transactions they engineer, it is apparent that these deals can, at times, go spectacularly wrong. Through 14 business stories, all emanating from the noughties' credit bubble and including headline-grabbing names like Caesars, Debenhams, EMI, Hertz, Seat Pagine Gialle and TXU, The Debt Trap shows how, via controversial practices like quick flips, repeat dividend recaps, heavy cost-cutting and asset-stripping, leveraged buyouts changed, for better or for worse, the way private companies are financed and managed today. From technological disruption in the worlds of music recording and business-directory publishing to economic turbulence in the gambling, real estate and energy sectors, highly levered corporations are often incapable of handling market corrections when debt commitments start piling up. Behind the historical events and the financial empires erected by some of the elite private equity specialists, these 14 in-depth case studies examine how value-maximising techniques and a short-cut mentality can impact investment returns and portfolio assets. Whether you are a PE practitioner, investor, business manager, academic or business student, you will find The Debt Trap to be an authoritative and fascinating account.

**The Credit Trap** Anthony Clinkscales, 2008-04-16 Getting out of the credit trap is taking the path to becoming debt-free. Continuous borrowing will only keep you subjugated to lenders. You will be diminishing the quality of your life because you will be paying creditors forever. People are programmed to think like borrowers. That's why borrowing money can be looked at as something that controls you. Whatever you think about the most will be the force that drives you in life. Being a BORROWER or a LENDER: which are you constantly thinking about? If you desire to stop borrowing money you have to start thinking like a lender?

**The Aid Trap** R. Glenn Hubbard, William Duggan, 2009-08-31 Over the past twenty years more citizens in China and India have raised themselves out of poverty than anywhere else at any time in history. They accomplished this through the local business sector the leading source of prosperity for all rich countries. In most of Africa and other poor regions the business sector is weak, but foreign aid continues to fund government and NGOs. Switching aid to the local business sector in order to cultivate a middle class is the oldest, surest, and only way to eliminate poverty in poor countries. A bold fusion of ethics and smart business, The Aid Trap shows how the same energy, goodwill, and money that we devote to charity can help local business thrive. R. Glenn Hubbard and William Duggan, two leading scholars in business and finance, demonstrate that by diverting a major share of charitable aid into the local business sector of poor countries, citizens can take the lead in the growth of their own economies. Although the aid system supports noble goals, a local well-digging company cannot compete with a foreign charity that digs wells for free. By investing in that local company a sustainable system of development can take root.

*The Marriage Trap* Elizabeth Thornton, 2005-06-28 Nationally bestselling author Elizabeth Thornton returns with a wickedly tempting new tale of scandal, intrigue, and daring proposals. . . . From dueling at dawn to fighting at Waterloo, Jack Rigg, Earl of Raleigh, has seen his share of danger. But now he faces his greatest fear: wedlock by ambush. It began in Paris, when he rescued an alluring cardsharp named Aurora from a tavern brawl. In the safety of Jack's rooms they shared a passionate embrace. He never suspected their compromising encounter would change his life completely. . . . The idea that a poor vicar's daughter should marry Jack Rigg might be amusing—if it weren't so imperative. When she last saw Jack, Ellie Hill was disguised as "Aurora," indulging her gift for gaming. Now she's in trouble with the law—and Jack is her alibi. She must hope he'll be more of a gentleman than he was to Aurora. But as they forge an unlikely and increasingly amorous alliance, someone with a deadly agenda wants to end their union before it begins.

*The Empire Trap* Noel Maurer, 2013-08-25 Throughout the twentieth century, the U.S. government willingly deployed power, hard and soft, to protect American investments all around the globe. Why did the United States get into the business of defending its citizens' property rights abroad? The *Empire Trap* looks at how modern U.S. involvement in the empire business began, how American foreign policy became increasingly tied to the sway of private financial interests, and how postwar administrations finally extricated the United States from economic interventionism, even though the government had the will and power to continue. Noel Maurer examines the ways that American investors initially influenced their government to intercede to protect investments in locations such as Central America and the Caribbean. Costs were small—at least at the outset—but with each incremental step, American policy became increasingly entangled with the goals of those they were backing, making disengagement more difficult. Maurer discusses how, all the way through the 1970s, the United States not only failed to resist pressure to defend American investments, but also remained unsuccessful at altering internal institutions of other countries in order to make property rights secure in the absence of active American involvement. Foreign nations expropriated American investments, but in almost every case the U.S. government's employment of economic sanctions or covert action obtained market value or more in compensation—despite the growing strategic risks. The advent of institutions focusing on international arbitration finally gave the executive branch a credible political excuse not to act. Maurer cautions that these institutions are now under strain and that a collapse might open the empire trap once more. With shrewd and timely analysis, this book considers American patterns of foreign intervention and the nation's changing role as an imperial power.

Debattista on Bills of Lading in Commodities Trade Charles Debattista, Francis Hornyold-Strickland, 2021-04-23 Debattista on Bills of Lading in Commodity Trade provides not so much a linear road-map as a GPS system, allowing the reader to locate which aspect of the bill of lading is central to the dispute they are dealing with and evaluating that aspect from the perspective of each of: (1) the contract of sale; (2) carriage contract and (3) letter of credit. The title examines questions such as: How can a buyer ensure in their sale contract that the bill of lading the buyer receives from the seller gives them secure title to sue the carrier? What impact does the choice of a particular Incoterms rule have on whom the carrier can sue under the contract of carriage? Where there is a claim by a buyer/cargo-claimant for loss, damage or delay to goods, must they factor any gains or benefits made under the sale contract claim/settlement into the quantum claimed in the cargo-claim against the carrier? What is a 'charterparty bill of lading' - and can it be tendered under a letter of credit? When and why might a seller need to "switch" bills of lading for its buyer or its bank - and does the seller have a right to demand the switching of bills under the Hague-Visby Rules? All of these questions -

and many others like them – cut across areas of law normally siloed in academic and practitioner texts. The purpose of this title is to make links and draw out connections, with a view to assisting lawyers when a dispute arises – and others drafting different contracts seeking to avoid problems arising in the first place. The fourth edition of this work, now bearing a new title and benefitting from the arrival of a co-author, has been fully revised to take account of case-law and regulatory developments in the twelve years since the last edition.
