### **Leveraging Communities of Practice for Strategic Advantage**

Hubert Saint-Onge, Debra Wallace, 2012-07-26 How can you build a successful community of practice that is integrally linked to your company's strategic vision? Learn from the first-hand experience of Hubert Saint-Onge, recognized by Fortune magazine as a leader in the field of knowledge capital, and co-author Debra Wallace, the people responsible for a recent project to establish a community of practice for independent agents at Clarica Life Insurance Company— voted one of the most admired knowledge enterprises in the world by practitioners and researchers. 'Leveraging Communities of Practice for Strategic Advantage' combines theory and practice to outline a model for developing successful communities of practice and proposes a direction for establishing communities of practice as an integral part of the organizational structure. Saint-Onge and Wallace relate what worked, what didn't, and why as they tell the story from inception through implementation to assessment. Whether you're developing communities of practice or want to learn how to leverage existing communities for strategic gain, this book provides you with everything you need to launch successful communities of practice in your organization.

### **Strategic Event Leveraging** Vassilios Ziakas, 2021-10-25

This book comprehensively describes, explains, critiques and refines our current perspectives of event leveraging and, in so doing, provides an analytic account of the subject area as a whole, as it concerns the strategic pursuit of attaining and magnifying benefits that derive from events. Encompassing all events including sport, cultural and business, it also covers all kinds of benefits that can be leveraged and lead to sustainability through triple-bottom-line assessment. The book takes an

interdisciplinary approach to cross boundaries and creates linkages among the parent disciplines (sport management; events, hospitality and tourism; leisure studies, parks and recreation) and general disciplines (management, marketing, sociology, anthropology, urban and regional planning). Building a truly global and transdisciplinary framework, the author provides direction and possibilities that can lead to new forms of leveraging, making this an excellent resource for researchers, practitioners and students interested in event management and policy, sport management, recreation and leisure, and hospitality, tourism and festival management.

**Smart Communities** Suzanne W. Morse, 2009-10-30 Based on the results of more than a decade of research by the Pew Partnership for Civic Change, Smart Communities provides directions for strategic decision-making and outlines the key strategies used by thousands of leaders who have worked to create successful communities. Smart Communities offers leaders from both the public and private sectors the tools they need to create a better future for all the community's citizens. Using illustrative examples from communities around the country, Smart Communities shows how these change agents' well-structured decision-making processes can be traced to their effective use of seven key leverage points: Investing right the first time Working together Building on community strengths Practicing democracy Preserving the past Growing leaders Inventing a brighter future

**Japan's Search for Strategic Security Partnerships** Gauri Khandekar, Bart Gaens, 2018-01-02 As tensions between China and Japan increase, including over the disputed islands in the East China Sea, Japan has adopted under Prime Minister Abe a new security posture. This involves, internally, adapting Japan's constitutional

position on defence and, externally, building stronger international relationships in the Asia-Pacific region and more widely. This book presents a comprehensive analysis of these developments. It shows how trust and co-operation with the United States, the only partner with which Japan has a formal alliance, is being rebuilt, discusses how other relationships, both on security and on wider issues, are being formed, in the region and with European countries and the EU, with the relationships with India and Australia being of particular importance, and concludes by assessing the likely impact on the region of Japan's changing posture and new relationships.

Impacts and strategic outcomes from non-mega sport events for local communities Marijke Taks, Laurence Chalip, B. Christine Green, 2017-10-02 Do small- and medium-sized sporting events affect the overall wellbeing of people living in the host community? If so, how they do they affect local life? This book specifically addresses the strategic choices that host communities make when hosting non-mega sporting events, and looks at the outcomes of those choices. The contributions to this study assess a variety of tangible and intangible effects, including the economic and social impacts, and the effect on tourism and participation in sport. It contains analysis of a variety of events, including spectator and participant events, single-sport and multi-sport events, and one-day and multi-day events, all hosted in different types of cities and communities around the globe. Overall, this book identifies and extends our understanding of the nature, management, and implications of non-mega sporting events. The impacts and strategic outcomes highlighted here have practical value for sport event management and strategy, and advance our understanding of the economic and social consequences of hosting an event. This book was originally published as a special issue of

European Sport Management Quarterly.

**Political Contexts of Educational Leadership** Jane

Lindle, 2014-02-24 Co-published with UCEA, this exciting new textbook is the first to tackle the ISLLC Standard #6—the political context of education. This unique volume helps aspiring school leaders understand the dynamics of educational policy in multiple arenas at the local, state, and federal levels. By presenting problem-posing cases, theoretical grounding, relevant research, and implications for practice, this book provides aspiring leaders with the background, learning experiences, and analytical tools to successfully promote student success in their contexts. Special features: Case studies - provide an authentic illustration of the political dynamics that emanate from individual, social, economic, and cultural issues surrounding all schools. Suggested activities - further aspiring school leaders' understanding of political issues through experiences Companion website – includes shared resources relevant to all ISLLC standards, along with particular activities for ISLLC Standard #6

**Skills in Neighbourhood Work** Paul Henderson, David N.

Thomas, 2022-12-30 Skills in Neighbourhood Work is a practice textbook. It explains the skills, knowledge and techniques needed by community workers and other practitioners to work effectively in and with communities. While the principles and methods it describes have stood the test of time, the political, economic and social changes which have taken place since the book was first published have made new editions essential. Rewritten and updated to include new practice examples, this fifth edition retains all the practical information

needed by the student or practitioner but sets it in the contemporary context. Including a European perspective and views from North America and Australia, it covers: Starting, supporting and ending work with community groups Evaluation Data collection Goals and priorities Making contacts Group work Helping groups work with other organisations. This invaluable textbook is essential reading for students and practitioners of community work.

*Community Informatics: Enabling Communities with Information and Communications Technologies* Gurstein, Michael, 1999-07-01

Community Informatics is developing as an approach for linking economic and social development efforts at the community level to the opportunities that information and communication's technologies present. Areas such as SMEs and electronic commerce, community and civic networks, electronic democracy and online participation are among a few of the areas affected. *Community Informatics: Enabling Communities with Information and Communications Technologies* is an introduction to the discipline of community informatics. Issues such as trends, controversies, challenges and opportunities facing the community application of information and communications technologies into the millennium are studied.

**Event Management and Sustainability** Razaq Raj, James

Musgrave, 2009 Sustainable management is an important consideration for businesses and organisations. By looking at mega events, sports events, conferences and festivals, this book uses best practice case studies to illustrate sustainable management issues and practical considerations that managers need to apply.

*Culturally Proficient Learning Communities* Delores B.

Lindsey, 2009-09-11 Integrating the four Tools of Cultural Proficiency with the PLC framework, this guide provides school leaders with

practical strategies for building equity-focused PLCs to help all students achieve.

**Creating and Managing a Sustainable Sporting Future** Vassilios Ziakas, Aaron Beacom, 2020-06-09 Creating and Managing a Sustainable Sporting Future contributes to a critical understanding of the challenges key stakeholders across the globe encounter as they seek to manage periods of transition brought about by policy change relating to the provision of sport and physical activity. The book uncovers the global challenges in terms of managing the re-orientation of stakeholder activities and organisational strategies, in response to the aspirations for a wider range of outcomes through sport-based interventions and establishment of partnerships with non-sport sectors. It illuminates the increasingly erratic trajectory of sport development service providers, as the environment within which sport organisations operate changes – through for example, climate change, demographic shifts, changing features of local economies and alterations to the structures of local government and governance – and the responses of sport organisations to these new realities differ greatly depending on location, institutional structures and leadership. The chapters highlight the changing social, economic, environmental and policy contexts within which sports organisations operate, and explain the subsequent need for new approaches to partnership working, physical activity re-scoping and integrated education programming. Showing that the international mandate of creating active lifestyles and subsequent re-orientation of stakeholders towards physical activity cannot only contribute to re-defining sport but also in identifying novel ways for building and managing a sustainable sporting future, *Creating and Managing a Sustainable Sporting Future* is ideal for Sports scholars, and particularly those working on Sport Policy and

Sustainable sport development. This book was originally published as a special issue of *Managing Sport and Leisure*.

### **Language and Cultural Practices in Communities and Schools**

Inmaculada M. García-Sánchez, Marjorie Faulstich Orellana, 2019-09-09  
Drawing on sociocultural theories of learning, this book examines how the everyday language practices and cultural funds of knowledge of youth from non-dominant or minoritized groups can be used as centerpoints for classroom learning in ways that help all students both to sustain and expand their cultural and linguistic repertoires while developing skills that are valued in formal schooling. Bringing together a group of ethnographically grounded scholars working in diverse local contexts, this volume identifies how these language practices and cultural funds of knowledge can be used as generative points of continuity and productively expanded on in schools for successful and inclusive learning. Ideal for students and researchers in teaching, learning, language education, literacy, and multicultural education, as well as teachers at all stages of their career, this book contributes to research on culturally and linguistically sustaining practices by offering original teaching methods and a range of ways of connecting cultural competencies to learning across subject matters and disciplines.

**Office Shock** Bob Johansen, Robert Johansen, Joseph Press, Christine Bullen, 2023-01-17 A thoughtful, practical read about the future of the flexible office. -Adam Grant *Office shock* is an abrupt, unsettling change in where, when, how, and even why we work. In this visionary book, three prominent futurists argue that the office is both a place and a process-offices and officing-with a new range of choices, including what they call the emerging officeverse. To see the possibilities with fresh eyes, we must use future-back thinking to ask,

What is the purpose of your officing? What are the outcomes- especially regarding climate-you want to achieve? With whom do you want to office? How will you augment your intelligence? Where and when will you office? How will you create an agile office? Traditional offices were often unfair, uncomfortable, uncreative, and unproductive. This book explores how to seize this great opportunity to transform office work.

*The Role of Transit in Creating Livable Metropolitan Communities* Transit Cooperative Research Program, National Research Council (U.S.). Transportation Research Board, 1997 Discusses how transit impacts and improves community life in the United States.

**The Last Refuge** David W. Orr, 2012-09-26 Patriotism is the last refuge of scoundrels -SAMUEL JOHNSON, 1775 a tightly reasoned, excellently written book that should be lethally effective in helping readers who aren't experts understand the contours of the crisis. - TOLEDO BLADE Updated and revised following the 2004 elections, *The Last Refuge* describes the current state of American politics against the backdrop of mounting ecological and social problems, the corrosive influence of money, the corruption of language, and the misuse of terrorism as a political issue. Setting out an agenda that transcends conventional ideological labels, David Orr contends that partisan wrangling is only a symptom of a deeper dysfunction: The whole political machinery that connects Americans' fundamentally honorable ideals with public policy is broken. The book offers a withering critique of the failings of the Bush administration, supplemented by new essays that look at the national-level dominance of the Republican Party and examine the fallacy that the evangelical right represents a Christian majority. After analyzing the challenges

of reforming the current system, Orr offers an empowering vision of a second American Revolution that peaceably achieves sustainability and charts a hopeful course for forward-looking citizens.

### **The Politics of Collaborative Public Management** Robert

Agranoff,Aleksey Kolpakov,2023-06-30 Although one often thinks of collaborative management and related group problem-solving as different interests coming together in peaceful harmony, nothing could be further from reality. Collaboration in real-world action requires steering and negotiation in virtually every situation, with a considerable process that precedes agreement. This progression is, in effect, a mini political and managerial process we have come to know as collaborative politics and its management. This volume explores the process and operations of collaboration and collaborative politics, from routine transactions—or small p politics—to the significant issue forces, or big P politics. Collaboration is defined here as the process of facilitating and operating in multiorganizational arrangements for addressing problems and producing solutions through the contributions of several organizations and individuals. Throughout the book, readers are gradually exposed to analysis of key findings in collaborative politics from the long research tradition in policy and political science. This book adapts a series of stories to highlight some of the dynamics of collaborative politics from a range of jurisdictions. It further analyzes the efficacy of storytelling as a learning tool and contributor to practice in different contexts. With collaborative politics often associated with negotiations among administrative actors, authors Drs. Robert Agranoff and Aleksey Kolpakov demonstrate how interorganizational/interagency collaboration operates and is managed, as well as how it has been modified or adjusted in its fundamental core concepts of bureaucratic organization and hierarchy. The Politics of

Collaborative Public Management is designed as a core text for undergraduate and graduate classes on collaborative management and governance.

**Leveraging Constraints for Innovation** Sebastian Gurtner, Jelena Spanjol, Abbie Griffin, 2018-10-02 Provides managers with actionable insight into a select set of innovation constraints and how to best deal with them This PDMA Essentials Book, the third in this series, provides a framework of individual, organizational, and market and societal constraints that guides managers in identifying specific constraints related to their innovation activities and provides them with corresponding tools and practices to overcome and leverage those constraints. Written by a team of international innovation experts, **Leveraging Constraints for Innovation: New Product Development Essentials** from the PDMA is presented in three parts. The first part, **Individual Constraints**, provides insights into how to: simultaneously solve social and commercial needs for greater creativity; apply a multi-stage approach to overcome knowledge sharing in teams; and anticipate and account for psychographic differences among customers during product launch. In the second part, **Organizational Constraints**, insights emerge that provide guidance on how to: identify and solve for sources of innovation constraints within the company; implement and manage virtual NPD teams; and effectively organize new service development in professional services. The last part, **Market Constraints**, examines how to: adapt firm capabilities to overcome constraints preventing consumers in low-end and under-resourced markets from purchasing new products; implement inclusive innovation strategies to address markets constrained by underdeveloped infrastructures; develop solutions for women and other disadvantaged market traders in emerging markets. This book:

Is a single comprehensive volume that covers the full spectrum of constraint-related strategies and techniques in a coherent, integrated fashion Provides a set of frameworks, techniques, and tools that can be immediately implemented by individuals across firms Offers how-to knowledge on specific tools and methods as applied to innovating products and services when facing constraints as well as for the development of new business models Integrates problem- and solution-based knowledge to enable companies to develop sustainable growth strategies by leveraging constraints and restrictions toward innovation strategies, processes and offerings Leveraging Constraints for Innovation: New Product Development Essentials from the PDMA is an ideal book for all product development professionals, including marketers, engineers, project managers, and business managers in both startups and well-established firms, and from a broad range of industries from heavy manufacturing to the service sector.

**Leveraging People and Profit** Bernard Nagle,Perry

Pascarella,Warren G Bennis,2012-09-10 The manager who can balance the people and profit factors has the best chance of succeeding in tomorrow's corporation. The altrupreneur\_one who conducts the affairs of an enterprise with conspicuous regard for the welfare of others\_builds communities that produce value for all the organization's stakeholders. This new breed of leader responds to the needs of the organization and the demands of people coming to the workplace and marketplace. Drawing examples from top and middle management, the authors describe the characteristics of altrupreneurs and the core principles by which they operate: their values and vision, optimism, integrity, confidence, and enthusiasm. Altrupreneurial organizations create innovation-friendly environments, where it is not only safe to innovate, it is encouraged. This book shows what it means to

challenge the routine, be other-centered, and build community.

Bernard A. Nagle has over 22 years of executive operations experience in the fields of manufacturing, quality assurance, supply chain management, distribution, strategic planning, and new product development. A native of Pennsylvania, Mr. Nagle currently resides in the St. Louis area. Perry Pascarella is a nationally recognized authority on humanistic management, worker motivation, and the role of business in society. Until 1996, he was vice president-editorial of Penton Publishing Inc., publisher of 42 business and professional magazines. Mr. Pascarella has collaborated with such celebrated management experts as Peter Drucker, Tom Peters, and Frederick Herzberg. He lives in the Cleveland area.
