World Drug Report 2009 ,2009-07 The World Drug Report 2009 presents comprehensive information on the illicit drug situation. It provides detailed estimates and trends on production, trafficking and consumption in the opium/heroin, coca/cocaine, cannabis and amphetamine-type stimulants markets. This year, for the first time, the Report includes special feature sections on the quality of drug data available to the United Nations Office on Drugs and Crime (UNODC), trends in drug use among young people and police-recorded drug offences. It also discusses one the most formidable unintended consequences of drug control 'the black market for drugs' and how the international community best can tackle it

Le Moci ,1987

Towards Knowledge Societies Unesco,2005 Urges governments to expand quality education for all, increase community access to information and communication technology, and improve cross-border scientific knowledge-sharing, in an effort to narrow the digital and knowledge divides between the North and South and move towards a smart form of sustainable human development.

Information Economy Report 2010 United Nations Conference on Trade and Development (UNCTAD),2010-11-02 The Information Economy Report 2010: ICT, Enterprises and Poverty Alleviation is the fifth in the flagship series published by the United Nations Conference on Trade and Development (UNCTAD). As one of few annual reports that monitor global trends related to information and communication technologies (ICTs) from a development perspective, the Report is a valuable reference source for policymakers in developing countries. In the 2010 edition, special attention is given to the potential impact of ICTs in enterprises for reducing poverty and improving livelihoods. The evidence presented in this Report suggests that more attention should be given by policymakers and other stakeholders to opportunities in this area.

Collision Course Hans Greimel,William Sposato,2021-06-22 Named one of the Best Business Books of 2021 by The Wall Street Journal In Japan it's called the Ghosn Shock—the stunning arrest of Carlos Ghosn, the jet-setting CEO who saved Nissan and made it part of a global automotive empire. Even more shocking was his daring escape from Japan, packed into a box and put on a private jet to Lebanon after months spent in a Japanese detention center, subsisting on rice gruel. This is the saga of what led to the Ghosn Shock and what was left in its wake. Ghosn spent two decades building a colossal partnership between Nissan and Renault that looked like a new model for a global business, but the alliance's shiny image fronted an unsteady, tense operation. Culture clashes, infighting among executives and engineers, dueling corporate traditions, and government maneuvering constantly threatened the venture. Journalists Hans Greimel and William Sposato have followed the story up close, with access to key players, including Ghosn himself. Veteran Tokyo-based reporters, they have witnessed the end of Japan's bubble economy and attempts at opening Japan Inc. to the world. They've seen the fraying of keiretsu, Japan's traditional skein of business relationships, and covered numerous corporate scandals, of which the Ghosn Shock and Ghosn's subsequent escape stand above all. Expertly reported, Collision Course explores the complex suspicions around what and who was really responsible for Ghosn's ouster and why one of the top executives in the world would risk everything to escape the country. It explains how economics, history, national interests, cultural politics, and hubris collided, crumpling the legacy of arguably the most important foreign businessman ever to set foot in Japan. This gripping, unforgettable narrative, full of fascinating characters, serves as part cautionary tale, part object lesson, and part forewarning of the increasing complexity of doing global business in a nationalistic world.

Politics and the Mass Media in Britain Ralph Negrine,2003-09-02 This fully-updated new edition of Politics and the Mass Media provides a comprehensive introduction to the role of mass communications in politics at all levels, from election campaigns, news reports and lobbying groups to the media activities of pressure groups. The relationship between politics, politicians and the media is a matter of increasingly contentious debate, as politicians' awareness of the importance of the media becomes more sophisticated amidst rapidly-advancing media technology and control. Providing a review of the nature and content of political communications and of recent theoretical developments, Negrine addresses the issues surrounding today's mass media, including cable and satellite television, investigation of the press, the relationship between the state and broadcasting institutions and the ever-present question of whether or not Britain needs a media policy. This new edition includes: * Case studies from television and the press * Fully revised text with updated sections on the press, broadcasting and media legislation * Brand new chapters on Europe and globalisation

Water Communication Celine Herve-Bazin,2014-04-14 Water Communication aims at setting a first general outlook at what communication on water means, who communicates and on what topics. Through different examples and based on different research and contributions, this book presents an original first overview of “water communication”. It sets its academic value as one distinct scientific domain and provides tips and practical tools to professionals. The book contributes to avoid mixing messages, targets and discourses when setting communication related to water issues. The book facilitates coordination within the water sector and its organizations as water is a wide field of applications where inadequate words and language understanding between its stakeholders is one of the main obstacles today. Water Communication provides and describes: a general outlook and retrospective of the history of the water sector in terms of communication the landscape of organizations communicating on water and classification of topics the differences between communication, information, mediation, raising awareness examples of communication campaigns on water Water Communication is a vital resource for communication managers, utility managers, policy makers involved in water management and students in water sciences and environment. Colour figures from the book are available to view on the WaterWiki at: <http://www.iwawaterwiki.org/xwiki/bin/view/Articles/WaterCommunicationAnalysisofStrategiesandCampaignsfromtheWaterSector> Editor: Celine Herve-Bazin, Celsa - Sorbonne University, Paris, France

The Theory of the Growth of the Firm Edith Tilton Penrose,2013-12 2013 Reprint of 1959 American Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. This edition reprints the text from the 1959 First Edition originally published by Wiley. Why do some firms perform better than others? What enables a firm to grow and take advantage of its opportunities? Currently much discussion of these questions pivots around the ideas of competencies and capabilities, and the concept of the learning organization or knowledge-creating company. The Theory of the Growth of the Firm is a rich and pioneering work that addresses these questions and laid the foundation for this approach often referred to as the resource based view of the firm. Edith Penrose analyzes managerial activities and decisions, organizational routines, and knowledge creation within the company and argues that they are critical to the ability of a firm to grow. This work has become a classic business book and remains relevant to this day.
