It provides detailed estimates and trends on production, trafficking and consumption in the opium/heroin, coca/cocaine, cannabis and amphetamine-type stimulants markets. This year, for the first time, the Report includes special feature sections on the quality of drug data available to the United Nations Office on Drugs and Crime (UNODC), trends in drug use among young people and police-recorded drug offences. Law and the Semantic Web V. Richard Benjamins,Pompeu Casanovas,Joost Breuker,Aldo Gangemi,2005-02-09 by Roberto Cencioni At the Lisbon Summit in March 2000, European heads of state and government set a new goal for the European Union – to become the most competitive knowled- based society in the world by 2010. As part of this objective, ICT (information and communication technologies) services should become available for every citizen, and for all schools, homes and businesses. The book you have in front of you is about Semantic Web technology and law. Law is something omnipresent; all citizens – at some points in their lives – have to deal with it. In addition, law involves a large group of professionals, and is a mul- billion business world wide. Information technology is important because it that can improve citizens’ interaction with law, as well as improve legal professionals’ work environment. Legal professionals dedicate a significant amount of their time to finding, reading, analyzing and synthesizing information in order to take decisions, and prepare advice and trials, among other tasks. As part of the “Semantic-Based Knowledge and Content Systems” Strategic Objective, the European Commission is funding projects to construct technology to make the Semantic Web vision come true. 1 The articles in this book are related to two current foci of the Strategic Objective : • Knowledge acquisition and modelling, capturing knowledge from raw information and multimedia content in webs and other distributed repositories to turn poorly structured information into machi- processable knowledge.

Historical Origins of International Criminal Law Morten Bergsmo,CHEAH Wui Ling,SONG Tianying,YI Ping,2015-11-19

Historical Origins of International Criminal Law Morten Bergsmo,CHEAH Wui Ling,YI Ping,2014-12-12 The historical origins of international criminal law go beyond the key trials of Nuremberg and Tokyo but remain a topic that has not received comprehensive and systematic treatment. This anthology aims to address this lacuna by examining trials, proceedings, legal instruments and publications that may be said to be the building blocks of contemporary international criminal law. It aspires to generate new knowledge, broaden the common hinterland to international criminal law, and further consolidate this relatively young discipline of international law. The anthology and research project also seek to question our fundamental assumptions of international criminal law by going beyond the geographical, cultural, and temporal limits set by the traditional narratives of its history, and by questioning the roots of its substance, process, and institutions. Ultimately, we hope to raise awareness and generate further discussion about the historical and intellectual origins of international criminal law and its social function. The contributions to the three volumes of this study bring together experts with different professional and disciplinary expertise, from diverse continents and legal traditions. Volume 1 comprises contributions by prominent international lawyers and researchers including Judge LIU Daqun, Professor David Cohen, Geoffrey Robertson QC, Professor Paulus Mevis and Professor Jan Reijntjes.
