Vietnam Tourism Huong T. Bui, Giang T. Phi, Long H.

Pham, Huong H. Do, Andrew Le, Binh Nghiem-Phu, 2022-02-18

Vietnam has experienced rapid growth within its tourism industry during the past decades. This growth is part of Vietnam's opening economy allowing a wide range of forms of tourism. *Vietnam Tourism: Policies and Practices* provides a comprehensive review of tourism development in Vietnam. Part I outlines the history of tourism, the role and involvement of public and private sectors in governance and planning, and the markets for tourism. Part II offers analysis and assessment of various types of tourism in Vietnam, including marine and island, eco, heritage, dark and community-based tourism. Part III centres on current operational issues of tourism, hotels and events. Written by scholars with extensive research experience on tourism in Vietnam this book is a reliable source of reference for students, researchers and industry practitioners who are interested modern tourism specifically in Vietnam and Southeast Asia.

Rice and Baguette Vu Hong Lien, 2016-09-15 The once-obscure cuisine of Vietnam is, today, a favorite for many people from East to West. Adapted and modified over thousands of years, it is probably best known as a particularly delicious result of combining traditional southeast Asian cookery with visible outside influences—notably, the crunchy baguette—from its French-occupied past. Drawing on archeological evidence, oral and written histories, and wide-ranging research, Vu Hong Lien tells the complex and surprising history of food in Vietnam. *Rice and Baguette* traces the prehistoric Việt's progress from hunter-gathers of mollusks and small animals to sophisticated agriculturalists. The book follows them as they developed new tools and practices to perfect the growing of their crops until rice became a crucial commodity, which then irrevocably changed their diet, lifestyle, and social structure. Along the way, the author shows how Việt cuisine was dramatically influenced by

French colonial cookery and products, which introduced a whole new set of ingredients and techniques into Vietnam. Beautifully illustrated throughout and peppered with fascinating historical tales, *Rice and Baguette* reveals the long journey that Vietnamese food has traveled to become the much-loved cuisine that it is today.

Politics and Constitutions in Southeast Asia Marco

Bünthe, Björn Dressel, 2016-07-15 In recent years the constitutional landscape of Southeast Asia has changed tremendously. Against a worldwide background of liberalization, globalization, and democratization, states in the region have begun to alter their constitutions, reinforcing human rights provisions, and putting in place institutional safeguards, such as constitutional courts and human rights commissions. On closer examination, however, the picture is very complex, with constitutional developments differing greatly between states. This book explores a range of current constitutional developments in the different states of Southeast Asia through a distinct political lens. Drawing on comparative and single case studies, it considers various constitutional areas, including constitution drafting, human rights, legal safeguards and the continuing role of the military, sets constitutional developments in the wider political and historical context of each country, and makes comparisons both with Western democracies and with other developing regions. The book concludes by assessing overall how far constitutional practices and trajectories are converging towards a liberal Western model or towards a distinctly Southeast Asian model.

The Bronze Drums and the Earrings - Volume One of A Traveller's Story of Vietnam's Past Tan Pham, 2021-10-26 A Google search for a book on Vietnamese history will result in an overwhelming number about the war, which ended in 1975. This book offers an overview of Vietnamese history from prehistory to the present day and is written for people interested in history from a traveller's perspective. It specifically focuses on the period

from 700 to 111 BCE. It briefly discusses the origin of the Vietnamese and the three characters who shaped its early history: the Hùng kings – the founders of Vietnam, An Dương Vương, Zhao Tuo and the battles involved during the transfer of power from one to the next. The final battle ended the country's autonomy and placed the country under Chinese dynastic rule for one thousand years to the 10th century. It also tells the stories of the mythical Four Immortals, the bronze drums in the north, and the earrings in the centre and south. It recounts the tragic love story of the Magic Crossbow, the 2200-year-old fort of Cổ Loa. It has 71 photographs, maps and diagrams.

Television in Post-Reform Vietnam Giang Nguyen-Thu, 2018-10-12 This book explores Vietnamese popular television in the post-Reform era, that is, from 1986, focussing on the relationship between television and national imagination. It locates Vietnamese television in the experiences of everyday life and the prevailing network of power relations resulting from marketization and globalization, and, as such, moves beyond the clichéd assumption of Vietnamese media as a mere propagandist instrument of the party state. With examples from a wide range of television genres, the book demonstrates how Vietnamese television enables novel conditions of cultural oppression as well as political engagement in the name of the nation. In sharp contrast to the previous image of Vietnam as a war-torn land, post-Reform television conjures into being a new sense of national belonging based on an implicit rejection of the socialist past, hopes for peace and prosperity, and anxieties about a globalized future. This book highlights the richness of Vietnam's current culture and identity, characterized, the book argues, by 'fraternity without uniformity'.

The Routledge Handbook of Tourism in Asia C. Michael Hall, Stephen J. Page, 2016-09-13 Asia is regarded as the fastest growing area for international and domestic tourism in the world today and over the next 20 years. Given the economic, social and

environmental importance of tourism in the region, there is a need for a comprehensive and readable overview of the critical debates and controversies in tourism in the region and the major factors that are affecting tourism development both now and in the foreseeable future. This Handbook provides a contemporary survey of the region and its continued growth and development as a key destination and generator of tourism, which is marked by a high proportion of intra-regional travel. The book is divided into five sections. This first section provides an introduction to the region and context to the nationally focused chapters. The next three sections are then broadly based on the three UNWTO Asian regions: South-East Asia, South and Central Asia, and East and North-East Asia, providing readers with a valuable snapshot of tourism at various scales, and from various approaches and positions. The concluding section considers future prospects for tourism in Asia. The handbook is interdisciplinary in coverage and is also international in scope through its authorship and content. It presents a range of perspectives and understanding of the processes and forces that are shaping tourism in this fascinating and dynamic region that is one of the focal points of global tourism. This is essential reading for students, researchers and academics interested in tourism in the growth region of Asia now and in the future.

Advances in Architecture, Engineering and Technology

Haşim Altan, Samad Sepasgozar, Abdullateef

Olanrewaju, Francisco José García Peñalvo, Alessandro Gaetano

Severino, Tiko Iyamu, Ju Hyun Lee, 2022-12-14 This book

summarizes the latest studies regarding innovation in urban design and planning. It shares many tips and insights about sustainable solutions for the issues facing transport systems, innovative digital technologies, and ICT trends. The book touches upon the need to integrate the three fields of Architecture, Engineering, and Technology that have become indispensable. This is intended to respond to the increasing human needs and

population growth in cities on one hand and to develop a holistic approach that helps overcome challenges to sustainability and environment management on the other hand. With the power of engineering in practice, problems of design and development once considered too complex to be dealt with other than empirically, intuitively, or by trial and error, are now becoming more solvable and applicable. This book offers strategies and solutions that enable designers to bring together knowledge in the fields of architecture, engineering, and technology to overcome challenges facing in modern times.

New Perceptions of the Vietnam War Nathalie Huynh Chau Nguyen, 2014-12-03 The effects of the War outside present-day Vietnam are ongoing. Substantial Vietnamese communities in countries that participated in the conflict are contributing to renewed interpretations of it. This collection of new essays explores changes in perceptions of the war and the Vietnamese diaspora, examining history, politics, biography and literature, with Vietnamese, American, Australian and French scholars providing new insights. Twelve essays cover South Vietnamese leadership and policies, women and civilians, veterans overseas, smaller allies in the war (Australia), accounts by U.S., Australian and South Vietnamese servicemen as well as those of Indigenous soldiers from the U.S. and Australia, memorials and commemorations, and the legacy of war on individual lives and government policy.

Living Next to the Giant Le Hong Hiep, 2016-12-23 This book examines how the interaction between political and economic factors under Doi Moi has shaped Vietnam's China policy and bilateral relations since the late 1980s. After providing a historical background, the book examines the conflicting effects that Doi Moi has generated on bilateral relations. It demonstrates that Vietnam's economic considerations following the adoption of Doi Moi contributed decidedly to the Sino-Vietnamese normalization in 1991 as well as the continuous improvements in

bilateral ties ever since. At the same time, Vietnam's economic activities in the South China Sea and China's responses have intensified bilateral rivalry and put their ties under considerable strains. The book goes on to argue that Doi Moi has indeed brought Vietnam newfound opportunities to develop a multi-level omni-directional hedging strategy against China. Finally, the book concludes by looking at the prospects of democratization in both countries and assessing the future trajectory of their relations under such circumstances. As the most comprehensive and up-to-date survey of Vietnam's relations with China over the past thirty years, the book is a useful reference source for academics, policymakers, students, and anyone interested in contemporary Vietnam foreign policy in general and Vietnam-China relations in particular.

Vietnam and the South China Sea Do Thanh Hai, 2016-12-01
Studies of the escalating tensions and competing claims in the South China Sea overwhelmingly focus on China and its increasingly assertive approach, while the position of the other claimants is overlooked. This book focuses on the attitude of Vietnam towards the South China Sea dispute. It examines the position from a historical perspective, shows how Vietnam's position is affected by its wish to maintain good relations with China on a range of issues, and outlines how Vietnam has occasionally made overtures to both the United States and Japan in order to bolster its position, and considered the possibility, so far resisted, of taking China to formal arbitration under the auspices of the United Nations Convention on the Law of the Sea. The book concludes by assessing the future prospects for Vietnam's position in the dispute.

China's Rise In Mainland Asean: Regional Evidence And Local Responses Suthiphand Chirathivat, Buddhagarn Rutchatorn, Wasutadon Nakawiroj, 2020-09-28
In today's rapid rise and expansion of China's influence all around the world and in ASEAN during the past two decades, there has been an

increasing awareness of various countries and regions adjusting themselves to the new trends, both in terms of opportunities and risks alike. This has become necessary due to the rapid changes in many aspects — political landscapes, economic issues, as well as social and cultural considerations. This book, *China's Rise in Mainland ASEAN: Regional Evidence and Local Responses*, provides timely insights on some of the latest issues pertaining to ASEAN and China, rapidly shifting interactions and upcoming geostrategic challenges. ASEAN can be said to be undergoing a new era, with China becoming more intertwined and involved with the ASEAN region than ever before. The complexity of the regional dynamics means that this phenomenon cannot be captured with a single narrative or discipline of study. In addressing the matters at hand, this book sets out to examine and provide deeper understandings on the regional implications, and local responses from ASEAN countries, and from the perspective of the region as a whole. The underlying rationale is that adequate understanding on the matters involved in this new ASEAN-China era will help to encourage better and mutually beneficial relationships between both sides. The analysis of this book will be categorized into four main themes — (1) 'The Big Picture', concerning China's policies, strategies, and diplomatic stances, (2) 'Implications and Responses', dealing with how ASEAN members react and respond to China's actions and regional influence, (3) 'Perspectives on Trade, Investment and External Debt', which handles the economic facets of the ASEAN-China interactions, and (4) 'Connectivity in Focus', addressing various emerging and existing dimensions of connectivity expansion between ASEAN and China, both physical and virtual.

Researching China in Southeast Asia Ngeow Chow-Bing, 2019-03-26 This book maps out the state of China Studies in seven Southeast Asian countries from different perspectives. It looks at the history, current status, and characteristics of the study of China in Indonesia, the Philippines, Thailand, Vietnam,

Malaysia, Singapore, and Myanmar, and what factors shaped the development and prospects of Sinology and Chinese Studies in these countries. For the first time, China experts from within and outside of this region, using a wide range of biographical, historical, bibliographical and comparative methodologies, tell the stories of how intellectuals and scholars in selected Southeast Asian countries understand, study, and research China. Their studies are providing different perspectives and discourses on China. Chapters discover and explore common factors such as the presence of sizeable ethnic Chinese communities, historical and current interactions between China and Southeast Asia, and the diverse intellectual influences in the region. A novel insight into the study of China in Southeast Asia, this book will be of interest to academics in the fields of China-Southeast Asia relations, the intellectual history of Southeast Asia, the intellectual history of Chinese Studies in the world and the politics of Knowledge production.

Beyond Political Skin Phạm Văn Thuỷ, 2019-01-01 This book explains the dynamics behind the economic transformation from the colonial era to the post-independence period in Indonesia and Vietnam. It analyses the different Vietnamese and Indonesian government approaches to the economic legacies of colonialism remaining in these countries after independence. It also demonstrates that despite critical differences between the two nation-states, the Vietnamese and Indonesian leaderships were pursuing similar long-term goals: to create a truly independent national economy. The book discusses the way in which the Indonesian government established complete economic control, resembling the socialist transformation of North Vietnam in the 1950s, and the various means by which the government of South Vietnam concentrated economic power in its own hands during the late 1950s and early 1960s. It also explores how the Indonesian government was determined remove the economic legacy of Dutch colonialism by placing the entire economy under

strong state control and ownership in accordance with the spirit of Guided Democracy and Guided Economy in the late 1950s and the early 1960s. This book is a point of reference for students, researchers and academics interested in a comparative analysis of the economic systems implemented by the colonial and fascist powers in Indonesia and Vietnam.

The Road to Dien Bien Phu Christopher Goscha, 2023-08-15
A multifaceted history of Ho Chi Minh's climactic victory over French colonial might that foreshadowed America's experience in Vietnam. On May 7, 1954, when the bullets stopped and the air stilled in Dien Bien Phu, there was no doubt that Vietnam could fight a mighty colonial power and win. After nearly a decade of struggle, a nation forged in the crucible of war had achieved a victory undreamed of by any other national liberation movement. *The Road to Dien Bien Phu* tells the story of how Ho Chi Minh turned a ragtag guerrilla army into a modern fighting force capable of bringing down the formidable French army. Taking readers from the outbreak of fighting in 1945 to the epic battle at Dien Bien Phu, Christopher Goscha shows how Ho transformed Vietnam from a decentralized guerrilla state based in the countryside to a single-party communist state shaped by a specific form of "War Communism." Goscha discusses how the Vietnamese operated both states through economics, trade, policing, information gathering, and communications technology. He challenges the wisdom of counterinsurgency methods developed by the French and still used by the Americans today, and explains why the First Indochina War was arguably the most brutal war of decolonization in the twentieth century, killing a million Vietnamese, most of them civilians. Panoramic in scope, *The Road to Dien Bien Phu* transforms our understanding of this conflict and the one the United States would later enter, and sheds new light on communist warfare and statecraft in East Asia today.

Trúc Lâm Buddhism in Vietnam Laura Thuy-Loan

Nguyen,2021-01-13 In the thirteenth century, King-Monk Trần Nhân Tông founded the Trúc Lâm Thiền (Chan/Zen) sect. During the Golden Age in Vietnamese Buddhist history, the sect flourished under three patriarchs with renowned Thiền masters. Unfortunately, the Trúc Lâm sect faded over the following centuries, and Thiền Buddhism in Vietnam, for the most part, disappeared. In the late twentieth century, a growing new religious movement led by Thích Thanh Từ, a Pure Land monk, called for a restoration of Trúc Lâm Thiền Buddhism. Who is Thích Thanh Từ? How and why did he choose to revive this particular sect and its emancipation practices? Trúc Lâm currently boasts hundreds of monasteries and thousands of monks and nuns in Vietnam and beyond, but how have the forces of modernity influenced its original traditions? Through existing literature and extensive onsite fieldwork, this book analyzes the history and revival of a forgotten Buddhist sect and examines the movement's reform.

Central-Local Relations in Asian Constitutional Systems

Andrew Harding,Mark Sidel,2015-12-17 This book examines territorial governance in Asia in the context of central-local relations. In an era of attempts to deal with issues such as decentralisation, conflict involving ethnic and religious enclaves, and demands for regional autonomy, it is timely to examine central-local relations in a pan-Asian perspective, assessing the attempts in a range of different constitutional systems from Japan to Myanmar to re-order constitutional structures for local government. The book looks at the constitutional systems for organising central-local relations in Asia and attempts to draw conclusions from contemporary experiences.

Impact of China's Rise on the Mekong Region Yos

Santasombat, 2015-06-16 This volume presents a contemporary analysis of the impact of China's rise on the Mekong Region at a critical point in Southeast Asian history. As the most populated country and the second largest economy in the world, China has become an increasingly influential player in global and regional affairs in recent decades. Economic ties between China and her southern neighbors are particularly strong. Yet relations between China and the Mekong region are embedded in complex socio-cultural and political issues. China's accelerated growth, increasing economic footprint, rapid military modernization, and

global search for energy, natural resources, and food security have created a wide range of new challenges for smaller countries in Southeast Asia. These new challenges both encourage and limit cooperation between China and the emerging ASEAN Economic Community (AEC). The authors pay close attention to these challenges with particular focus on the impact of Chinese investment, trade, foreign aid, and migration.

The Economy and Business Environment of Vietnam

Roderick Macdonald, 2020-08-17 This Palgrave Pivot provides an introduction to the economy and business environment of Vietnam, a member of the ASEAN Economic Community whose economy is rapidly growing. The introduction argues that though there may be perceived disadvantages in investing in Vietnam, there are a number of benefits as well, such as the country's openness to trade and foreign direct investment, the increasing ease of doing business there and the dynamism of the economy. The book then provides an overview of Vietnam's economic policy since 1975, covering reunification, attempts at a command economy, and finally renovation under Doi Moi Policy. Further chapters cover the expansion of the private sector, interest in foreign investment, and the peculiarities of marketing and finance in Vietnam. As an edited volume with chapters written by Vietnamese scholars across economics, history, and business, this book is critical reading for researchers studying Vietnam and other Asian economies and for businesses interested in expanding into that market.

Descending Dragon, Rising Tiger Vu Hong Lien, Peter Sharrock, 2014-11-15 Outside of its war with the United States, Vietnam's past has often been neglected and understudied. Whether as an aspiring subordinate or a rebel province, Vietnam has been viewed by most historians in relation to its larger neighbor to the north, China. Seeking to reshape these accounts, *Descending Dragon, Rising Tiger* chronicles the vast sweep of Vietnam's tumultuous history, from the Bronze Age to the present

day, in order to lay out the first English-language account of the full story of the Vietnamese people. Drawing on archeological evidence that reveals the emergence of a culturally distinct human occupation of the region up to 10,000 years ago, Vu Hong Lien and Peter D. Sharrock show that these early societies had a sophisticated agricultural and technological culture much earlier than previously imagined. They explore the great variety of cultures that have existed in this territory, unshackling them from the confined histories of outsiders, imperial invaders, and occupiers in order to show that the country has been central to the cultural, political, and ethnic development of Southeast Asia for millennia. Unrivaled in scope, this comprehensive account will be the definitive history of the Vietnamese people, their culture, and their nation.
