Nature's Web Peter Marshall,2015-02-12 This powerful book provides the first comprehensive overview of the intellectual roots of the worldwide environmental movement - from ancient religions and philosophies to modern science and ethics - and synthesizes them into a new philosophy of nature in which to ground our moral values and social action. It traces the origins and evolution of the dominant worldview that has built our industrial, technocratic, man-centered civilization, and brought us to the current ecological crisis. At the same time, it uncovers an alternative cultural tradition in the world's different religions and philosophies and describes how these ideas are now surfacing and coalescing to form an ecological sensibility and a new vision of nature which recognizes the inter-relatedness of all living things. Finally, this book integrates these varied traditions with modern physics and the science of ecology into a larger philosophical whole that provides the environmental movement with a comprehensive vision of an organic and sustainable society in harmony with nature. As ecological disasters continue to threaten our planet, becoming worse with every passing moment of indifference, it has become clear that we must take action. We must change our relationship with nature, and return to the days when our lives were intimately connected to and dependent upon the natural world. Nature's Web lays the foundations for that change by explaining where our complex ideas about nature come from, why they are wrong, and what we can do to change them.

Canada's Entrepreneurs John English,2011-01-01 Beginning with an accessible overview of the rise of entrepreneurialism in Canada, it features portraits of 61 individuals organized thematically. Here, readers will meet a variety of seminal characters: the merchants of the first trading posts and the commercial empire of the St. Lawrence; the industrialists of the Maritimes, Central Canada, and the West; the railway builders and urban developers; and everyone in between.--Résumé de l'éditeur.

The Routledge Handbook of Events Stephen J. Page,Joanne Connell,2014-10-14 The Routledge Handbook of Events explores and critically evaluates the debates and controversies associated with this rapidly expanding discipline. It brings together leading specialists from range of disciplinary backgrounds and geographical regions, to provide state-of-the-art theoretical reflection and empirical research on the evolution of the subject. It is the first major study to examine what events is as a discipline in the twenty-first century, its significance in contemporary society and growth as a mainstream subject area. The book is divided in to five inter-related sections. Section one evaluates the evolution of events as a discipline and defines what events studies is. Section two critically reviews the relationship between events and other disciplines such as tourism and sport. Section three focuses on the management of events, section four evaluates the impacts of events from varying political, social and environmental perspectives and section five examines the future direction of growth in event-related education and research. It offers the reader a comprehensive synthesis of this field, conveying the latest thinking and research. The text will provide an invaluable resource for all those with an interest in Events Studies, encouraging dialogue across disciplinary boundaries and areas of study.

Self-Esteem Issues and Answers Michael H. Kernis,2013-04-15 Research and theory on self-esteem have flourished in recent years. This resurgence has produced multiple perspectives on fundamental issues surrounding the nature of self-esteem and its role in psychological functioning and interpersonal processes. Self-Esteem Issues and Answers brings together these various perspectives in a unique format. The book is divided into five sections. Section I focuses on core issues pertaining to the conceptualization and assesment of self-esteem, and when self-esteem is optimal. Section II concentrates on the determinants, development, and modifiability of self-esteem. Section III examines the evolutionary significance of self-esteem and its role in psychological processes and therapeutic settings. Section IV explores the social, relational, and cultural significance of self-esteem. Finally, Section V considers future directions for self-esteem researchers, practitioners, parents and teachers. This volume offers a wealth of perspectives from prominent researchers from different areas of psychology. Each expert contributor was asked to focus his or her chapter on a central self-esteem issue. Three or four experts addressed each question. The result is that Self-Esteem Issues and Answers provides a comprehensive sourcebook of current perspectives on a wide range of central self-esteem issues.

Peter the Great: His Life and World Robert K. Massie,2012-02-22 PULITZER PRIZE WINNER • An “urgently readable” (Newsweek) biography of

the captivating tsar who changed Russian history—from the New York Times bestselling author of *Nicholas and Alexandra*, *The Romanovs*, and *Catherine the Great* “Enthralling . . . as fascinating as any novel and more so than most.”—The New York Times Book Review Against the monumental canvas of seventeenth- and eighteenth-century Europe and Russia unfolds the magnificent story of Peter the Great, crowned co-tsar at the age of ten. Robert K. Massie delves deep into his life, chronicling the pivotal events that shaped a boy into a legend—including his “incognito” travels in Europe, his unquenchable curiosity about Western ways, his obsession with the sea and establishment of the stupendous Russian navy, his creation of an unbeatable army, his transformation of Russia, and his relationships with those he loved most: Catherine, the robust yet gentle peasant, his loving mistress, wife, and successor; and Menshikov, the charming, bold, unscrupulous prince who rose to wealth and power through Peter’s friendship. Impetuous and stubborn, generous and cruel, tender and unforgiving, a man of enormous energy and complexity, Peter the Great is brought fully to life.

Visual Prosthetics Gislin Dagnelie, 2011-02-19 Visual Prosthetics provides an in-depth analysis of the principles of operation, current state, anticipated developments, and functional aspects of visual prosthetics restoring sight to visually impaired individuals. This volume uniquely describes the human visual system in health and disease in a pedagogical and didactic manner, fitting to professionals and researchers with a bioengineering background. Readers will find a balanced overview of electrical, molecular chemical and synthetic chromophore stimulation, in addition to the biophysics and psychological aspects of vision restoration. Unlike competitive texts, this introduction also includes the need and methods for functional evaluation and rehabilitation. Professionals in the field of biomedical engineering and graduate and postgraduate researchers will find Visual Prosthetics a valuable reference.

Bonds Hildy Richelson, Stan Richelson, 2011-09-27 Updated edition of the established classic on investing in bonds In *Bonds: The Unbeaten Path to Secure Investment Growth*, Second Edition, the fully revised and updated edition of the classic guide to demystifying the bonds market, veteran investor husband and wife team Hildy and Stan Richelson expose the myth of stocks' superior investment returns and propose an all-bond portfolio as a sure-footed strategy that will ensure positive returns. Case studies, detailed bond strategies, and a financial planning overview bring home the value of bonds in achieving financial goals. Presenting a broad spectrum of bond-investment options, and describing how to purchase bonds at the best prices, the book shows how to make real money by investing in bonds. The strategies presented here are designed to help the reader determine how to use bonds to take control of their own financial destiny. New edition includes information on corporate bonds, emerging market bonds, municipal bonds, the new global ratings, and how to protect against municipal defaults Looks at how bond portfolios protected against market volatility in the 2007-2008 crash and how they can do the same in the future Includes information on how the bond market has changed The wealthiest investors and financial advisers use the bond strategies outlined in this book to maximize the return on their portfolios while providing security of principal With more bond options available than ever before, *Bonds* continues to be a must-have for anyone looking to understand the investment opportunities available to them.

The Outfit Gus Russo, 2008-12-02 This is the story of the Outfit, the secretive organized crime cartel that began its reign in prohibition-era Chicago before becoming the real puppet master of Hollywood, Las Vegas, and Washington D.C. The Outfit recounts the adventures and exploits of its bosses, Tony 'Joe Batters' Accardo (the real Godfather), Murray 'The Camel' or 'Curly' Humphreys (one of the greatest political fixers and union organizers this country has ever known), Paul 'The Waiter' Ricca, and Johnny Rosselli (the liaison between the shadowy world and the outside world). Their invisibility was their strength, and what kept their leader from ever spending a single night in jail. The Outfit bosses were the epitome of style and grace, moving effortlessly among national political figures and Hollywood studio heads-until their world started to crumble in the 1970s. With extensive research including recently released FBI files, the Chicago Crime files of entertainer Steve Allen, first-ever access to the voluminous working papers of the Kefauver Committee, original interviews with the members of the Fourth Estate who pursued the Outfit for forty years, and exclusive access to the journals of Humphrey's widow, veteran journalist Gus Russo uncovers sixty years of corruption and influence, and examines the shadow history of the United States.

The Wiley-Blackwell Encyclopedia of Urban and Regional Studies Anthony M. Orum, 2019-04-15 Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor-in-Chief Anthony Orum, this definitive reference work covers central and emergent topics in the field, through an examination of urban and regional conditions and variation across the world. It also provides authoritative entries on the main conceptual tools used by anthropologists, sociologists, geographers, and political scientists in the study of cities and regions. Among such concepts are those of place and space; geographical regions; the nature of power and politics in cities; urban culture; and many others. The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe, including timely entries on Latin America, Africa, India and China. At the same time, it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today, such as those of Friedmann and Sassen on ‘global cities’. It also includes discussions of recent economic writings on

cities and regions such as those of Richard Florida. Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa, India and China, and, the US and Europe Includes biographies of central figures in urban and regional studies, such as Doreen Massey, Peter Hall, Neil Smith, and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies, urban sociology, urban geography, and urban anthropology.

Radical Food: Health and diet Timothy Morton, 2000 This set reprints a fascinating variety of texts originally published between 1790 and 1820. Offering a unique look at the cultural and literary history of food in the eighteenth century, some highlights include: treatises on food and drink adulteration; vegetarian tracts; the period's most influential pamphlet about boycotting sugar as part of the anti-slavery debate; works on alcohol consumption, Shelley's translation of Euripides' satyr play about cannibalism; and much more.

Rituals of Power Frans Theuws, Janet Laughland Nelson, 2000 13 papers by 16 leading archaeologists and historians of late antiquity and the early middle ages break new ground in their discussion, analysis and criticism of present interpretations of early medieval rituals and their material correlates. Some deal with rituals relating to death, life cycles and the circulation in other contexts of objects otherwise used in the burial ritual. Others are concerned with the symbolism and ideology of royal power, the formation of a political ideology east of the Rhine from the mid-5th century onwards, and penance rituals in relation to Carolingian episcopal discourse on ecclesiastical power and morale. All deal with the creation of new identities, cultures, norms and values, and their expression in new rituals and ideas from the period of the Great Migrations through the Later Roman Empire down to the society of Beowulf and the later Carolingians.

Independent Television in Britain P. Bonner, L. Aston, 2002-12-13 Success out of near disaster, finances taken to the edge of bankruptcy, resignations - this volume tells the dramatic stories of the major new commercial television developments in Britain between 1981-92. This is an authoritative account, from the people involved and from official documents, of the launches and first ten years of Channel 4 and TV-am, the expansion of cable television and early difficulties of satellite broadcasting.

George Harrison Philip Norman, 2023-10-24 From the author of the million-copy selling *Shout! The Beatles in Their Generation* and the bestselling *John Lennon: The Life* comes a revealing portrait of George Harrison, the most undervalued and mysterious Beatle. Despite being hailed as one of the best guitarists of his era, George Harrison, particularly in his early decades, battled feelings of inferiority. He was often the butt of jokes from his bandmates owing to his lower-class background and, typically, was allowed to contribute only one or two songs per Beatles album out of the dozens he wrote. Now, acclaimed Beatles biographer Philip Norman examines Harrison through the lens of his numerous self-contradictions. Compared to songwriting luminaries John Lennon and Paul McCartney he was considered a minor talent, yet he composed such masterpieces as 'While My Guitar Gently Weeps' and 'Here Comes the Sun', and his solo debut album 'All Things Must Pass' achieved enormous success, appearing on many lists of the 100 best rock albums ever. Modern music critics place him in the pantheon of Sixties guitar gods alongside Eric Clapton, Jimi Hendrix, Keith Richards and Jimmy Page. Harrison railed against the material world yet wrote the first pop song complaining about income tax. He spent years lovingly restoring his Friar Park estate as a spiritual journey, but quickly mortgaged the property to help rescue a film project that would be widely banned as sacrilegious, Monty Python's *Life of Brian*. Harrison could be fiercely jealous, but not only did he stay friends with Eric Clapton when Clapton fell in love with Harrison's wife, Pattie Boyd, the two men grew even closer after Clapton walked away with her. Unprecedented in scope and filled with numerous colour photos, this rich biography captures George Harrison at his most multi-faceted: devoted friend, loyal son, master guitar-player, brilliant songwriter, cocaine addict, serial philanderer, global philanthropist, student of Indian mysticism, self-deprecating comedian and, ultimately, iconic artist and man beloved by millions.

Life Strategies, Human Evolution, Environmental Design V. Geist, 2013-11-11 Consider that you were asked how to ensure human survival. Where would you begin? Conservation of resources jumps to mind. We need to conserve resources in order that economic activities may continue. Alas, this is a false start. Resources are always defined by a given economic system, and only it determines what is and what is not a resource. Therefore,

conserving resources implies only the perpetuation of the appropriate economic system. Conservation of resources as we know them has nothing to do with the survival of mankind, but it has very much to do with the survival of the industrial system and society we live in today. We have to start, therefore, at a more basic level. This level, some may argue, is addressed by ensuring for human beings clean genes. Again, this is a mistaken beginning. It is thoroughly mistaken for reasons of science. It is a false start because malfunctioning organs and morphological structures are not only due to deleterious hereditary factors but particularly due to unfavorable environments during early growth and development. Moreover, eugenics is not acceptable to any but a small fraction of society. Eugenics may not be irrelevant to our future, but is premature and should be of little concern until we understand how human genes and environment interact.

Lies with a Straight Face Wayne R. Besen, 2023-10-11 *Lies with a Straight Face* tells the fascinating story of the precipitous rise and fall of the “ex-gay” conversion industry in a manner that is both enlightening and entertaining. This fast-moving, fact-based book is perfect for those who enjoy the marriage of politics, history and current events. The book features the riveting story of the 1998 Truth in Love ad campaign, where the Religious Right’s most prominent organizations joined forces to prove that LGBTQ people could be converted to heterosexuality through prayer and therapy. Their provocative national ad campaign created saturation media coverage, turned “ex-gay” into a household term and sparked innumerable water cooler conversations. In this book, you’ll find out the shocking results of the Truth in Love campaign and learn about what happened to their outspoken “ex-gay” poster boys and girls. *Lies with a Straight Face* also discusses the contemporary con artists in the “ex-gay” industry and offers tangible ways for today’s leaders to fight back. *Lies with a Straight Face* is a sequel published on the twenty-year anniversary of *Anything But Straight: Unmasking the Scandals and Lies Behind the Ex-Gay Myth*. Nominated for two Lambda Literary Awards, Besen’s original book documents the history of conversion “cure” programs from the early 20th Century to 2002. His new book discusses what happened from 2003 up to the present day. “To prevail in our present-day battles, we must learn from our past,” said Besen. “Ex-gay conversion programs are a farce that wreck families and destroy lives.”
