Rules of Conflict Kristine Smith,2009-10-06

Anarchy Rules For eighteen years, Captain Jani Kilian has been hiding from her bloody past. Now she faces trial for what she once did, what she knows now, and what she has become. Eighteen years ago, she was saved by a radical -- and illegal -- medical procedure that added alien genetic material to her own. But her hybrid body is breaking down. And so is everything else. Relations between the human and alien idomeni races are deteriorating as rapidly as Jani Kilian's augmentation. And Jani's reemergence has caused old wounds to reopen and new wounds to form. Perhaps it's time for a damaged soldier to stop fighting; to let the desperate architects of a vast and devouring conspiracy keep the truth well hidden; to let the universe and everyone in it go straight to Hell. Perhaps not...

Happenstance D.R. Strahan,2019-05-07

Happenstance is a small town located in an underground ice-enclosed cavern. Two weeks before Christmas, everyone busily completes the final touches on shopping and planning attire, as well

as practicing new dance steps for the dinner finale of the year. In anticipation of Santa's Christmas Eve ride, excitement seems to be everywhere ... until Uncle Hermes goes missing. The door to Mobil Land has been left ajar, and its interior is in shambles. These are not habits Uncle Hermes would abide. Robye Jax is the son of one of Happenstance's founders. From early childhood, he has been educated in the discipline of scientific expression, so he recognizes the signs. There is no question: the ice moles are on the move. Every twelve years, the ice moles migrate through the cavern walls to reproduce. Forming into colonies of thousands, they activate in sync and begin a chaotic activity called "whorling." The snow bobbies are capable of detecting the eminent whorling event, and they've been sending Robye frantic messages of warning. Oh, yes, Robye knows why Uncle Hermes has gone missing, and he now must get him back before Christmas is destroyed.

Twin Towers Los Angeles Insung Philip Cho, 2013-10-04 Red brick. Cold steel. White concrete. These are the building blocks of Twin Towers. It is the largest mental health facility in the world. What happens inside? Who ends up as inmates? Who runs the facility? The book, Twin Towers Los Angeles, follows the life of Peter Jo for a year. Peter used to be a professional with an MBA from UCLA. He has experienced the best in life, wearing custom clothes, eating at posh restaurants and living in upscale neighborhoods. How does Peter go from living the dream to serving time in Twin Towers? He lives a mundane life in

Pasadena. He then meets a woman, Anna. Who is she? Where does she come from? What does she want? Peter falls under Annas influence. Peter ends up breaking the law. His punishment is time in Twin Towers. In Twin Towers, Peter is faced with many challenges. The most important one is survival. Who can he trust? What is life really like inside the walls of Twin Towers? He quickly learns the rules and the politics that govern life inside with the many gangsters of Los Angeles. One wrong move can cost him his life. Besides the obstacles of jail, Peter has to deal with his mental illness. He sees and hears what others dont. Are they visions? Are they messages from a higher being? Does he see the future?
