Spirit of the Western Way Tina Louise Spalding, 2016-12-19 Change Your Reality by Changing Your Mind "This book describes the systematic and problematic features of your mindset and the society that your collective consciousness is manufacturing so that you can change them. Until you know what has been done to you – until you know what parts of society are harmful to you and to your spiritual evolution – you are stuck. "Western civilization has been manipulated for a very, very long time into negative, low-frequency manifestations and structures of control, limitation, fear, and judgment. You cannot change this until you first see it, accept that it is so, and then, in awareness, shift your consciousness. "These higher-frequency shifts and changes are difficult to attain unless you know what has been inflicted on you and what choices you are making and how they affect you. We bring you basic teachings about reality: what it is, where you come from, why you are here, what your body is, how you get sick, why you thrive, and more. "This book is brought to you by many beings of high frequency who love you and your society very much. We have been assigned the spiritual practice to bring these teachings through this being so that we can help point you in the correct direction to find your way Home. We are Ananda. We are your friends, your teachers, and your fellow travelers on this most magnificent journey into consciousness." p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.0px Helvetica} – Ananda

Compassionate Light in Asia Jin Yong, Daisaku Ikeda, 2013-09-17 'Life is a drama of encounters', writes Daisaku Ikeda at the beginning of this dialogue: 'Beautiful encounters. Momentary encounters. Each person's drama is unique.' This particular encounter, between a celebrated Chinese novelist and prominent Japanese religious leader, illustrates the truth of that reflection. For in the discussion that stemmed from their meetings, Jin Yong (who is sometimes called 'the Asian Dumas') and Daisaku Ikeda were able to find remarkable common ground - what they refer to as a 'karmic bond' - resulting from the particularity of their experiences in wartime and mutual resistance to adversity. Ranging across a variety of engaging themes, the interlocutors explore such topics as the nature of friendship; theories of civilization; world literatures that have inspired them; the importance of free speech; Buddhist perspectives on life and death; and the spiritual search for truth. There is sustained reflection on the horrors of war, and a plea for the importance of memory: Daisaku Ikeda emphasises that 'peace is a battle against forgetfulness', while Jin Yong echoes this in his observation that 'most important is to strive to avoid war, whether it is between countries and whether it be domestic, and thus to enable people to build and improve their lives in a peaceful environment.' Cultural differences between the peoples of China and Japan are explored, sometimes amusingly, with the Japanese propensity for discipline and rules contrasted with the Chinese spirit of creative individualism. But the authors are focused above all on serious issues of meaning and identity, and they reveal the mutual solace both have found - in the face of personal loss and bereavement - in the Buddhist scriptures, especially the Lotus Sutra. Demonstrating a remarkable capacity for empathy throughout, they incarnate in their lives and work an intelligent and sympathetic compassion that represents a beacon of hope to the future direction of Sino-Japanese relations.

Gifts, Virtues and Obligations of University Volunteering Joanna Puckering, 2021-11-29 This book takes a critical, grounded and ethnographic approach to elicit a deeper understanding of university volunteering. Anthropological theories of reciprocal gift exchange are used to re-visit some of the value-laden and at times conflicting ways of understanding volunteering as freely undertaken or coerced, altruistic or self-interested. It also explores how some of the changing uses and expectations of volunteering are related to the exercise of power and to the effect of social norms or structural constraints on agency. The book contains a detailed case study of a UK university, focusing on its relationships with local communities and voluntary organisations to illustrate the complex and culturally situated nature of volunteering and the gift. Joanna Puckering also draws on examples from countries such as the United States and Australia to address wider questions of why people do what they do, and why volunteering motives and outcomes attract differing interpretations. This volume will be relevant to scholars from anthropology, sociology and geography as well as those involved in the higher education and voluntary, corporate and social enterprise sectors.

Straight Edge Ross Haenfler, 2006-06-09 Straight edge is a clean-living youth movement that emerged from the punk rock subculture in the early 1980s. Its basic tenets promote a drug-free, tobacco-free, and sexually responsible lifestyle—tenets that, on the surface, seem counter to those typical of teenage rebellion. For many straight-edge kids, however, being clean and sober was (and still is) the ultimate expression of resistance—resistance to the consumerist and self-indulgent ethos that defines mainstream U.S. culture. In this first in-depth sociological analysis of the movement, Ross Haenfler follows the lives of dozens of straight-edge youths, showing how for these young men and women, and thousands of others worldwide, the adoption of the straight-edge doctrine as a way to better themselves evolved into a broader mission to improve the world in which they live. Straight edge used to signify a rejection of mind-altering substances and promiscuous sex, yet modern interpretations include a vegetarian (or vegan) diet and an increasing involvement in environmental and political issues. The narrative

moves seamlessly between the author's personal experiences and theoretical concerns, including how members of subcultures define "resistance," the role of collective identity in social movements, how young men experience multiple masculinities in their quest to redefine manhood, and how young women establish their roles in subcultures. This book provides fresh perspectives on the meaning of resistance and identity in any subculture.

Meme Wars Joan Donovan, Emily Dreyfuss, Brian Friedberg, 2022-09-20 A groundbreaking investigation into the digital underworld, where far-right operatives wage wars against mainstream America, from a masterful trio of experts in media and tech. Memes have long been dismissed as inside jokes with no political importance. Nothing could be further from the truth. Memes are bedrock to the strategy of conspiracists such as Alex Jones, provocateurs like Milo Yiannopoulos, white nationalists like Nick Fuentes, and tacticians like Roger Stone. While the media and most politicians struggle to harness the organizing power of the internet, the "redpill right" weaponizes memes, pushing conspiracy theories and disinformation into the mainstream to drag people down the rabbit hole. These meme wars stir strong emotions, deepen partisanship, and get people off their keyboards and into the streets--and the steps of the US Capitol. Meme Wars is the first major account of how "Stop the Steal" went from online to real life, from the wires to the weeds. Leading media expert Joan Donovan, PhD, veteran tech journalist Emily Dreyfuss, and cultural ethnographer Brian Friedberg pull back the curtain on the digital war rooms in which a vast collection of antiesablistmentarians bond over hatred of liberal government and media. Together as a motley reactionary army, they use memes and social media to seek out new recruits, spread ideologies, and remake America according to their desires. A political thriller with the substance of a rigorous history, Meme Wars is the astonishing story of how extremists are yanking our culture and politics to the right. And it's a warning that if we fail to recognize these powerful undercurrents, the great meme war for the soul of America will soon be won.

Before We Were Strangers Renée Carlino, 2015-08-18 From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M
