**Learn iPhone and iPad cocos2d Game Development** Steffen Itterheim,2011-07-30  
Learn iPhone and iPad cocos2D Game Development provides a rock-solid introduction to the cocos2d iPhone game engine and related tools. It focuses on the process of creating several games made entirely with cocos2d and little-to-no iPhone SDK and OpenGL code. By creating 2-3 sample games over the course of the book, you'll learn key concepts of the cocos2d game engine and relevant tools like Zwoptex (TextureAtlas), ParticleDesigner (Particle Effects), and others. The example games are modeled after popular App Store games so that they are relevant, recognizable, and immediately fun and inspiring. The games increase in complexity and highlight common recurring cocos2d beginner questions. As you move along, you'll learn about possible stumbling blocks and how to navigate them successfully. As you move from beginning to advanced, you'll encounter general game programming wisdom, tips for performance improvement, as well as pointers to alternative implementations and further reading. It is assumed that the reader has previous programming knowledge but not necessarily with Objective-C. Related topics such as Xcode, Objective-C, the iPhone SDK, and OpenGL are only discussed where absolutely necessary.

**The Inverrary Starter Kit** Janet Elizabeth Henderson,2021-09-02 If you love Susan Elizabeth Phillips for romantic comedy, and Janet Evanovich for suspense, then you'll love everything Janet Elizabeth Henderson writes!  
Goodreads Read the first three romantic comedies in Janet Elizabeth Henderson's award winning Scottish Highlands series, set in the small town of Inverrary! Lingerie Wars What happens when a former military hero accidentally buys an underwear shop in middle-of-nowhere, Scotland? Especially when the town already has a successful lingerie shop, owned by a very sexy, but scarred, ex-model. War. That's what happens. Lingerie war to be specific! It's the local girl against the English invader in this hot, heartwarming romance. Goody Two Shoes What happens when a famous American singer, who specialises in love songs, decides to get married? He calls his manager and asks him to find a suitable bride! The singer doesn't want love, he wants practicality. He wants someone who's as far from Hollywood-fake as you can get. Someone like the cute but efficient librarian in the Scottish town where he's just bought a castle... Magenta Mine He's rich, he's a computer genius, and he's completely incapable of talking to the girl he's been pining for his whole life. If he could just get her alone maybe he'd be able to tell her how he feels. And what better way to do that than to get stuck in an abandoned mine so the girl you adore has to come rescue you?  
PRAISE FOR JANET ELIZABETH HENDERSON Fantastic writing laced with humour and believable Scottish characters and plot. This could only happen in the Scottish Highlands. Absolutely brilliant. *Maker Literacy* Lynn Pawloski, Cindy Wall, 2016-11-07 This book takes the creativity and inventiveness of the maker movement and applies that energy in a new way to help children learn across all subject areas as well as broaden their world view. Traditional library literacy programs have helped many children foster a love of reading, but to prepare this next generation of learners, this programming needs to be modified to include technology. The inherent creativity and inventiveness of the Maker Movement, embracing both classic and innovative technological activities, provides the perfect bridge to invigorate, expand, and update these programs. This alternative to conventional library literacy programming will help children learn throughout all subject areas, see additional possibilities, and make connections in the world around them. With this guide, readers can discover how to apply maker literacy to introduce connections that help children better understand that their experiences in life are interrelated—that art can be made on a 3D printer and that science and technology are an essential part of design. This holistic approach provides a myriad of creative opportunities for both teaching staff and the children they serve. A great resource for youth services librarians in public libraries, this guide to infusing library programs with technology and maker activities to motivate learning will also appeal to preschool and elementary librarians, educators, and parents.
