This compilation of 16 chapters brings together descriptive, theoretical, diachronic and synchronic studies that focus on the structure and interpretation of bare nouns in creoles. The contributions demonstrate the variety and complex nature of determiner systems in creoles and their widespread use of bare nouns in comparison to their source languages. Language Contact and Lexical Enrichment in Israeli Hebrew G. Zuckermann, 2003-11-04 Israeli Hebrew is a spoken language, 'reinvented' over the last century. It has responded to the new social and technological demands of globalization with a vigorously developing multisourced lexicon, enriched by foreign language contact. In this detailed and rigorous study, the author provides a principled classification of neologisms, their semantic fields and the roles of source languages, along with a sociolinguistic study of the attitudes of 'purists' and ordinary native speakers in the tension between linguistic creativity and the preservation of a distinct language identity.

Handbook of Quantifiers in Natural Language Edward Keenan, Denis Paperno, 2012-03-28 Covering a strikingly diverse range of languages from 12 linguistic families, this handbook is based on responses to a questionnaire constructed by the editors. Focusing on the formation, distribution and semantic interpretation of quantificational expressions, the book explores 17 languages including German, Italian, Russian, Mandarin Chinese, Malagasy, Hebrew, Pima, Basque, and more. The language data sets enable detailed crosslinguistic comparison of numerous features. These include semantic classes of quantifiers (generalized existential, generalized universal, proportional, partitive), syntactically complex quantifiers (intensive modification, Boolean compounding, exception phrases) and several others such as quantifier scope ambiguities, quantifier float, and binary quantifiers. Its theory-independent content extends earlier work by Matthewson (2008) and Bach et al. (1995), making this handbook suitable for linguists, semanticists, philosophers of language and logicians alike.

The Palgrave Handbook of European Migration in

Literature and Culture Corina Stan,Charlotte

Sussman,2023-11-20 The Palgrave Handbook of European Migration in Literature and Culture engages with migration to, within, and from Europe, foregrounding migration through the lenses of historical migratory movement and flows associated with colonialism and postcolonialism. With essays on literature, film, drama, graphic novels, and more, the book addresses migration and media, hostile environments, migration and language, migration and literary experiment, migration as palimpsest, and figurations of the migrant. Each section is introduced by one of the handbook's contributing editors and interviews with writers and film directors are integrated throughout the volume. The essays collected in the volume move beyond the discourse of the "refugee crisis" to trace the historical roots of the current migration situation through colonialism and decolonization.

First Language Use in Second and Foreign Language

Learning Miles Turnbull,Jennifer Dailey-O'Cain,2009-08-24 This volume offers fresh perspectives on a controversial issue in applied linguistics and language teaching by focusing on the use of the first language in communicative or immersion-type classrooms. It includes new work by both new and established scholars in educational scholarship, second language acquisition, and sociolinguistics, as well as in a variety of languages, countries, and educational contexts. Through its focus at the intersection of theory, practice, curriculum and policy, the book demands a reconceptualization of code-switching as something that both proficient and aspiring bilinguals do naturally, and as a practice that is inherently linked with bilingual code-switching.
