ASEAN and Global Value Chains: Locking in Resilience and Sustainability

Asian Development Bank,2023-03-01 Analyzing how the role of ASEAN economies in global value chains has helped spur their recovery and cut poverty, this publication shows the need to future-proof these critical networks to ensure inclusive, sustainable, and greener growth. It explains how the expansion of cross-border trade networks has helped Southeast Asian economies bolster manufacturing and spark a wave of job creation and innovation. On the flipside, it considers the associated environmental impact and social inequality. Highlighting systemic shocks to global trade, it explains how economic momentum, stronger institutions, and more inclusive growth can help mitigate risks and build resilient economies.

Integration of Constraint Programming, Artificial Intelligence, and Operations Research Louis-Martin Rousseau,Kostas Stergiou,2019-05-28 This book constitutes the proceedings of the 16th International Conference on Integration of Constraint Programming, Artificial Intelligence, and Operations Research, CPAIOR 2019, held in Thessaloniki, Greece, in June 2019.

The 34 full papers presented together with 9 short papers were carefully reviewed and selected from 94 submissions. The conference brings together interested researchers from Constraint Programming (CP), Artificial Intelligence (AI), and Operations Research (OR) to present new techniques or applications and to provide an opportunity for researchers in one area to learn about techniques in the others. A main objective of this conference series is also to give these researchers the opportunity to show how the integration of techniques from different fields can lead to interesting results on large and complex problems.
